Hunger

Harvard task force to visit B-CS area, 4 other counties

Associated Press

BRYAN — The Harvard task force which listed Brazos County as the hungriest county in Texas will visit the Bryan-College Station area and four other Texas "hunger" counties next week.

Task force doctors plan to be in Texas Feb. 5, 6 and 7, said April Evans, who works on field investigations for the Physician Task Force on Hunger in America at the Harvard University School of Public Health.

A team of doctors will visit Brazos County on Wednesday after a meeting with Gov. Mark White and a briefing from state-level social service officials.

A recent inspection of census data indicates that Brazos County's pov-

erty figures are skewed by the large, non-working student population.

Evans has said that student populations were not factored into the task force's figures in establishing a list of the 150 "hunger" counties — so judged because of a low percentage of food stamp recipients in relation to the number of residents making less than the national poverty standard.

There will be two teams of doctors. The doctors plan to visit Walker, San Saba, Hays and Caldwell counties, in addition to Brazos, the *Bryan-College Station Eagle* reported.

Dr. Larry Brown of Harvard, who chairs the task force, is expected to be among the group that visits Brazos County.

NASA impounds data

(continued from page 1)

Speculation focused on an ominous bright flash that was visible at the base of the fuel tank before the explosion, but shuttle director Jesse Moore said he wanted to discourage that.

"You are asking me to lay out causes," he said. "I'm not prepared to do that."

NASA scheduled a memorial service at the Johnson Space Center in Houston to be held Friday and said President and Mrs. Reagan will attend.

In Palm Bay, a community south of the space center, plans were made to name a school after Christa McAuliffe of Concord, N.H., who was aboard the shuttle as the first "common citizen" to fly in space. She had planned to teach two lessons from space to schoolchildren all across the country.

Killed along with McAuliffe were commander Francis R. Scobee, 46; pilot Michael J. Smith, 40; Judith A. Resnik, 36; Ronald E. McNair, 35; Ellison S. Onizuka, 39, and Gregory B. Jarvis, 41.

An investigation team held its first meeting to start the long inquiry into why the \$1.2 billion shuttle, appearing to be on a perfect course, suddenly exploded 74 seconds after lift-off Tuesday, raining fiery debris into the Atlantic Ocean.

Lt. John Philbin, commander of the Coast Guard cutter Point Roberts, brought back the first load of debris. He said there was 600 pounds of it, much of it in small pieces.

"Most of what we found was bulkhead-type material, aluminum with insulation attached to it," he said. "There were a couple of charred pieces and we did bring in some small cylinder-type tanks this morning."

The Point Roberts was the first military ship on the scene. He said his crew watched the debris coming down and got the location from a tug in the area.

The space agency impounded every scrap of paper, film and data connected with the launch and pleaded with souvenir hunters to

turn in anything they find on the beaches in this central Florida area.

"We need every piece of that because we don't know where the clue might be," said Richard Smith, the director of the Kennedy Space Center.

Recovery crews found some of the ship's heat-shielding external tiles, and the largest remnant was a chunk of metal 12 feet by 4 feet. Moore said it was unlikely that bodies of the crew members would be found.

"I would always like to hold out hope," he said. "However, we've seen a lot of small debris."

The crew apparently had no warning.

"We have no indication that the commander had any sense of anything wrong," William Graham, acting administrator of NASA, said. "The spacecraft was traveling at more than twice the speed of sound at 47,000 feet, which is at the boundary of the stratosphere where there are physical changes such as optical and visual phenomena and shock waves."

Graham said the ship's two solid-rocket boosters, which could be seen heading away from the fireball and forming a huge Y-shaped trail in the sky, were deliberately destroyed by the range safety officer, who gave a computer command that triggered explosives stored aboard the rockets.

"There was an indication one of the solids was heading for a populated area and he took the correct action," Graham said. After a normal launch, the boosters drop off the shuttle fuel tank, parachute into the ocean, and are recovered by waiting ships.

Their condition, had they been intact, might have helped solve the incredible jigsaw puzzle confronting the space agency.

The officials reiterated that there will be no more shuttle flights until investigating teams have made their report and corrective actions are taken.

"I want to assure you, as others have, including the president of the United States, that this loss will not stop us as Americans from exploring the frontiers of science and the frontiers of space," Graham said.

President will attend Houston service for Challenger crew

(continued from page 1)

As of midday, 19 nations and NATO and the United Nations had sent messages of condolences.

Soviet leader Mikhail Gorbachev, whose country has lost four astronauts on space missions, said, "We share the feeling of sorrow in connection with the tragic death of the crew of the space shuttle Challenger. We express our condolences to the people of the United States and to the families."

Speakes said a permanent review board will be named soon to take over from the interim board that already has started collecting data for what he said would be a very detailed and prolonged investigation into the tragedy.

Speakes said it will take "a period of time" before a decision is made on whether to allocate money to replace the Challenger, a \$1.2 billion spaceship that was one of five shuttles.

Sen. John Glenn, D-Ohio, who went to Cape Canaveral, Fla., said he favors building a replacement for Challenger, but predicted there will be no less enthusiasm among congressional supporters of the space program because of the accident.

"I would say don't lose faith in the program," said Glenn.

Cinema III Skaggs Center Starts Friday

★ **FINALLY** ★

Tired of the inconvenience of going to a laundromat. For about the same amount of money that you and your roommates are spending, all of you can enjoy the affordable convenience of having a brand-new, full size, washer and dryer in your house or apartment. (W/D connections required)

IMAGINE THE ADVANTAGES

- Can wash as often as you wish
- No more hassles with the weather
- No more scrounging for quarters
- No more leaving your home to wash

For more details please call Hinhil Rentals at 693-6527 and ask for Phil.

What's up

Thursday

ALPHA GAMMA RHO: will hold a rush reception at 7:30 p.m. at the Walden Pond Apts. clubhouse. All agricultural majors interested in joining a professional-social agricultural fraternity are encouraged to attend. For more information call Richard Williams, 693-3615.

DELTA SIGMA PI: will hold a "Dress for Success" seminar given by Saralyn Morris at 7 p.m. in 206 MSC. Professional attire is requested. For more information call David Schreiber, 764-7808.

GREENPEACE COALITION WITH THE SIERRA CLUB: will hold an organizational meeting at 7 p.m. in 402 Rudder. Dr. Hugh Wilson will speak on "Saving the Navasota Ladies' Tresses: A Wilderness Park for College Station." For more information call Krista Ingram, 696-7873.

TEXAS A&M KENT HANCE FOR GOVERNOR COMMITTEE: will hold a meeting for all students interested in helping with the campaign at 7 p.m. in 302 Rudder. For more information call Matt Wheat, 260-3791.

COLLEGE OF BUSINESS ADMINISTRATION PEER ADVISORS: will sponsor programs on how to survive Econ 204 at 7 p.m. in 127 Blocker and how to survive Bana 361 at 7 p.m. in 130 Blocker.

AGGIES AGAINST DRUNK DRIVING: will hold a general meeting at 7 p.m. in 604 A-B Rudder. New members welcome! For more information call Catherine McLaughlin, 764-7359.

NATIONAL SOCIETY OF BLACK ENGINEERS: will hold a general meeting at 7:30 p.m. in 501 Rudder. For more information call Kenneth Johnson, 696-5740.

INTERNATIONAL STUDENT ASSOCIATION: will hold a general meeting at 8:30 p.m. in 401 Rudder. For more information call Diana Vognin, 764-8313.

BETA ALPHA PSI: will hold a general meeting and have a sistant officer elections at 7 p.m. in 165 Blocker. For more information call Mary Ellen Caff, 260-4469.

DATA PROCESSING MANAGEMENT ASSOCIATION: will hold a general meeting at 7 p.m. in 150 Blocker.

KOREA ACADEMY OF THE TAE KWON DO: will hold a meeting to teach the art of Tae Kwon Do at 7 p.m. in 231 G. Rollie White. For more information call Regan Rychetsky, 260-4278.

JAPANESE STUDENT ORGANIZATION: all interested please call Tetsu Sasaki at 845-4585 or 764-6447.

A&M WRESTLING CLUB: will hold a spring organizational meeting for competition in February and March at 5:45 p.m. in 260 G. Rollie White. For more information call Coach Walton, 693-1052.

Friday

MSC VARIETY SHOW: audition applications are available in 216 MSC. Applications are due in the Variety Show office by February 14. For more information call Staci Paulman, 846-6348.

TEXAS A&M BADMINTON CLUB: will hold its first meeting and practice at 7:15 p.m. in 351 G. Rollie White. For more information call Arvind Singhal, 846-7206.

GRADUATE STUDENT CHRISTIAN FELLOWSHIP: will hold a Bible study program beginning the book of Haggai in the Mediation Room of the All Faith Chapel at 8 a.m. For more information call Steve Grant, 845-4032.

CAMPUS CRUSADE FOR CHRIST: will hold a weekly meeting at 7 p.m. in 108 Harrington.

TAMU CHESS CLUB: will hold a chess tournament in 302 Rudder. For more information call Luis Salinas, 846-5900.

PUERTO RICAN STUDENT ASSOCIATION: will hold a general meeting at 7 p.m. in 502 Rudder. For more information call Edwin Alvarez, 845-4125.

ALPHA PHI ALPHA: will hold a student panel discussion on how to cope with school in 205 HECC at 7 p.m. For more information call Nathan McCleren, 260-7701.
