We're looking for a few sound minds.

So maybe you've never heard of Rohr. That's okay. But internationally known aerospace companies such as Lockheed, McDonnell Douglas, Airbus Industries, to name a few, count on us to provide the technology and hardware to equip their aircraft with engine nacelles that significantly reduce engine noise as well as structural weight. Other on-going programs like the F-14 nacelle for Grumman, RohrBond™ ducts for the F-15 and F-16 engines, thrust reversers for Business Jet Aircraft, nacelles for the Boeing 737, the McDonnell Douglas MD-80, and the Airbus A-300, 310, 320, create stable and diverse assignments. If you've got a mind to let your ideas finish with big results, we could be looking for you. We have a diversity of

challenging opportunities in all aspects of engineering, manufacturing and business. And we offer a choice of two popular Southern California environments.

At our San Diego location, you'll enjoy activities like sailing, tennis and golf all year-round. At our Riverside facility, you'll have easy access to the area's scenic mountains and deserts. Both provide salaries and benefits that are competitive with other aerospace corporations.

If all this sounds like what you're looking for in a career, why not give us a piece of your mind? Contact your Placement Director for an interview or send your resume to: Professional Placement, Rohr Industries, Inc., 8200 Arlington Avenue, Dept. 222, Riverside, CA 92503-1499.
