# Wind shear sensors

THAT PERSON MUST BE

SINCERE AND WILLING TO WORK HARD FOR ALL STUDENTS. I GUESS WE

NEED A SUPER AGGIE!

## Dallas-Fort Worth to install early warning devices

the new wind shear sensors will be

installed. He said the system proba-

bly will be placed along the airport's

DALLAS (AP) — Additional wind shear sensors will be installed at Dallas-Fort Worth International Airport to provide early warning of sudden wind speed changes, officials

cause of the crash of Delta Air Lines Flight 191 at DFW on Aug. 2. The accident killed 137 people.
Installation of the additional sensors is one of the first legacies of that crash, Federal Aviation Administration head Donald D. Engen said

Engen, in Dallas for a commercial

aviation conference, said the FAA also plans to install a more sophisti-

Officials have said the five sensors DFW now has provide limited help to approaching planes.

Experts believe the low-level alert system could warn arriving and de-parting planes of the presence of wind shear, a rapid shift in wind peed and direction that can force planes flying at low altitude into the

Officials have said Flight 191 apcated wind shear detection system — parently encountered a microburst, the most severe form of wind shear, during its approach to the airport

trator of the FAA's Southwest reand crashed about a mile gion, said he does not know when runway. Engen said the crash

controllers more aware need to report weather observed from airport tow 'It's foremost in every mind to provide adec

timely reports," he said. However, pilots have the responsibility for watching

conditions, he said. Because of that response FAA provided a \$2 millio year to United Airlines a aircraft manufacturers to

wind shear training progra pilots recognize wind sh tions and learn escape

# Group seeks woman's land for lignite mine

NECHANITZ (AP) — Esther have not wanted the river authority Matejowsky says the Lower Colorado River Authority wants to take only the best part of her family homestead and use it for a lignite strip mine.

She had held out for three years. The LCRA can buy all her farm but not just the best part of it.

"They are going to take the heart out of this place," Matejowsky said Monday. "That's where our petrified wood is. That's where our dogwoods are. That's where our beauti-

Matejowsky, her son and three daughters are among holdouts who to use their land for the Cummins acres under lease and a Creek mine in Favette County. Officials said the river authority or related facilities. Tho

pond connected to mining operations across her back fence, according to original mine plans. The pond would be on the northeast side of her land. LCRA general manager S. David

Freeman is reviewing the size of the lignite strip mine and expects to have his findings ready next month. A cutback in the size of the mine could mean the Matejowsky land would not be needed.

The LCRA already has acres purchased for light wants about 32 of her 171 acres for a acres were in about 100 p

> The river authority has p judge to gain acce Matejowsky tract and about Matejowsky and her

Marvin, as an experiment 40 acres of bluebonnets, vested the seeds on the Mi homestead 10 miles north Grange.

STOMACH TROUBLE

Because of the stomach's central location in the body, it is richly supplied by the body's nervous system. Since all stomach functions are controlled by nerve impulses, it can be deducted then, that the stomach can function no better then the nerve impulses it receives. When "stomach trouble", a vague term characterized by a variety of symptoms, is present, the reason may be that the nerve impulse supply to it, or to a functionally-re-lated area, has been blocked. Such interference usually occurs in the spine from which nerve trunks flow. In cases like these, a chiropractor may be able to help without resorting to drugs, antacid or syrups.

Please do not ignore the early warning signs: Headache, stiffness in neck/back, painful oints, leg/arm pain, numbness, back/neck pain, shoulder pain, numbness in hands/feet. Early treatment of these signs will minimize your need for additional follow-up visits.

Complimentary consultation and spinal evaluation will be given thru the end of the month. Previous patients of chiropractic who feel the necessity for "only" a spinal adjustment are welcome

Should you feel a need for an appointment please call 696-2100.

Hint: Chiropractic practices can be found in every state, and in many other countries.

Mon., Wed., Fri. 12-7 pm Tues., Thurs., Sat. 8-1 pm 909 Southwest Pkwy. Doctor & Professional Bldg.
