## Primaries to gauge success of LaRouche candidates

WASHINGTON (AP) — Primaries in the next eight days in Texas, Indiana, Ohio and North Carolina will offer the first gauge of whether victories by disciples of political extremist Lyndon LaRouche in Illinois six weeks ago were a fluke or a forecast.

Democratic Party leaders in these four states dismiss the LaRouche candidates, who are running for elected offices ranging from city governments to U.S. senator.

But Illinois Democrats also scoffed at LaRouche candidates — until March 18, when backers of the bizarre LaRouche philosophy won nomination for lieutenant governor and secretary of state.

Since then, Democrats have tried to pinpoint LaRouche candidates nationwide and educate voters about their unorthodox views. A preliminary Democratic National Committee survey showed 140 LaRouche candidates in 21 states compared with LaRouche claims of more than 800 nationwide.

Even as voters prepare to cast their primary ballots in Texas on Saturday and in Ohio, Indiana and North Carolina the following Tuesday, LaRouche supporters have won four congressional nominations in Ohio and Texas by default.

In Texas, LaRouche backers say they have 200 candidates on the ballot, including 12 congressional candidates and one for state agriculture commissioner. Harry Kniffen and Susan Director, both of Houston, are opposed on the Democratic ballot for congressional nominations in the 7th and 22nd districts.

In Ohio, the LaRouche campaign claims 69 candidates on the primary ballot. Don Scott, who got 45,908 votes against Rep. Michael DeWine in 1984, is challenging Sen. John Glenn. There are 14 LaRouche people running for Congress. Of those, Clem Cratty is alone in the Democratic primary in the 4th District and Don Jones has no opposition in the 6th District.

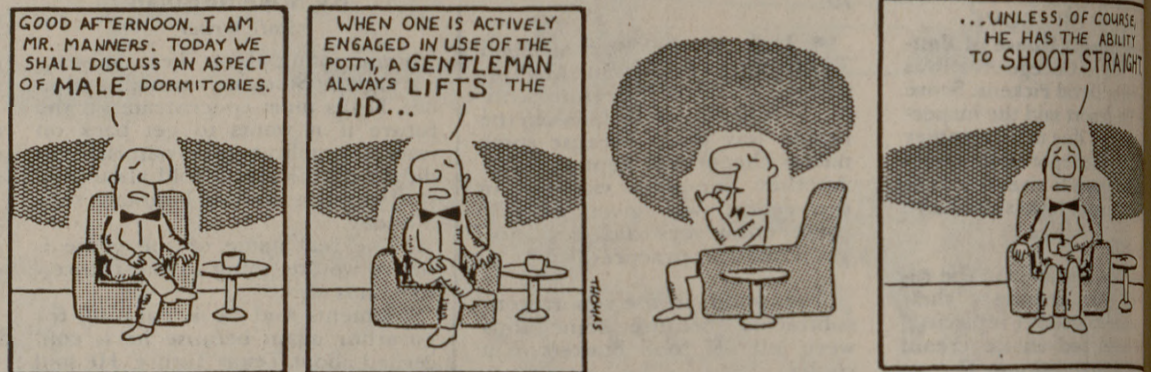

In Indiana, Democratic Senate candidate Jill Long worries about name recognition in her race against LaRouche candidate Georgia Irely. Although Long is the party-endorsed candidate, she is little known.

In North Carolina, there is only one LaRouche-connected candidate on the ballot, Milton Croom.

## Duncan will be renovated despite \$5 million price tag

By Craig Renfro  
Staff Writer

Renovation of the Duncan Dining Hall was approved Friday by the Texas College and University System Coordinating Board despite concern over state budget restraints on campus construction.

The \$5 million project is scheduled to begin in January, said William Peel, vice chancellor for Facilities Planning and Construction for the Texas A&M University System.

Peel said the board did not encourage new construction unless absolutely necessary, but they did promote renovating existing facilities.

Peel said the board approved all state university renovations, and encouraged improving existing facilities.

Texas A&M had no other renovation or construction projects to be considered at the meeting, Peel said.

However, assistant vice chancellor Daniel Whitt said beginning construction for three projects are

The renovation was necessary because Duncan was losing money through high labor costs and wasted food.

— William Peel, vice chancellor for Facilities Planning and Construction.

planned for the spring of 1987. Funding for these projects will come from the Permanent University Fund, he said.

Peel said these projects do not have to go before the Coordinating Board for approval because they are funded by the PUF, not the state.

Whitt said plans are being designed for a \$4.5 million renovation of the Physics Building, and a \$600,000 construction of Horticulture Forest Science greenhouses.

Also, a \$22 million construction plan for the Biochemistry-Biochemistry Building is under design, said. The project will be awarded January, Whitt said.

Peel said the dining hall renovation, which will take one year to finish, will completely renovate kitchen. Funding for the project come from the System auxiliary enterprise funds, he said.

The kitchen's serving style, change from family style to a modern cafeteria style, he said. The change will create smaller tables, allow for faster service, Peel said.

Peel said the renovation was necessary because Duncan was losing money through high labor costs and wasted food.

Whitt said the renovation will create additional utility or maintenance costs. However, if there are additional costs the money will come from dining hall revenues from state funds, Whitt said.

## A&M official to take post at Iowa State University

University News Service

Texas A&M's associate provost, Dr. Charles E. McCandless, has accepted the position of executive vice president at Iowa State University, effective Sept. 1.

The appointment was announced by Dr. Gordon Eaton, who is currently provost and vice president for academic affairs at A&M but will become president of the 26,500-student university in Ames, Iowa, this summer.

McCandless, who holds both bachelor's and master's degrees from A&M and a doctoral degree from North Texas State University, has served A&M for the past 25

years in a variety of faculty and administrative positions.

Prior to his appointment as associate provost in 1983, he served as interim vice president for academic affairs, associate vice president for academic affairs, director of planning and institutional analysis, assistant and associate dean of the College of Liberal Arts, associate dean of the College of Education and as a faculty member in the Department of Educational Psychology.

As executive vice president, McCandless will serve with the first rank of vice presidents in Eaton's absence and will represent him personally in a variety of situations, Eaton said.

## In Advance Student Senate to consider endorsing core curriculum

The Texas A&M Student Senate Wednesday will consider passing a core curriculum resolution in a meeting at 7:30 p.m. in 209 Harrington. If passed, the resolution will express the Senate's endorsement of the core curriculum, which was passed by the A&M's Faculty Senate.

The Senate also will consider passing a bill requesting the installation of a new snack bar on the northwest side of campus to help accommodate students who attend class in the area.

In other action, the Senate will nominate and elect Senate officers and approve executive appointments for 1986-87, which includes approving a new executive position, associate vice president.

Sims said he will appoint Mar Simmons as the associate vice president and Mike Cook as the executive vice president. The Senate also will vote on the speaker of the Senate, the Senate pro tempore and the recording secretary.

## Wise men still seek him

We are a group of faculty who are united by their common experience that Jesus Christ provides intellectually and spiritually satisfying answers to life's most important questions. We are FACULTY FRIENDS available to students who might like to discuss such questions with us.
