

Fehr shoots 69 to claim B.C. Open

ENDICOTT, N.Y. (AP) — Rick Fehr fired a 69 Sunday to claim his first PGA Tour title as he won the \$400,000 B.C. Open golf tournament by two strokes over Larry Mize.

Fehr finished the 72 holes over the 6,699-yard En-Joie Golf Club course with a 17-under-par 267 to call two strokes off the tournament record set by Calvin Peete in 1982. Fehr, whose previous best finish on the tour was a tie for sixth in the Anheuser-Busch Classic, took home the winner's share of \$72,000.

Mize, who had a 68 Sunday, finished two strokes ahead of Howard Witty, who had a final-round 66, while Bobby Wadkins, with Sunday's low round of 65, finished fourth, another stroke back.

Fehr, who had a 3-under-par 34 on the front nine, entered the final round with a three-stroke advantage and Mize brought it to one when Fehr bogeyed the 15th hole for the second straight day. Mize was unable to get any closer, however. Fehr was within one stroke of Peete's record when he bogeyed 15.

Casio challenges you to find more power. At any price.

The amazing Casio FX-4000P programmable scientific calculator. In power, it's comparable to the most highly touted calculators on the market today.

It offers you 160 total functions, including 83 scientific functions, such as hexadecimal/decimal/binary/octal conversions, standard deviation and regression analysis.

Making it easier to deal with long computations, its 12 character

alpha-numeric display scrolls to 79 characters and its instant formula replay feature lets you review, edit and replay your formula at the touch of a button. It even has an answer key that stores your last computed value.

And to make things still easier, the FX-4000P has a "perfect entry" system, which allows you to enter and display a formula exactly as written.

Plus, it has a non-volatile 550 step program memory with 10 program

divisions. This allows 10 different programs to be stored at once.

And it includes up to 94 data memories, which are invaluable for statistical analysis.

Finding all this power at your fingertips is remarkable enough, let alone at half the price of some competitors. If you can put your finger on a scientific calculator that gives you more power at any price, by all means buy it.
