HELP WANTED

## THIS YEAR A LOT OF COLLEGE SENIORS WILL BE GRADUATING. INTO DEBT.

Being a new graduate with a loan to pay off can take the fun out of your start in the "real world." But here's an interesting alternative to the burdens of debt: sign up with the Army, and we'll sign off on your loan.

Each year you serve as a soldier, the Army will reduce your college debt by 1/3 or \$1,500, whichever amount is greater. So after serving just 3 years, your government loan will be completely paid off.

You're eligible for this program with a National Direct Student Loan, or a Guaranteed Student Loan, or a Federally Insured Student Loan made after October 1, 1975. And the loan can't be in default. (Effective April 1, 1986, it is not possible for a soldier to participate in both the GI Bill education program and the Loan Repayment Program.)

College memories should be fond ones. Keep them that way by taking advantage of the Army's Loan Repayment Program. Your local Recruiter can tell you if your loan qualifies. Call today.

**COLLEGE STATION RECRUITING STATION**

## Economic growth increases income in U.S. Northeast

WASHINGTON (AP) — The New England states have reaped the biggest rewards from the current economic expansion, while residents of the energy-producing states have lagged far behind the national average in income gains, the government reported Monday.

The Commerce Department said New Hampshire residents have enjoyed a 30.6 percent income gain since the last recession ended in 1982, the biggest increase of any state.

Nationwide, Americans' personal income has climbed 20.9 percent since 1982 to an average of \$13,867 for every person in the country last year. Consumer prices during this same period were rising 11.9 percent. This means that the average American's income, after adjusting for inflation, increased 9 percent from 1982 through 1985.

But five states had income gains so small they did not even keep up with the rise in inflation. Alaska resi-

dents fared the worst, seeing per capita income rise by just 5.1 percent since 1982.

By contrast, three New England states had income gains far above the national average. After Massachusetts had a 28.5 percent income gain while Connecticut ranked third a 26.9 percent increase.

The six-state New England region, which has been enjoying boom times because of its high technology and defense industries, had the performance for any region of the country, a 27.3 percent increase, while the Southwest had the poorest showing, a 15.2 percent rise.

Energy-producing regions of the country have suffered because of widespread layoffs in oil and drilling brought on by sharp price cuts.

Alaska's weak 5.1 percent rise still left the state with the highest average income at \$18,187 in 1985.

## World Briefs

### Paris post office bomb kills 1, injures 9

PARIS (AP) — A bomb exploded Monday in a post office on the ground floor of Paris' ornate 17th-century city hall, killing a woman and injuring 19 others.

The bomb blew out the windows and window frames on one side of the building and devastated the interior of the post office. It came four days after a

bomb failed to explode on a crowded commuter train in central Paris.

There was no immediate claim of responsibility for the latest attack, which occurred about 7 p.m.

Paris police chief Jean Piquet said the bomb at city hall had been placed "on or under a bench in the post office."

### OPEC members comply with oil pact

NICOSIA, Cyprus (AP) — Members of the Organization of Petroleum Exporting Countries seem to be abiding by an agreement to cut oil production in September and October, a weekly oil review said Monday.

"The whole exercise is being handled with an impressive degree of seriousness by the OPEC

exporters concerned," The Middle East Economic Survey said.

OPEC members agreed last month to cut production in September and October to try to avert an eight-month slide in oil prices.

The agreement would lower OPEC's output by at least 3.3 million barrels a day from July to August levels, said the oil review

### Number of working oil, gas rigs rises

HOUSTON (AP) — The number of working oil and gas rigs in the country rose to 736 this week, an increase of five from last week's 731, Hughes Tool Co. officials said.

Last year at this time, the count was 1,917, company officials reported Monday.

In July, the rig count hit an all-

time low of 663, but was at an upswing before it dropped to 622 in late August, according to officials of the oil toolmaker that has kept industry statistics since 1949.

More than 1,000 rigs have been idle since December when oil prices began to decline, falling as low as \$9 a barrel.

### Dow Jones drops as interest rates rise

NEW YORK (AP) — The stock market posted a broad loss Monday as concern persisted over rising interest rates.

The Dow Jones average of 30 industrials, down 19.96 points on Friday from Thursday's record closing high, dropped another 11.11 to 1,888.64.

Volume on the New York Stock Exchange slowed to 153.30 million shares from 180.62 million Friday.

Bank stocks were notably weak in the face of the recent rise in interest rates.

Energy stocks, meanwhile, fell into profit-taking after their recent rally on recovering oil prices.

Nationwide turnover in NYSE-listed issues, including trades in those stocks on regional exchanges and in the over-the-counter market, totaled 178.9 million shares.

### Tropical storm Danielle heads north

MIAMI (AP) — Tropical Storm Danielle made a slight turn northward Monday into the Caribbean Sea, bringing it over warm water that will provide energy for its development, forecasters said.

At 3 p.m. EDT, the season's fourth named storm was centered near latitude 13.3 north, longitude 63.5 west, or about 400 miles south-southeast of San Juan,

Puerto Rico, in the southeastern Caribbean, the National Hurricane Center in Coral Gables reported.

Danielle's maximum sustained winds were 50 mph with higher gusts in squalls.

In addition to Danielle, forecasters were watching a tropical wave, moving west at about 20 mph in the middle of the Atlantic Ocean, for possible development.

### Jury selection begins in N.Y. Mafia trial

NEW YORK (AP) — Brushing aside defense complaints of ill health, double jeopardy and pre-trial publicity, a federal judge began picking an anonymous jury Monday for the trial of eight men accused of participating in the Mafia's ruling commission.

Among the questions potential jurors were asked was whether they had ever heard of Al Ca-

pone, the notorious Chicago mob boss.

Mafia history is at the heart of the case as the government tries to prove that from the 1930s until recent months, leaders of the five mob families based in New York met periodically as a "commission" to divide territories, share spoils of criminal operations and, sometimes, authorize a murder.

### GRADUATE STUDENTS!

Does your department have a graduate student organization (G.S.O.)? If not, you may be missing some of the benefits a G.S.O. can provide:

- Channel of communications between faculty and students
- Planning of social functions
- Help in recruiting and orienting new students
- Information on taxes, insurance, etc.
- And many more

To find out more, come to the workshop sponsored by your Graduate Student Council. There is no charge and we will provide refreshments.

When: September 13, 9:00 a.m. — 12:00 p.m.  
Where: Room 112, Oceanography and Meteorology Building

For more information, call:  
Lee Panella 845-2151  
Greg Smith 845-1151
