IN SEPTEMBER, MSC PRESENTS ...

Since its dedication in 1950 the MSC has been the "living room" for Aggies as well as a memorial to fallen former students. But the MSC is more than a building; it is also an organization and a program. The MSC provides services and conveniences that aid faculty and students in their daily lives, while the MSC programs provide the opportunity to enrich those lives.

The MSC logo is the symbol that identifies quality programming that has become a tradition for the MSC and for Texas A&M. The four crescents in the logo represent the different programming areas provided by the MSC: entertainment, educational, recreational, and cultural. The center dot is a symbol of the student whose needs are the focus of the programming.

Get involved with these quality programs and services and find a home at the MSC!
