American researcher defects to U.S.S.R.

MOSCOW (AP) — The official wiet news agency Tass reported ednesday that an American cancer searcher defected to the Soviet nion after being fired from his job cause he opposed U.S. foreign

The news agency said Arnold ockshin, his wife and their three ldren arrived in Moscow Wednesy after being granted political asy-

Tass said Lockshin was a 47-yeard biochemist and oncologist who aded the cancer research labodory at St. Joseph's Hospital in Joseph 1980 until last month. Lockshin was quoted as telling Tass he and his wife made a very dif-ficult decision to leave the United States after being persecuted for that he had brought with him exam-waging "an active struggle against ples of what he claimed were FBI

Lockshin fired because of job performance'

HOUSTON (AP) — Officials at St. Joseph Hospital, where Arnold Lockshin worked before he and his family defected to Russia, say the chemist's contract was terminated in August because of poor job performance.

Dr. John Stehlin, scientific director of research foundation at St. Joseph Hospital, said Lockshin was "a decent person but his performance deteriorated during the past six months. Just that, simply that and nothing else."

The hospital released a statement Wednesday

"Arnold Lockshin was employed by the Stehlin Foundation from July 1980 to August 1986. During this time, he worked as a pharmacologist and chemist in the St. Joseph Hospital cancer re-

"His contract was terminated in the latter part

of August 1986 because of job performance."

The official Soviet news agency Tass reported Wednesday that Lockshin was fired from his job

three children.

as a cancer researcher because he opposed U.S. foreign policy.

Stehlin, however, said he knew nothing about Lockshin's political beliefs.

A man identified as Lockshin, a woman identified as his wife, Lauren, and three children were shown on the Soviet television evening news. Speaking in English, the man told TV that he and his wife had opposed the Vietnam War and had fought for social justice in the United States ever since.

"Obviously, not everything that lies before us will be easy and simple,

and perhaps one of the main diffi-

bachelors' degree in biochemistry. Debra Allen, a spokeswoman for the University of South Carolina, said Lockshin had not done any work at the school.

Margery Heffron, a spokeswoman for Harvard University, said there is no record of an Arnold Lockshin in the Medical School's appointment records dating back to 1910. She said there also is no record of him with the Harvard Personnel

Divestment

gets tabled

resolution

Student senators

to discuss it further

By Rodney Rather

Staff Writer

The Student Senate on Wednes-

day tabled a resolution calling for

the Texas A&M University System

to divest itself of all investments in

companies that do business with

the bill but promptly gave speaking privileges to the bill's writer, Jim

Cleary said the resolution states that A&M students oppose apart-

lution tonight, but does anyone agree with apartheid?" Cleary said.

"We can do something," he said.
"Let us tell this state, this commu-

nity, the world, that Texas A&M will

not support apartheid or fund it ei-

Cleary also said a market value of about \$5.5 million is invested by the

A&M System in various companies

ple their inalienable rights," he said. Larry Yarak, a history professor

with a special interest in African history, was invited as a guest speaker

by Cleary and said divestment is the only way South African blacks can be

Corps leader seeks end to civilian-cadet friction

policy of the Republican administra-

Lockshin was quoted as saying

By Jo Ann Able Staff Writer

Commitments must be made by dets and civilian students if future nflicts similar to those that ocurred at Friday's yell practice are to e prevented, the commander of the orps of Cadets said Wednesday in a

Garland Wilkinson said it was not e intent of the Corps to bring in-

ory to any student, nor is it ever.

Several students — civilians and adets — sustained injuries at yell ractice when a group of civilians atempted to run across Kyle Field and adets tried to stop them. Some of the civilians told *The Battalion* that adets tackled and beat them as they

Wilkinson said two cadets had to taken to the hospital for injuries ustained. Cadets said these injuries ere a hyperextended elbow and a

Wilkinson said the Corps' junior ass is charged with escorting the ggie Band to vell practices at Kyle

"Also, over the years, the juniors nave taken on the added responsibil-ty of guarding the playing surface of Kyle Field," he said.

When contacted by The Battalion, oth Bob Wiatt, director of security nd University Police, and Dr. John

services, said they knew of no legal right the Corps has to protect the field.

Wilkinson said it isn't stated anywhere that the juniors are responsible for keeping all others off the field, but added, "It's a role they have acquired through time, exactly

During yell practice, juniors stand on the stadium's track while bass players in the band stand along the

Michael Kelley, a sophomore general studies major and bass corporal for the Aggie Band, said the bass players have traditionally lined up on the sidelines to guard the band.

"We're protecting them from other schools, not from other Aggies — to keep people from stealing in-struments and starting fights," Kelley said. "And that has happened in

the past."

He said he didn't hit anybody Friday night and his objective was to get the people off Kyle Field because it's

Though thought to be a memorial by many, Kyle Field has never been designated as such officially, according to the University Archives. The 55 flags that fly around the stadium are dedicated to the 55 Aggies who died during World War I.

"We're Aggies, and we should be J. Koldus, vice president for student Aggies. I'd like there to be a better does.

bond between the Corps of Cadets

He said the family's telephone

conversations were tapped, private

mail opened, and that they were fol-

lowed and received provocative phone calls, Tass reported.

and the civilians. "I think it's stupid — Aggies fight-

Ricky Allen, a sophomore engineering technology major and bass player in the band, also thinks of Kyle Field as a memorial.

"How would you feel if somebody ran over your father's grave, and just kept running over it and just being as disrespectful to you as possible?" Allen asked.

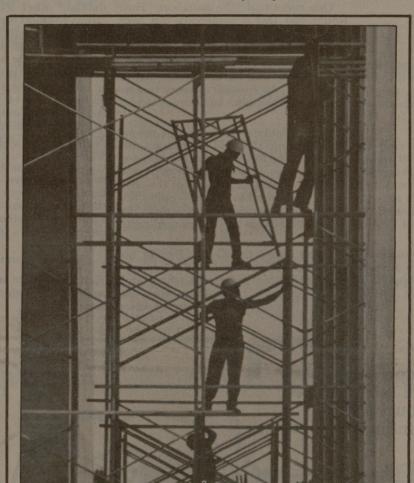

Allen added, "We're supposed to use whatever possible to keep them

The only way to stop people who run on the field and refuse to go to the sidelines is to tackle them, Allen

"We hold them down until we get other buddies there," Allen said. "If possible we pick them up and take them off the field." He said one man they were at-

tempting to carry off the field was kicking, hitting, biting, scratching, spitting and calling names. Wilkinson said a very important point is being missed throughout

"Aggies care about their fellow men, whether that person wears a uniform or not," he said. "Not being in the Corps doesn't make anyone less of an Aggie, but starting a fight

Low-power station to start in 2 weeks

U.S. officials to be allowed to see plane-crash survivor

lay it will allow U.S. Embassy offiials to see the American who survived when Sandinista troops shot down a supply plane, and that it will return the bodies of Americans who

Foreign Ministry spokeswoman Angela Saballos read over govern-ment-run radio a Foreign Ministry statement of protest addressed to J.S. Secretary of State George P. She said embassy officials could

uestion 45-year-old Eugene Hasenfus, and that the bodies of Americans killed when the plane was shot lown would be returned.

But Saballos did not say where Hasenfus was being held nor did she say when American officials would be allowed to see him.

Officials of the leftist Nicaraguan government say three people were killed: two Americans, identified as pilot William J. Cooper and co-pilot Wallace Blaine Sawyer Jr., and a hird man who has not been identified but is believed to be an Amerian. The plane was hit by missile fire and crashed into the jungle of southern Nicaragua

The government protest, signed wacting Foreign Minister Victor Hugo Tinoco, said the supply plane vas an example of the United States' flagrant violation of international rights and the United Nations char-

Barricada, the Sandinista party ewspaper, said in the first account capture that Hasenfus walked mile through the jungle after the C-123 was shot down Sunday. It said an army patrol found him in an abandoned shack, where he had fashioned a hammock from his par-

Capt. Rosa Pasos, who speaks for

MANAGUA, Nicaragua (AP) — the Defense Ministry, said the American from Marinette, Wis., was being questioned at a location she refused

"All I can say is that he spent the night with our authorities and that he is being treated well," she said.

In Washington, Lt. Col. Arnie Williams, a Pentagon spokesman, said Wednesday that the Defense Department has been unable to establish any military background for Cooper. Williams said too many men with that name served in the military and additional information was

Williams confirmed that a U.S. Air Force record existed for someone with the name Wallace Blaine

Born April 20, 1945, Sawyer graduated from the U.S. Air Force Academy and served from June 5, 1968, to Sept. 13, 1974, receiving an honorable discharge as a captain. Sandinista officials claim cargo found on the plane indicates it was part of a CIA operation to supply U.S.-backed rebels who have been fighting the leftist Sandinistas for 41/2 years. They said the Americans were U.S. military advisers from El Salvador.

Enrique Bermudez, military chief of the FDN, described Hasenfus and the others aboard the flight as friends and heroes of the Contras.

"Those men who flew in that plane were men who worked as vol-unteers and in a private way," he said in a broadcast over the Contras' clandestine station monitored in neighboring Honduras.

President Reagan and other U.S. officials deny that the plane or the men were connected with the Amer-

ican government. Hasenfus said he had flown from

El Salvador, but Salvadoran President Jose Napoleon Duarte told reporters in his country that the Salvadoran government was not involved

B-CS to get new television channel

By Kristin Theodorsen Reporter

A local low-power television station, K28AK Channel 28, will be on the air within two weeks, ays John Barger, senior vice president of Clear Channel Communications Inc

Barger couldn't give a specific date because the station needs acceptance from the Federal Communications Commission. But he says the station is installed and ready to go on the air.

The LPTV transmitter is co-housed with the KORA-FM transmitter, which Clear Channel is leasing from KORA, he says. 'Towers are quite expensive things to build,"

Barger says. "We were fortunate to find one that we could utilize.' There are no studios or employees at the pre-

sent time, Barger says, and Clear Channel initially will run pre-taped program material.
"Anything we do live, in the initial stages, will be done from the KORA-KTAM studios," Bar-

Clear Channel hasn't yet determined the type of programming the new station will provide, Barger says. Until Clear Channel finds permanent programming material and corrects any fine-tuning problems, Channel 28 will not be promoted, he says.

Clear Channel, based in San Antonio, operates 14 radio stations across the country, but the LPTV station is its first television venture, Bar-

Dr. Don Tomlinson, assistant professor of journalism, says the LPTV station probably will

"Towers are quite expensive things to build. We were fortunate to find one that we could utilize."

- John Barger, senior vice president of Clear Channel Communica-

rely on advertising revenue as its only source of income. Since Clear Channel operates 14 radio stations, it probably is in a good position to make advertising deals with some national advertisers, Tomlinson says.

Barger says the fact that McCaw Cablevision offers local advertising on its cable channels won't hamper Clear Channel's efforts to compete

for the local advertising dollar.

The FCC awarded Clear Channel Communications a construction permit for an LPTV station in early 1985. Another construction permit was awarded at about the same time to Global Village Video Resource Center, a non-profit organization based in New York.

The FCC awards construction permits by a lottery system. The lottery determines a winner of a particular site, channel, frequency and location

for LPTV stations. In September 1985, Global Village announced plans to build an LPTV facility in College Station. Global Village planned to have it operating

John Reilly, executive director of Global Village, says the delays came about because the FCC may have left somebody out of the lottery accidentally. The FCC now is trying to rectify the

"I can't, at the moment, talk about any direct plans because I won't know until we resolve this issue," Reilly says.

There's no telling how long it will take the FCC to find a way to fix their own mistake, if there is a way, Reilly says. In the meantime, he says, Clear

Channel will get a head start. Barger says once Channel 28 gets its own studio, Clear Channel will try to work with Texas A&M for possible student internships, but that is

Barger says Clear Channel hasn't discussed any plans with McCaw Cablevision to be included in the local cable package since the station isn't on

Wayde Klein, sales manager at McCaw, says the chances of the LPTV station getting on McCaw's channel lineup won't be very good un-

less public demand calls for it. An LPTV station has to provide a lot of variety in its programming to really be successful, Klein But he thinks Bryan-College Station is a

great market for an LPTV staton because A&M students would provide a potentially strong viewing audience, he says.
