MSC Council to review GOP program

The Memorial Student Center Council on Monday will hear a report from the MSC Political Forum committee on the outcome of its Nov. 3 program that featured Republican speakers.

The meeting begins at 6 p.m. in 216-T MSC.

The Political Forum program, "A Panorama of Republican Perspectives on Issues Facing the State of Texas," featured Vice President George Bush, U.S. Sen. Phil Gramm, Gov.-elect Bill Clements and 6th District Rep. Joe Barton on the day before the general elections were held.

The council also will hear a report on the MSC Opera and Per-

forming Arts Society presentation, "Festival of India," and Thursday's Kirk Whalum concert, sponsored by the MSC Black Awareness Committee.

The MSC Student Conference on National Affairs, held each spring with delegates from schools in North America and a number of speakers, has been recommended for approval by the council's Program Review Committee. The council will review the recommendation at the meeting.

The council also will hear a report from the MSC Amateur Radio Committee on its bonfire communications efforts.

Association to sponsor carriage drives

The Southwest Division of the Carriage Association of America is sponsoring a pleasure drive and clinic at Texas A&M Saturday.

The carriages are pulling out of Olsen Field at 10 a.m. and the drive is open to the public.

There will be a lunch break at noon, followed by a clinic designed to teach people who are interested in learning carriage driving the way to train a horse to respond to a driver's commands.

The clinic will start at 1 p.m. A second drive, which will go through the Research Park, will begin at 2:30 p.m.

In addition, an obstacle course

will be set up for drivers to try out or sharpen their skills while others are attending the clinic.

Parson's Mounted Cavalry is hosting the Carriage Association and the cavalry will add riders and a covered wagon to the drive.

The drive will include many different breeds of horses, ponies, donkeys and mules.

The animals will be pulling a wide variety of new and antique carts and carriages.

A Sunday morning country drive is planned for those staying over or for those not able to attend the drive on Saturday.

For further information, contact Tomya Groth at 693-5702.

B-CS parade entries being accepted

Entries for the 1986 Bryan-College Station Holiday Parade are being accepted through Nov. 21.

This year's parade, "Home for the Holidays, 1886-1986," will be an official sesquicentennial event that will serve as a final review of Texas' 150-year history.

The parade is scheduled to begin at 3 p.m. on Dec. 7 at the intersection of New Main and

Texas Avenue in College Station. It will proceed north on Texas Avenue to Sulphur Springs Road.

Awards will be given for first- and second-place entries in several categories and a cash award will go to the best overall float.

Any group or individual interested in entering the parade should contact the Chamber of Commerce at 260-9898.

Central American aliens given tests for tuberculosis

HARLINGEN (AP) — Chest X-rays were given Thursday to more than 100 Central American aliens at a federal detention center who had positive skin tests for tuberculosis, officials say.

The aliens were among those detained by the Immigration and Naturalization Service when the Casa Oscar Romero sanctuary in San Benito said it was closing last month.

INS assistant district director John Luvender says that of the 222 aliens under Casa Romero's care who were turned over to the INS on Oct. 30 and later detained, 105 had positive skin tests for tuberculosis.

Dr. Ralph Landsberg, director of medical services at the INS detention center west of Port Isabel where the aliens are being held pending hearings, says it is not unusual for up to 50 percent of a group being tested to show positive for TB.

He says the aliens from Casa Romero who were tested Thursday mostly were from Guatemala, El Salvador and Nicaragua.

A positive skin test means someone may have been exposed to tuberculosis, and a chest X-ray is used to determine whether the disease is present.

The state Health Department has been testing aliens detained at the center every two weeks since 1982, says Van Fitzgerald, tuberculosis control program manager for the

agency's Public Health Region 8 based in Harlingen.

"Because Casa Romero closed it has become a media event," says Landsberg. "There's nothing different today than the last five years."

"There's an awful lot of tuberculosis in Central America, and that means many people have been exposed to TB and have fought it off," he says.

Fitzgerald says a vaccine available in Mexico and Central America that purportedly prevents TB will cause someone to test positive for life. He says the number of aliens with positive TB skin tests may be due to their taking the medicine.

San Benito city officials recently ordered that Casa Romero, operated by the Roman Catholic Diocese of Brownsville, be shut down.

The diocese closed the center Oct. 30 and transported 523 aliens from Central and South America to the INS office in Harlingen. Of the 523, 222 were taken to the Port Isabel processing center. The others were released or posted bond.

Casa Romero continues to provide a place for Central Americans seeking sanctuary, and at mid-week it had about 90 occupants.

Diocesan officials have asked to meet with San Benito authorities to discuss the situation. A meeting is planned for Friday.

WALT DISNEY WORLD COLLEGE PROGRAM

Walt Disney World Co. Representatives will present an information session on the Walt Disney World College Program Wednesday, November 19 at 6:30 p.m. at Harrington Education Center, Room 105.

Interviews for spring internship positions will be scheduled November 20 at the Placement Office. Targeted majors include: all majors; rank—sophomore and above. Contact Dave Worley for more information, 845-7725.
