World and Nation

Aquino, rebels consent to cease-fire of 60 days

MANILA, Philippines (AP) -The government and rebels resolved a dispute over weapons Tuesday, removing the last obstacle to a truce in the Communist insurgency that has plagued the archipelago since 1969. Spokesmen for President Corazon

Aquino and the rebel National Democratic Front said the 60-day ceasefire would begin at noon today (10 p.m. Tuesday CST) as scheduled.

Both sides said the agreement provides that armed guerrillas will not enter "population centers" and soldiers will not confiscate rebel weapons during security patrols.

One of Aquino's first acts after becoming president last February was to free political prisoners, including some former Communist leaders, as part of a "national reconciliation"

that also involved seeking a ceasefire with the rebels.

She said there was no reason for them to continue fighting because President Ferdinand E. Marcos had

fled the country. Defense Minister Juan Ponce Enrile said she was too soft, and there were reports of coup plots by mili-tary officers loyal to him. She fired Enrile on Nov. 23.

The last-minute negotiations over the cease-fire stemmed from a military threat to seize illegal weapons, including those belonging to the Communist New People's Army that were found in "security operations."

Agreement came several hours after the military said rebels killed five people in an attack on the southern island of Mindanao.

Report: American women delay marriage longer than ever before

WASHINGTON (AP) - American women are postponing marriage longer than ever before, tying the knot later than even their great-great grandmothers of the 1890s, the Census Bureau reported Tues-

The typical first-time bride is 23.3 years old when she goes to the altar, the highest median age for women to marry since the government started keeping that statistic in 1890.

And the median age of 25.5 for their bridegrooms hasn't been topped since 1900, according to the bureau's study, "Marital Status and Living Arrangements: March 1985.'

Addressing a wide variety of topics the study also reported that:

• The number of unmarried cou-

in recent years, confirming a preliminary finding issued a year ago. New figures, due out later this month, are expected to show a small increase for

about 1.9 million after skyrocketing

• There were 128 divorced people per 1,000 people living with their new spouses, up from 47 per 1,000 in 1970. The ratio for men is 103, compared with 153 for women, because men are more likely to re-marry after divorce and do so sooner than women. • More than one American adult

in 10 lives alone, triple the number since 1960, although the rate of increase slowed in recent years as tighter economic conditions discour-• The number of unmarried cou-ples living together has leveled off at their own households.

Indeed, among peoplea 24, 60 percent of men an cent of women still lived home with their parents or dormitories. That is up f cent of men and 35 per women in 1960.

Postponement of man young people has been wid by social scientists in recent children of the post-World Baby Boom generation opto centrate on their education

The result has been a sto in the median age of ma the record lows of 20.1 fe and 22.5 for men posted in

Study reports growth of low-wage jobs

WASHINGTON (AP) - More than half the 8 million net new jobs created between 1979 and 1984 in the United States paid less than \$7,000 a year while the number of jobs paying \$28,000 or more actually fell, according to a new study.

The report also said the middleincome share of job growth dropped from 64.2 percent in the 1970s to 47.5 percent in the early 1980s.

The two authors of the study Barry Bluestone and Bennett Harrision, political economy professors at the University of Massachusetts-Bos-ton and Massachusetts Institute of Technology, respectively — said the proliferation of low-wage jobs points to growing U.S. income inequality.

"If this pattern of development continues," they said, "the standard of living of a growing proportion of the American workforce will be significantly jeopardized.

Citing Census Bureau data, and using the Consumer Price Index to account for inflation, the authors said they arbitrarily divided workers into three income categories:

• Low, with incomes below \$4,900 in 1979 and \$7,012 in 1984.

• Middle, with incomes between \$4,900 and \$19,600 in 1979 and between \$7,012 and \$28,048 in 1984.

• High, with incomes above \$19,600 in 1979 and \$28,068 in

"Nearly three-fifths of new employment generated 1979 and 1984 was low-way pared with less than one-fifth the preceding (1973-79) per

The report said the biggs have been white men white gest winners have been

"Since 1979, nearly 97 pt net employment gains ar men have been in the low tum," it said. "During the riod, white men have ex net loss of 1 million \$28,000 or more in 1984dd
