HUNTSVILLE (AP) — Two Bell from his job at Chisum's appli-Texas prisoners facing death this ance store. week received stays of execution Bell earlier was convicted and sen-

That conviction, however, was va-cated by a federal judge in 1984 and

Jerry Hogue, 36, a former water bed builder in Fort Worth, won a re-prieve about 13 hours before his scheduled execution by Texas Department of Corrections officials. The second inmate, Walter Bell, band

33, faced death early Wednesday for the 1974 robbery and slaying of a Port Arthur man.

Judge David Belew ruled in Hogue's favor about an hour after the Texas Court of Criminal Appeals, in a unanimous decision, refused to issue a writ of habeas corpus and refused to block the execution. Hogue was convicted of capital

murder and sentenced to death for the Jan. 13, 1979, fire death of Jayne Markham, 27, whose hands and legs were tied behind her back when her Arlington house was set ablaze. Prosecutors said the woman also was raped and stabbed before she died. The execution date was Hogue's first. He has been on death row since June 1980.

When told of the stay Monday, Hogue smiled, started joking with prison officials and said he was reieved, prison spokesman David Nunnelee said.

Hogue, who has had two trials, has insisted he is innocent, blaming the fire on another man who was upbecause Markham allegedly flushed 22 bags of cocaine down a toilet.

Hogue has an extensive arrest re-cord, including a Colorado rape con-viction and four other arrests for rape, plus arrests for assault, robbery, false imprisonment, resisting arrest and failure to appear in court. He was charged with desertion from the Army in 1972 and court-martialed.

In the second case, U.S. District Judge Sam Hall in Texarkana granted a stay for Bell, facing death for killing Fred Chisum, who fired

## **Problems with** immigration reform cited

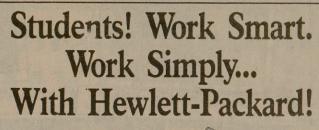

DALLAS (AP) — Immigration re-form could hamper the country's economic growth by taking inexpensive labor away from some industries and sending tax-paying workers and consumers out of the country, some economists said.

However, the degree to which the new laws are enforced will help determine the impact on the U.S. economy, they said. The law's cost will be offset in part by improved conditions for low-income, unskilled workers, according to economists.

"If you're interested in wages and working conditions, the (new law) will have a positive impact," Marion Houston, an immigration expert with the U.S. Department of Labor, told the Dallas Times Herald. "If you're looking at pure economic out-put . . . it will have a negative impact.

Some economists say having illegal workers in the United States actually benefits the economy by providing industries with inexpensive labor and the country with a work force that pays more in taxes than it uses in social services, the newspaper reported Monday.
