You have time to make an intelligent decision about your health care.

Texas A&M employees, you have until the end of this month to decide on your insurance option for the coming year. You don't have to rush into a health care decision you might later regret.

Among the options being offered you this year is participation in a clinic-based health maintenance organization. Along with the single-premium advantage this program offers come some significant restrictions you should fully understand — before you decide to abandon your proven medical insurance plan.

For example, to be covered by the health plan you give up your right to select your physician from among any in the community. Only those doctors affiliated with the sponsoring clinic will be covered by the plan. The same goes for hospitals — should you require hospitalization, the plan will pay only for services in a participating hospital. This is of particular importance to those who might need to seek cancer therapy at M.D. Anderson Hospital in Houston, or heart surgery at either of world renown cardiac facilities at Houston hospitals.

HMO participation means giving up your PCS card and privileges. And your dental coverage. Psychiatric services are severely restricted; treatment for drug problems is excluded altogether.

The final day to decide on which health care option is best for you and your family is Wednesday, September 30. Take the time, before the deadline, to learn all the facts.

After all, your health care is at stake.

Don't lose your freedom to choose!

Bailiff indicted for offer to sell jury information

SAN ANTONIO (AP)—A bailiff in the Tesoro Petroleum Corp. trial was indicted on bribery charges in connection with his alleged offer to sell information about jury deliberations, officials said.

Finton E. "Ed" Stewart, 42, remained free on a \$50,000 bond after his arrest on Aug. 27.

He was indicted by a grand jury Wednesday on charges seeking a \$1 million bribe in the case of two shareholder lawsuits against Tesoro, John Murphy with the Attorney's office said.

Meanwhile, court officials told the six jurors in the trial hearing will be held about the deliberations leading to the verdict cleared Tesoro on July 22.

Stewart was a special deputy marshal working as a bailiff in the 23-week trial, in which shareholders charged Tesoro officials with racketeering and sought \$1 billion in damages.

Stewart was arrested by FBI agents Aug. 27 after accepting a case filled with \$250,000 in bills for information he provided the jury had been deliberating.

He claimed to have evidence the jury, during its deliberations, had considered evidence that was brought out during trial, officials have said.

The nature of that evidence, who might have provided it, is unclear.

Stewart allegedly tried to provide information to Jack Compton, a private detective, but Compton is in the FBI despite allegations that he would be killed if he is identified.

FBI and federal prosecutors declined comment on whether they had any evidence of jury tampering with him when he was arrested.

A hearing at which jurors were asked about their deliberations will be held until October.

U.S. District Judge H.F. Garcia, who presided over the Tesoro trial, said he wants to know Stewart's case is resolved, a court official, who asked not to be identified.

If convicted, Stewart faces 15 years in federal prison and a \$500,000 fine.

Man dies after attempt to rob store

CACTUS (AP)—A man died after shooting at lawmen and setting fire to a grocery store he attempted to rob Thursday in the Panhandle town, authorities said.

The unidentified Hispanic died either from smoke inhalation caused by the fire or from a self-inflicted gunshot wound after holding four hostages and holding off lawmen for almost three hours, County Chief Deputy Z.Q. Bingham said.

Glenn Ruby told the Amarillo News-Herald, "This is the worst thing that's ever happened in my 11 years as city secretary, probably since we were founded in 1969."

Authorities said the man worked for the Cactus Service Co. in this town about 1,000 shortly before he fired several shots and ordered a clerk to give him the store's money.

Ruby, who works at City Hall, got a phone call about 10:30 a.m. from store clerk Maria Herrera after convincing the man that one at City Hall could open the store.

Herrera said the man had a pocketful of bullets and a large knife and was extremely upset, Ruby said. She said he spoke no English.

"I've never done anything like this before," Ruby said.

"I tried to talk to him on the phone and I didn't do a bit of good," she said.

In the meantime, five county deputies, two Department of Public Safety troopers and a Ranger staked out the store's location.

Two men and an elderly woman who were inside when the store was entered escaped. Ruby was shot later, he said.

Bingham said Herrera was shot about 10:30.

Bingham said the man set the store using matches and anything else he could find.

He shot out the store's front door and began firing at the officers on the side of the store.

Authorities did not return Ruby's phone call.

After the gunfire stopped, the fire was extinguished, and the lawmen were able to enter the partially destroyed store, where they found the gunman dead, officials said.

The suspect's body was taken to Amarillo for an autopsy, Bingham said.

"The smoke suffocated him, maybe he shot himself," Bingham said.
