Battle over Bork marks Reagan's lowest point

WASHINGTON (AP) — The likely rejection of Robert Bork as President Reagan's nominee for the Supreme Court marks the low ebb in Reagan's worst year yet on Capitol Hill, and lawmakers say the president has responded to defeats by growing even more confrontational.

The White House apparently has concluded that, having lost control of the Senate in the 1986 elections, it is better to make a stand on principles and go down in martyrdom than to seek compromise from a weakened position.

Both vetoes were overridden.

Later, Reagan sought to make budget reform a top domestic policy priority. But while campaigning for reform, congressional Republicans complained, the president was sitting out the real budget fight going on in Congress.

The result was that Reagan was forced to sign a renewal of the Gramm-Rudman deficit-reduction law last month in which he had little say.

Added to those failures has been the Iran-Contra hearings, disputes over more aid to the Contras and the sale of Maverick missiles to Saudi Arabia, and the Bork nomination, which some Republicans said wasn't pushed hard enough.

"I don't think they used the tools of the trade in a way to be successful," Sen. Charles Grassley, R-Iowa, said. "If they had done half as much as the left did, he would have been approved."

But more than a White House failure, the Bork vote illustrates new partisanship on a Capitol Hill where both houses are under Democratic control, Sen. Orrin Hatch, Utah, said.

"There is a desire to defeat a president on everything up here," he said. "I think they (at the White House) are being conciliatory in Congress. But there are some things you just have to stand up and fight on."

Other Republicans, however, Reagan conciously has chosen not to cooperate, which may backfire, those who, unlike the president, have to run for re-election next year. "I've never seen things as bad as they are now as far as relations in Congress," Rep. William Brody, R-Mich., said.

Others say the president — who is unlikely to regain the influence he had after his landslide election in 1981 and 1984 — still is capable of wielding power on the Hill.

"They are following a scorched-earth policy," Senate Majority Leader Robert Byrd, D-W.Va., said. "Veto, threaten veto, vote no, filibuster, stall, delay. It's a no-win policy."

The year has yielded a string of losses for the administration, growing ever more visible. The year began badly when Reagan vetoed two major spending measures, the clean water bill and a highway authoriza-

Test pilot celebrates anniversary of flight breaking sonic barrier

EDWARDS AIR FORCE BASE, Calif. (AP) — In the 40 years since test pilot Chuck Yeager first broke the sound barrier at this remote desert military post, man has gone to the moon and much has changed, not least for Yeager.

The 64-year-old pilot, a little-known captain when his sonic boom first thundered over the Mojave Desert, has become famous and his feats have passed into legend fostered by two books and a movie.

Yet some things have remained the same: Yeager is still flying supersonic.

To commemorate the 40th anniversary of his feat Wednesday, Yeager will pilot an F-4 Phantom in a pass over Wright-Patterson Air Force Base in Ohio. Later, he will fly another "hot" plane to his home state of West Virginia for celebrations there.

The prehistoric silt of the dry lake bed that the Bell X-1 landed on that morning of Oct. 14, 1947, has also remained pretty much the same — dry, hard and tough, like Yeager.

"It was being in the right place at the right time, and luck plays a part," Yeager recalled in a recent telephone interview from his home in the Sierra foothills. "I had no idea what the X-1 would bring. You can't predict the future."

The 24-year-old captain had christened the little bullet-shaped, rocket-powered plane "Glamorous

Glennis" after his wife and vowed that he would be the man to break the sonic barrier, if it could be done.

Before his flight, scientists and pilots feared that a plane might disintegrate when it hit the speed of sound, estimated to be about 700 mph depending on altitude.

One man, British pilot Geoffrey DeHavilland Jr., had already died in the attempt and Bell's civilian test pilot had demanded \$150,000 to try to do it with the X-1.

Bell balked and on Oct. 14, flying on Army pay, Yeager and the X-1 caused the first sonic boom ever heard and opened the door wide to the Jet Age.

Because of security precautions, Yeager's fame was slow to grow. That changed dramatically when the flight, and his previous exploits as a fighter pilot in World War II, were extolled in a book by Tom Wolfe, "The Right Stuff," and a film by the same name.

His autobiography became a best seller. He endorses products such as batteries and tires and has a computer flight simulator game named after him.

"Glamorous Glennis" hangs in the National Air and Space Museum at the Smithsonian Institution in Washington.

Now a retired Air Force general, Yeager works as a consultant for Northrop Aircraft and McDonnell Douglas.

Ex-governor of W. Germany found dead

GENEVA (AP) — A former West German state governor was caught up in a bitter political "dirty tricks" scandal and was found dead Sunday in a fashionable Geneva hotel, city police said.

West Germany's *Bild* newspaper said Uwe Barschel, who signed last month as state governor of Schleswig-Holstein, was himself on his way home from vacation in the Grand Canary Islands "because there was no other way out."

But Geneva police official Marcel Carrara denied the shooting report, telling a press conference that Barschel was not killed by a bullet and that there was no blood.

Barschel, 43, was scheduled to testify today before a state parliament panel investigating the scandal. He was a member of West Germany's Christian Democratic Party.

The nationally circulated *Stern* magazine said one of its reporters found Barschel's body in the water-filled bathtub of his hotel room Sunday afternoon.

According to the magazine, *Stern* reporter discovered the body after entering Barschel's unlocked hotel room when he responded to knocks on the door.

Unlike the *Bild* newspaper report, *Stern*'s did not say what apparent cause of death was.

NOTICE

SKIN INFECTION STUDY

DIAGNOSIS OF ABCESS OR CELLULITIS? Patients needed with skin infections such as abscesses, impetigo, traumatic wound infections and burns. Make money compensatory for time and cooperation. All disease treated to resolution.

G&S STUDIES, Inc.
846-5933

SINUSITIS STUDY

DIAGNOSIS - Acute Sinusitis? If you have sinus infection you may volunteer and participate in a short study, be compensated for time and cooperation and have disease treated (all cases treated to resolution).
