ENNISKILLEN, Northern Ireland (AP) — The Irish Repub-lican Army said Monday it planted the bomb that killed 11 civilians and injured 63 at war memorial services, but that it meant to kill soldiers and the bomb went off prematurely.

The attack stirred a wave of revulsion on both sides of the Irish island, among Protestants and Roman Catholics alike. Pope John Paul II sent a tele-

gram to the local church in Enniskillen, espressing his "heartfelt condolences to the families of the innocent persons killed by this cruel (bombing) act."

In a statement to Irish news media, the outlawed IRA sought to excuse the high civilian toll by saying the 40-pound bomb should have blown up as soldiers marched by during the Remembers of the statement of the brance Day ceremony for fallen

#### Sessions says FBI failed to uncover drug use

WASHINGTON (AP) — The FBI failed in 143 interviews over four years to turn up evidence of mariuana use by Douglas H. Ginsburg, FBI Director William Sessions disclosed Monday.

For the final background check — which was to have been due Monday — the White House gave the FBI just one week instead of the usual 25 days after President Reagan nominated Ginsburg to the Supreme Court, the

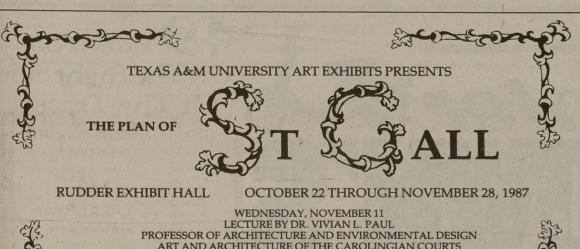

Sessions, in his first extensive interview with reporters since he was sworn in Nov. 2, said that he will order a review of the FBI's background investigations into Ginsburg and that the results will be referred to the Justice Department for possible prosecution of anyone who might have lied to the agency.

Ginsburg's marijuana use in the 1960s and 1970s was first uncovered last week by the news media and led to his withdrawal from consideration for the nomination
