Board overlooks Childress as potential site for prison
Judge says selection weighted by politics

(AP) — Officials in cities chosen for new state prison sites were rejoicing Tuesday, but in Childress County a judge decried what he said was a selection process weighed down by politics.

Of seven community finalists in the competition to lure six prisons that will hold 8,500 inmates, Childress was the only one not selected as a prison site Monday by the state prison board.

"It's not a happy time in Childress today, because we really had our hopes up," Childress County Judge Dean Decker said Tuesday. "Childress certainly had as strong a proposal as anyone else. I felt it did revert to how much political clout you had. We have a small community."

Amarillo and Gatesville were awarded maximum security prisons, each holding 2,250 inmates. Also approved were medium security prisons, each holding 1,000 inmates, in Liberty County, Snyder, Marlin and Woodville.

Childress was the second-smallest city to make the final cut, with a population of 5,800.

The smallest was Woodville with a population of 2,800, located 50 miles northwest of Beaumont.

Woodville City Manager Walton Davis said the town was aspiring to attract a maximum-security facility.

"We're happy over it," he said. "I was kind of disappointed we didn't get the big one, but we didn't leave empty-handed, and that's the important thing."

If Childress didn't have much political clout, Amarillo had an abundance of it.

State Sen. Bill Sarpalus, D-Herford, presented letters and personal testimonials from 22 of the state's 31 senators recommending Amarillo as a prison site.

Several opponents from Amarillo attended the meeting to show that support for a prison was not unanimous.

Wiley Chaney, an Amarillo resident who lives a mile from the prison site, told the board, "We highly recommend the city of Childress."

Jim Simms, co-chairman of the chamber of commerce committee that was behind Amarillo's prison proposal, said opponents prompted the chamber to display as much political might as it could.

"We were getting a signal back from the (Texas Department of Corrections): 'Was there community support?'" Simms said. Having 22 state senators endorse the prison sent a strong signal, Simms said, adding, "That's slam-dunk time."

The state prisons awarded to Amarillo and Snyder will be the first ones in West Texas, and Simms said he thinks the presence of those prisons will make it easier for other West Texas cities to attract future facilities.

Each maximum-security prison will provide roughly 750 jobs with a \$1.3 million monthly payroll, officials said.

The medium-security units will each mean about 250 jobs and a \$400,000 monthly payroll.

Mayor Pro Tem John Ward said-Gatesville, a town of 6,300 about 25 miles west of Waco, will see great economic benefits from the maximum-security prison.

"We are absolutely elated," he said. "It's the culmination of 2½ years of intense effort to bring this together."

Snyder Mayor Troy Williamson said he was sitting on the front row in the Senate chambers when the board made its decision.

"I was very excited," he said. "We feel it will add several million dollars a year to the payrolls of people who live here and increase the tax base and retail sales."

Liberty County Judge Dempsey Henley said he was excited over the economic benefits of the prison, because his county has about a 14 percent unemployment rate.
