Buy a printer with your Macintosh and conserve paper.

A Macintosh™ personal computer and an Apple ImageWriter™ II printer will save you hours of time. Not to mention gallons of correction fluid and reams and reams of paper.

And, if you buy both now, the first ream of

paper you'll save will have a lovely green glow.

You'll save a bundle of cash when you purchase an ImageWriter II printer along with your choice of a Macintosh Plus or a Macintosh SE. Either way you'll be able to turn out beautifully written and beautifully printed papers.

And we'll even try to help you pay for your

purchase with a variety of financing options.

We feel compelled to tell you, though, that a deal like this can't last forever*. So it's a good idea to see your campus microcomputer center today. And join the conservation movement.

The power to be your best.™
