

ΔΣΠ

DELTA SIGMA PI

Professional Business Fraternity
1988 Spring Rush

Thursday, January 21st: Meet the Chapter Night.
Informational reception for all interested students.
7:00 p.m. Observation Deck-O & M Building
Business attire is requested.

Friday, January 22nd: Happy Hour! Come as you are.
5:00 p.m. at the Interurban Eating House, University Dr.
Look! We made it to Friday and so did you!

Tuesday, January 26th: Professional Speaker.
7:00 Rudder Tower, room 302.
Business attire is requested.

Friday, January 29th: "Mexican Fiesta" Party.
8:30 p.m. Walden Pond Clubhouse.
Come La Bamba with us, Ole!

"We Mean Business"

AEROSPACE ENGINEERING GEORGIA INSTITUTE OF TECHNOLOGY

Major areas of graduate study and research (M.S. & Ph.D):

Aerodynamics	Flight Mechanics & Controls
Aeroelasticity	Propulsion
Combustion	Rotary Wing Technology
Computational Fluid Dynamics	Structural Dynamics
Computer-Aided Design	Structures-Composites

RESEARCH FELLOWSHIPS AND ONE—THIRD TO ONE—HALF TIME RESEACH ASSISTANTSHIPS ARE AVAILABLE

Financial aid per calendar year:

\$8,000-\$13,500 plus tuition and fees

All graduate students will participate in research.

For further information contact:

Dr. C.V. Smith, Graduate Coordinator
School of Aerospace Engineering
Georgia Institute of Technology
Atlanta, Georgia 30332

Office hours: M-W 2-4:30

Board gives OK for bonds to fund one new prison

AUSTIN (AP) — Bonds for one maximum-security prison were approved Tuesday by the Texas Bond Review Board and Gatesville appeared to have the edge over Amarillo for the new unit.

A legal roadblock halted earlier plans to build a prison in each city. Gatesville seems the likely site for the 2,250-bed facility because site preparation has been done there, said Texas prisons director Jim Lynaugh. Under the original plan, the Gatesville prison was to be built before the Amarillo prison, he said. Prison board chairman Charles Terrell said his panel will make a final decision probably within two weeks.

Terrell and Gov. Bill Clements,

bond board chairman, said they will work to see that two maximum-security prisons eventually are built in addition to the Mark Michael maximum-security unit built last year at Palestine.

Amarillo or Gatesville could get a facility that is different from maximum security, Terrell said. "We have a commitment to those two cities. . . . We will fulfill our commitment to them," he said. "We told them they'd have prisons, and they will. It's a matter of time, or a matter of the type of unit."

After the bond board approved \$153.6 million in prison bonds, Clements said, "I fully intend to have that second Michael unit built. . . . We have now 50 percent of our inmates that are hardened, violent criminals and we need that additional capacity of the maximum-security unit."

"It's unfortunate that we had a conflict in the legislative package that authorized the 10,400 beds, and yet it didn't specify specifically a second Michael unit."

Texas leads record growth in contracting

DALLAS (AP) — Texas companies were awarded \$15.9 billion in defense contracts last year, a \$2.4 billion increase over 1986, and the state leads the Southwest's record growth in defense contracting, according to Defense Department figures.

The state's obligated value of defense awards rose 17.8 percent last year from the 1986 level of \$13.5 billion, officials from the Defense Contract Administration Services Region office in Dallas said Monday. The office manages defense contracts in Texas, Oklahoma, New Mexico, Arizona, Arkansas and Louisiana.

The office said the number of contracts awarded to Texas firms increased from 21,638 in 1986 to 22,905 in 1987.

Those figures don't include major contracts that are administered directly by military services, which means the state actually received more defense contracts, officials from the Dallas defense office said.

Texas leads the five-state region in the value of defense contracts awarded and is the second largest recipient of federal defense dollars in the nation behind California.

The state accounted for about 70 percent of the region's value of defense contracts. Arizona was second with \$3.4 billion.

The Southwest region's total was \$22.6 billion at the end of 1987, compared with 19.2 billion last year.

UT governing body OKs new smoking rule

AUSTIN (AP) — Campus smoking rules similar to a city ordinance and a strengthened policy against sexual harassment of students have been approved by a University of Texas governing body.

The proposed policies, which had been debated several times in recent months, were approved without discussion Monday by the University

Council. The proposals will be sent to UT President William Cunningham for his consideration.

If endorsed by Cunningham, the smoking policy would make most parts of the campus smoke-free. The policy emphasizes the rights of non-smokers and limits smoking to a few designated areas.

The policy provides that the pref-

erences of non-smokers will be taken into account in designating areas for smoking.

The sexual harassment policy prohibits sexual or romantic relationships between faculty and students. The policy also broadens the definition of sexual harassment to include advances or suggestions that create an "intimidating, hostile or offensive environment."

Official denies ordering son's release

SAN ANTONIO (AP) — A former police administrator says he did not order other police officials to drive his son home after he was stopped and checked for drunken driving and failed a breathalyzer test.

Capt. Alfred Toscano resigned his rank of assistant police chief last week amid the controversy surrounding his son. In a statement released Monday, he said inaccurate news accounts prompted him to speak publicly about the case.

Sgt. Bill Anders, who was in charge of the department's Driving While Intoxicated Task Force, is facing permanent suspension and another officer, who is accused of altering a breathalyzer document, faces a three-day suspension over the inci-

dent involving Arthur Toscano, 20. The senior Toscano, 48, said it was Anders who decided on his son's release.

Arthur Toscano was arrested on a drunken driving charge on Dec. 10 and taken to police headquarters where he failed a breathalyzer test.

His father was called at home and the young man was released and driven home by police.

"At no time in my conversation with Sgt. Anders did I order him to release my son, nor did I say anything to intimate or imply or even solicit that he release my son," Toscano said.

Police and Bexar County prosecutors are investigating allegations that someone tried to remove the younger Toscano's name from the

breath test log.

"As far as any altering of reports or documents, it was all done outside my knowledge," Toscano said. "Had I been informed what I had interpreted to be a discretionary release would be such actions, I would never permitted it to happen."

Officer Jose A. Espinosa, 33, is suspected of changing the report faces a three-day suspension and certification as an Intoxilyzer operator has been revoked by the Department of Public Safety.

Alfred Toscano said he gave his assistant police chief rank temporarily at the request of Police William Gibson, who said the police was questioning the department's integrity.

WEIGHT WATCHERSSM

NEW 1988 QUICK SUCCESSSM PROGRAM

**LOSE WEIGHT
20% FASTER**

Lighten up
with the
fastest, easiest
approach to
weight loss ever!

Not only will you lose weight 20% faster in the first few weeks than on any previous Weight Watchers program, you can actually customize a plan that will fit your personal needs and lifestyle.

Sheila Falk, Area Director
