Weather Watch

Key:

	- Lightning		- Fog		- Thunderstorms
	- Rain		- Snow		- Drizzle
	- Ice Pellets		- Rain Shower		- Freezing Rain

Sunset Today: 7:50 p.m.

Sunrise Wednesday: 6:59 a.m.

Map Discussion: The only significant weather producer for the Continental U.S. will be the low pressure and associated frontal system from the Southern Appalachians to Virginia. Frontal overrunning and upper level dynamics will produce moderate to locally heavy rains through the east... the frontal boundary from Hudson Bay to the Great Lakes to Wyoming and Idaho lacks moisture and any upper dynamics which will preclude any precipitation.

Forecasts:

Today and Tonight: Fair to partly cloudy. Cool night-time but mild daytime temperatures. High today 73, low tonight 43, with north winds of seven to 17 mph.
Wednesday: Partly cloudy and warmer. High 80, with southeast winds 2 mph.

Weather Fact: Moist Tongue — An extension or protrusion of moist air into a region of lower moisture content. Cloudiness and precipitation are closely related to moist tongues.

Jury finds man guilty in kidnapping case

BEAUMONT (AP) — A man was convicted Monday of aggravated kidnapping in the May 1986 roadside abduction of a Texas City woman whose body has never been found.

Jurors in State District Judge Henry G. Dalehite's court deliberated just 15 minutes before finding John Robert King guilty of abducting 19-year-old Shelley Sikes from her car on May 24, 1986, as she was driving home from a summer job at a Galveston restaurant.

The panel began hearing testimony in the punishment phase Monday afternoon.

King, 29, of Bacliff, faces five to 99 years or life in prison and a \$10,000 fine. Jurors could have sentenced King to kidnapping which carries a penalty of two to 20 years and a fine of up to \$10,000.

King was linked to the case after attempting suicide in El Paso, and leaving a note that told of a woman's murder in Galveston County.
