## House passes vote to impeach judge

WASHINGTON (AP) — The House, with only three dissenting votes, today impeached U.S. District Judge Alcee L. Hastings of Florida and told the Senate to try him for "high crimes and misdemeanors." On a vote of 413-3, the House sent a resolution containing 17 articles of impeachment to the Senate, which might not take up the matter until next year. If found guilty by a two-thirds majority, Hastings, the first black federal judge in Florida, would lose his \$89,500 job. As the vote was being taken, Hastings met with reporters in his office at the federal courthouse in Miami, and once again protested his innocence of the charges.

"We are witnessing the decline of jurisprudence with this investigation and this vote," Hastings said. "The vote today is a manifestation of institutional ignorance." The resolution charges that Hastings: • Conspired with Washington attorney William Borders to receive a

\$150,000 bribe from two convicted racketeers;

- Lied about the bribe during a criminal trial, and
- Compromised three FBI investigations by leaking wiretap information over which he had jurisdiction.

One article says that Hastings, required as a judge to enforce and obey the Constitution and the laws of the United States, did "undermine confidence in the integrity and impartiality of the judiciary and betray the trust of the people of the United States" and had thus brought "disrepute on the federal courts and the administration of justice by the federal courts." The House Judiciary Committee, in its report supporting the resolution, said: "Impeachment protects our society by insuring that those in the highest positions of public trust are held accountable." Before the vote, Hastings said House members who vote to impeach him will "rubber stamp racism."

## Writers Guild may approve latest contract

LOS ANGELES (AP) — The negotiator for the striking film and TV scriptwriters was expected to recommend approval of the producers' latest offer, proposed today after all-night talks, a bargainer said. Writers Guild of America chief negotiator Brian Walton was to present the full contract at 1:30 p.m. to the union's full negotiating committee. A favorable vote could effectively end the strike that has paralyzed the entertainment industry for two weeks.

"It's my expectation that he is going to recommend that we go with this," Arthur Sellers, a member of the WGA negotiating committee, said.

There was no immediate word on the contents of the proposed contract.

Formal approval would require a vote by the full membership of the union. Membership meetings, which require a 48-hour advance notification, could be held as early as Friday with the vote tally announced the following day.

## World briefs

### Astronomers find 10 unknown objects

BALTIMORE (AP) — U.S. and Canadian astronomers have found 10 planet-like objects orbiting distant stars, a discovery that intensifies speculation about the existence of life beyond the Earth.

In reports Wednesday at the International Astronomical Union assembly, astronomers from the Smithsonian Astrophysical Observatory said they have found "what might be a very large planet" orbiting a star 90 light years away.

In an independent study, an astronomer from the University of Victoria, British Columbia, said he has found evidence of planets orbiting nine stars, and suggested that as many as half of the stars in the Milky Way galaxy may have "planetary companions."

Both teams of astronomers made the discoveries by analyzing the color shift of light collected from stars. Light from a distant source changes color slightly if the light source is moving.

### Democrats agree on aid to Contras

WASHINGTON (AP) — Senate Democrats agreed Wednesday to seek new non-lethal aid for Nicaragua's Contras, but to defer any action on renewing the flow of weapons in order to give the rebels and the leftist Sandinista government yet another chance to make peace.

The aid package, which is to be offered as an amendment to a Pentagon money bill later this week, is designed "to encourage

the peace process and . . . to send Nicaraguan President Daniel Ortega a message that he cannot continue to have his cake and eat it, too," said Senate Majority Leader Robert Byrd, D-W.Va.

The Democratic proposal would provide an additional \$27 million in so-called "humanitarian" aid — food, clothing, shelter and medical supplies — to continue current rates of such aid through next March.

### Flier returns home from Soviet prison

FRANKFURT, West Germany (AP) — Mathias Rust flew home Wednesday after being released early from his Soviet prison sentence for buzzing the Kremlin spires, and the young pilot admitted that his 1987 visit was an irresponsible act.

"I arrived as a child, now I go back as an adult. It's really remarkable," Rust said in an interview with the Associated Press on a Lufthansa flight from Moscow to Frankfurt.

The 20-year-old who stunned

the world and embarrassed the Red Army brass by piloting a single-engine plane from Finland through the vaunted Soviet air defenses and landing in Red Square said in the future he would claim "no crimes."

The bespectacled young man said he would wait to tell the world the whole story of his 15 months in the nearly empty Lefortovo Prison, but he did say he felt isolation and despair during his time behind bars, although he was treated well.
