

Begin your career in beautiful Southern California with the

SOUTH COAST AIR QUALITY MANAGEMENT DISTRICT

California's largest regional air pollution control agency has entry-level positions open for:

Chemical Engineers Metallurgical Engineers Mechanical Engineers **Environmental Engineers Petroleum Engineers**

> The salary range is from \$30,751 to \$38,095 per year. **Excellent Advancement Opportunities**

The South Coast Air Quality Management District operates the most comprehensive air pollution control program in the nation. We have the primary responsibility for controlling air pollution from more than 17,900 industrial and commercial facilities.

District engineers conduct source test and technical reviews of state-ofthe-art air pollution control projects for virtually every type of industry. Our jurisdiction includes many of the nation's major petroleum refineries, power plants, chemical industries, metallurgical industries, resource recovery plants, and aerospace industries.

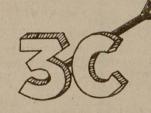

The District's headquarters is located east of downtown Los Angeles, and within an hour's drive of Southern California's world-famous beaches, mountains, Hollywood, Disneyland, and the Rose Bowl.

For more information, contact the Career Placement Office. We will be on campus during the week of October 17, 1988.

An Equal Employment Opportunity Affirmative Action Employer

Minorities and females are encouraged to apply.

Texas poll favors Bush over Dukakis

FORT WORTH (AP) — Texans favor Republican George Bush for president by a 10-point margin, according a to a poll released Sunday, which also seems to indicate that top-of-the-ticket choices are motivating voter preferences

The vice president leads his Democratic rival, Massachusett's Michael Dukakis, with support from 50.6 percent of 1,443 likely voters surveyed for the Fort Worth Star-Telegram and WFAA-TV, Dallas.

Dukakis received support from 40.7 percent of the voters surveyed in the poll, which was taken Sept. 17-20. About 8.7 percent of the voters surveyed were undecided. With a margin of error of 2.6 per-

cent, Bush's nearly 10 percent lead in Texas was pronounced "very good news" by his campaign's Texas spokesman. "The message is getting out loud and clear throughout Texas that

George Bush is a conservative Texan and Michael Dukakis is a liberal politician from Massachusetts," spokesman Reggie Bashur said. But Dukakis' Texas campaign

manager, Tom Cosgrove, said he believed the momentum would return to the Democratic campaign after the presidential candidates debate in North Carolina Sunday night.

The poll also indicates Texas voters aren't letting their presidential choice be influenced by the vice presidential candidates, Texas Sen. Lloyd Bentsen and Indiana Sen. Dan Quayle.

'It's the top of the ticket that is driving the outcome," Frank Newport, the Houston pollster who conducted the survey, said. "Bentsen is not helping Dukakis . . . and Quayle is not a significant factor."

What's Up

Monday

GREEN EARTH SOCIETY: will meet at 8:30 p.m. in 704 Rudder. EXTERNAL AFFAIRS OF THE STUDENT GOVERNMENT: will have a meeting for everyone interested in joining external affairs at 8:30 p.m. in 402 Rudder. NATIONAL ORGANIZATION FOR WOMEN: will meet to organize semesta events and elect officers at 8:30 p.m. in 607 Rudder.

INTRAMURALS: entries open for tennis singles, golf doubles and weightlifting

at 8 a.m. in 159 Read.

DEBATE SOCIETY: will have tryouts for the first semester debate "Should The Last Temptation of Christ' be banned from A&M?" at 7 p.m. in 136 Blocker.

POLITICAL SCIENCE SOCIETY: will meet at 7 p.m. in 607 Rudder.

UPSILON PI EPSILON: will have a pledge meeting and certificate distributional

BLACK GRADUATE STUDENT'S ASSOCIATION: will meet at 7 p.m. in 302

Friends give up search for WW II pilot's body

TEXARKANA (AP) — Forty-five years after Lt. Wayland Bennett crashed his plane in a jungle on a South Pacific island, hometown friends tried but have given up their effort to recover his body.

An expedition of two women and four men combed the island of Espiritu Santo, about 1,200 miles northeast of Australia, where Bennett was a pilot in what later became known as the "Black Sheep" squadron.

After almost two weeks of facing poisonous snakes, malaria-carrying mosquitoes and spiders the size of saucers, the group abandoned the hunt, Robert Bowden, who organized the search, said.

Natives of the island, the largest in the archipelago republic of Vanuatu, will continue the project, said Bowden, who is chairman of the Tri-State chapter of the American Red Cross and controller for a Texar-

kana insurance agency "This is like an unfinished book," Bowden, 65, told the *Dallas Times Herald*. "We won't give up until Way-

land has been buried with his parents in Texarkana."

Bennett, Bowden, D.A. Carson and Robert Sandlin grew up as best friends in Texarkana and then went off to World War II. All returned except for Bennett, who

flew a Corsair fighter in the Marine Corps. 'He was considered a top gunner," Bowden said.

During a routine training mission on Oct. 22, 1943, the right wing of Bennett's plane folded (the wings were designed to fold up so the planes would take up less space), and the Corsair plunged with a violent spin into the jungle of Engisier Space. into the jungle of Espiritu Santo.

"The jungle swallowed him as if he had crashed into

the ocean," Bowden said.

There was no fire or explosion, other pilots said. Al-

though they had the coordinates of the crash, the military was unable to find the wreckage.

cially gave up trying to find Bennett's body and liste "non-recoverable," Bennett said.

But over the years, Bowden said, Bennett's chil

hood buddies kept the memory alive.
"Whenever we got together, we felt it was a shar Wayland's body was left in the jungle halfway arout the world," Bowden said.

Bowden got copies of the flight log and accidented ports, tracking down his squadron commander and studying the geography and culture of Espiritu Samu which measures 70 miles by 35 miles.

Texarkana chiropractor Dan Bookout, a recordting aviator, got involved when Bowden went to him June for a wrist ailment. During the examination, Bo den mentioned his interest in retrieving Bennett's

Bookout and his wife, Phyllis, were planning a sun mer trip to Australia and offered to detour to Vanua to look for the body, Bowden said.

Bowden established a fund to defray the estimate \$25,000 cost of the expedition.

The group used metal dete their search for the wreckage and turned to Ken Mo wan, a guide and mining exploration engineer of island, for assistance. McGowan employed about 30 tives to help with the search, Bowden said.

Bookout told Bowden by phone Thursday night natives led the search party to eight crash sites.

"Three of them had bones and artifacts," he said he

none of the sites involved Bennett's plane, Bonde said

TAMU BICYCLING CLUB

Tired of struggling to keep up with the pack? There's more to cycling than racing

Tuesday, September 27 8:30 pm 704 Rudder
