TALK TO TI'S MAJOR PRODUCT & SERVICE GROUPS.

TI's technical managers want to see you. They want to tell you about the job opportunities in the many technologies which make Texas Instruments a leader in electronics.

That's why TI is having a Job Fair on the Texas A & M campus, October 11 through 13. It gives the company three days to bring in key engineers and managers to meet you. They'll come from TI labs and sites to describe programs, answer questions, and schedule interviews.

If you're a top student, particularly in EE or Computer Science, this is an event you won't want to miss.
