

A World of Opportunity in the Land of the Sun.

It's easy for companies to see what's going on around them. Competitive activities. Market trends. New product developments.

What sets Motorola's Semiconductor Products Sector apart is our focus on the internal force. People as the source of innovation.

With an unwavering belief in employee participation and recognition, we've built a history of technical achievement, in which a simple principle has always been with us:

A strong partnership with our people makes continued growth — and successful competition — possible.

Find your world of opportunity. Your world of options. And a sunny lifestyle rich in recreation and the scenic beauty of the Southwest. Make technical history with Motorola when you join our Semiconductor Products Sector (SPS) in Texas or Arizona.

As a leader in the research, development and manufacture of microelectronics, we are constantly seeking skilled graduates eager to apply their abilities to challenging professional assignments. These include working with the latest circuit, MOS, logic and memory technologies at SPS's highly sophisticated facilities in Phoenix, Arizona or Austin, Texas.

Whether you choose direct job placement or the diverse exposure of our Rotational Program, you'll find that SPS maintains a high degree of employee participation in an atmosphere of shared responsibility. Engineering and other professional opportunities are currently available for the

following individuals: **Electrical Engineers • Mechanical Engineers • Physicists • Computer Scientists • Software Development Engineers • Chemical Engineers • Chemists • Materials Scientists • Finance, Marketing and Materials Specialists**

We'll be on campus October 21

Police Beat

The following incidents were reported to the University Police Department from Sept. 30 through Monday:

MISDEMEANOR THEFT:

- Eight bicycles, one bicycle wheel and four backpacks were reported stolen from various locations around campus. One previously stolen bicycle was found.
- A calculator was reported stolen from the Agronomy Field Laboratory.
- A student reported that she discovered a diamond pendant was missing from her necklace after a fight broke out at a party in the MSC.
- A student reported that someone stole his wallet from a restroom in DeWare Field House.
- A portable radio/television was reported stolen from the Veterinary Medicine Complex.
- A woman reported that someone forced the lock off her locker in the Food Services Commissary and stole \$290 from her purse.
- Someone stole a telephone from the MSC.
- A woman reported that someone stole \$20 from her purse in the Military Sciences Building.

FELONY THEFT:

- A student reported that someone stole 500 coloring markers from his desk in the Langford Architecture Building.
- A student reported that someone broke into his truck and stole his hang-tag parking permit.
- A student reported that someone entered her unlocked room in Dorm 3 and stole an All-Sports pass, a football game pass and four Randy Travis concert tickets.
- A student reported that someone stole \$50 from a manila folder in her dorm room.
- A student reported that someone broke into her car and stole a radar detector and 15 cassette tapes.
- An officer arrested two juveniles after seeing them break a car window on campus.
- Four video cassette recorders were stolen from Harrington Tower.
- Four Mosher Hall residents each reported that someone stole \$20 from their wallets, which were in their rooms. During the same period, another Mosher resident reported that 175 checks were stolen from her room.

CRIMINAL MISCHIEF:

- Someone attempted to steal the radio from a rental car at Easterwood Airport.
- A week later, someone broke into a ticket drawer at the airport, damaging the drawer's locking device. Nothing was stolen.
- Someone broke the glass panel to one of the fire extinguishers in the

Academic Building.

- A student reported that someone slashed a tire on his car.
- Several days later, six students from the Married Student Apartments reported finding slashed tires on their cars.
- A student reported that someone damaged the ignition assembly in his moped.
- While on patrol Oct. 6, an officer noticed that someone had removed parts of the anti-squatter shanty. Two days later, someone knocked the shanty down.

ASSAULT:

- A student reported that he was attacked by a classmate in Zasky Engineering Center.
- Two students reported that they were hit by water balloons as they were walking by Puryear Hall. One said when they looked up they saw a grinning student leaning out of a window. The incident was referred to Student Affairs.
- A student reported that he was verbally assaulted by another student while attending a College Station High School football game at Kyle Field. Officers working at the game could not find the other student.

PUBLIC INTOXICATION:

- While leaving Kyle Field after the Texas A&M-Texas Tech football game, an officer saw an A&M student who appeared to be intoxicated insult other spectators as they left the stands. The incident was referred to Student Affairs.

CRIMINAL TRESPASS:

- Officers caught several students on the roof of the Academic Building. The students were escorted down and released. The incident was referred to Student Affairs.

HARASSMENT:

- After tracing the origin of several harassing phone calls, a detective found that the calls originated from the phone of two students. The students admitted to making the calls when they were contacted by a detective. The incident was referred to Student Affairs.
- Four students reported receiving annoying phone calls. One said she had been receiving the calls for three weeks.
- A student reported that she had been receiving annoying notes at her residence hall door since last semester.

FRAUD:

- After receiving a report from a non-student who was using the A&M Health Center, an officer referred the crime to a College Station dentist.

DISORDERLY CONDUCT:

- A student reported that she was in the Sterling C. Evans library, she saw a male peering at the table to look up her skirt.

SELF CARE FOR CHILDREN

I'm In Charge

Part of St. Joseph Hospital & Health Center "Learning To Live" Series

We invite you to bring your children who are "In Charge" to this special event. Four dates to choose from!
October 7, 11, 18, 21
St. Joseph Hospital & Health Center
Education Room, Second Floor
6:00 p.m. to 8:00 p.m.
\$5 per child

Enrollment limited to 20 per class

I'M IN CHARGE

What to expect

- Telephone Safety
- Door Safety
- Stranger Danger
- Fingerprint/Photo ID chart
- Halloween Safety Tips

What you receive

- Home Safety Materials
- Poison control (Mr. Yuk)
- Operation Ident-a-Kid and Photo Hospital Button and Magnet
- Refreshments
- "I'm In Charge" Certificate

REGISTRATION FORM

Self Care For Children - "I'm In Charge"

Child's Name (age) Child's Name (age)

Parent's Name Phone #

Address

Historian will discuss art collecting

By Chuck Lovejoy
Staff Writer

The history of art collecting by English aristocrats will be the subject of a lecture given by historian Dr. James Rosenheim at 7 p.m. today in 201 MSC.

The lecture accompanies the University Arts Exhibits' "Aspects of British Painting 1550-1800," now on display in Rudder Exhibit Hall. A reception will follow the lecture.

Referring specifically to paintings included in the showing, Rosenheim will examine how the practice of collecting art in England changed from the late 1500s to the late 1700s with respect to the types of paintings collected, the origins of the works and their collective subject matter, as well

as the shift from private hoarding to more public ownership of the art.

Rosenheim said he will make a lecture a lively, understandable account of the eccentric lengths collectors took to obtain paintings shown in the exhibit.

Rosenheim learned about art collectors through his study of interest in the British aristocracy. "Every aspect of the English aristocracy fascinates me," Rosenheim said. "Since the upper class art owners were the primary collectors of art works, it only seems fitting they are the ones who should be studied."

His lecture reflects this idea. The painting collection which Rosenheim's lecture accompanies will be available for viewing through Oct. 31 from 8 a.m.-11 p.m.

Lecture addresses knowledge explosion

Dr. Eberhard Laemmert, president of the Free University of Berlin, will discuss "How to Cope with the Ever-Growing Body of Human Knowledge" today at 7:30 p.m. in 601 Rudder Tower.

The lecture is sponsored by the Department of Modern and Classical Languages.

The Goethe Institute of Houston and the German Cultural Center organized Laemmert's trip to the United States and to Texas A&M.

The Free University of Berlin was founded after World War II because

many students and professors objected to pressure from the communists.

Laemmert has been active in forming universities in Germany and has written many books.

The Germans use the phrase "explosion of knowledge" to express the fact that everyone is faced with much information to know about anything, said Dr. Koepke, A&M German professor.

"Our concern is turned toward how to counteract that," he said. "We still want to give students a liberal education."

Stock prices decrease to lowest in 2 months

NEW YORK (AP) — Stock prices took their sharpest drop in nearly two months Wednesday as traders uneasily awaited the latest monthly report on the nation's international trade position.

The Dow Jones average of 30 industrial stocks fell 30.23 points to 2,126.24, for its largest loss since it dropped 33.25 points on Aug. 15.

Declining issues outnumbered advances by nearly 3 to 1 in nationwide trading of New York Stock Exchange-listed stocks, with 397 up, 1,114 down and 450 unchanged.

Volume on the floor of the New York Stock Exchange came to 154.84 million shares, up from 140.90 million in the previous session. The volume was reported by the New York Stock Exchange, consolidated with NYSE-listed issues, including those stocks on regional exchanges. The over-the-counter market traded 184.05 million shares.

The day began amid widespread speculation that the nation's trade deficit would be reported Thursday by the Commerce Department, would be larger than previously expected.
