A&M colleges develop new honors programs

By Julie Peterson
 Reporter

Many colleges at Texas A&M are in the process of developing their own honors program to further encourage high-achieving students.

One of the recently developed programs, The Honors Plan in the College of Liberal Arts, was approved by the Liberal Arts Council in September.

The Honors Plan in Liberal Arts will provide students an opportunity to enrich their undergraduate training with special interdisciplinary experience through a carefully structured curriculum, said Dr. Janis Stout, associate dean of liberal arts.

"We feel it combines the advantages of a focused major with the advantages of a broad interdisciplinary program," she said.

Stout said she has been working with the Educational Planning Committee, an advisory committee to the Liberal Arts Council, for the past year on the Honors Plan. In addition, she has worked closely with the University Honors Program.

"It's essential that they endorse what we are doing," Stout said.

Students may be admitted to the Honors Plan as incoming freshmen or sophomores provided they meet certain requirements and fill out an application, she said.

Incoming freshmen must meet the University Honors Program required standardized test scores of 1100 on the Scholastic Aptitude Test of 26 on the ACT, Stout said. Sophomores must have an overall 3.25 grade-point ratio, in addition to at least a B average in English, she said.

According to a Liberal Arts Council memorandum, the Honors Plan curriculum requires students to complete 48-59 hours of core classes, three to six hours of literature in English, six hours of foreign language or quantitative classes, three hours of humanities and 24-33 hours in a major field of study.

The special requirements designed for the Honors Plan are six hours of sophomore sequence, three hours of junior seminar and nine hours of structured electives, the memorandum stated.

Stout said the sophomore sequence — Foundations of the Liberal Arts: Humanities and Foundations of the Liberal Arts: Social Sciences, will begin in 1990 and play an important role in the Honors Plan.

"It's a new two-course sequence that will be the foundation of this plan," she said.

The Honors Plan will be announced to

the students in the fall registration catalogue, Stout said. By next fall, about 50 students are expected to be admitted, she said.

"We feel excited and eager to see something for the College of Liberal Arts," Stout said.

In addition to the Honors Plan in Liberal Arts, the College of Science and the College of Engineering also are developing an honors program.

Currently, the College of Science does not have a specific honors plan in writing but is in the process of developing a plan, said Dr. Kenneth Poenisch, assistant dean of science.

"Right now, we are looking for someone to fund the program," he said.

Poenisch said the honors program is scheduled to start next fall and will admit a select group of students — chosen on the basis of academic achievement — after their freshman year.

The honors program will encourage contracting between the students and faculty, research and special activities, in addition to increasing the number of honors courses available, Poenisch said.

"We feel that in order for honors students to be competitive for the prestigious graduate schools, this will prepare them," he said.

In the College of Engineering, the Honors Program, said Dr. Lee Blank, dean for the college of engineering graduate studies.

The Scholars Program is available to students who qualify for the University Honors Program, Blank said. The program will enable a student to earn a bachelor's and master's degree in two years, he said.

"One of the reasons for the program is to encourage high-achieving students to head for graduate studies," he said. Blank said the concentration is only on graduate studies but higher quality and funding operations as well.

Students may also have a chance to receive funding for a research project, Blank said.

"By next summer we should be swinging," he said.

Man arrested in Ohio for Texas bomb case

FORT WORTH (AP) — Federal agents have arrested an Ohio man on a charge of illegal possession of a pipe bomb in connection with an explosion that left a boy dead and five children injured, officials said Tuesday.

Keith Michael, 32, was arrested Monday in Montpelier, Ohio, and was being held without bond pending a Thursday hearing, Tom Secor, assistant U.S. attorney in Toledo, Ohio, said.

Michael is charged with making the pipe bomb that killed 8-year-old Max Herrera and injured five children when it went off in a southside Fort Worth neighborhood Oct. 2, authorities said.

Lou Iliano, resident agent of the Bureau of Alcohol, Tobacco and Firearms in Fort Worth, said officials believe the bomb was made to use for revenge against someone in an unrelated case.

"There is no evidence linking Keith Michael with specifically manufacturing the pipe bomb with the intention of caus-

ing the death of Max Herrera," Iliano said.

He refused to discuss the case, which authorities believe revenge is being sought.

"I think it was just a personal vendetta and the underlying reasons are still being investigated," Iliano said.

The Bureau of Alcohol, Tobacco and Firearms along with the Fort Worth Police Department and Fort Worth Fire Department have been investigating pipe bombing, Iliano said, adding authorities have another pipe bomb similar to the one that exploded Oct. 2, second bomb was found in Tarrant County, he said.

A formal complaint affidavit has been filed in the case in U.S. District Court in Fort Worth, he said.

Iliano said it is unclear how the children got the pipe bomb, although a Department official said at the time the youngsters found it near a curb.

State Justice campaigns in CS during Texas tour

By Stephen Masters
 Senior Staff Writer

Texas Supreme Court Chief Justice Tom Phillips began his final week of campaigning Tuesday with a whistle stop tour through Texas, including a stop at Easterwood Airport.

Phillips visited Harlingen, Corpus Christi, Victoria and San Antonio before stopping in College Station, and was scheduled to go on to Austin and Amarillo Tuesday night.

Prior to a brief news conference, Phillips condemned his opponent Ted Z. Robertson, an associate justice of the state Supreme Court, and the Fund for a Democratic Texas for three television advertisements he said misled voters.

Phillips said the first ad is misleading because it leaves the impression that he was the subject of a "60 Minutes" story titled "Justice for Sale?" on ties between "big money and certain justices of the Texas Supreme Court." Phillips said Robertson was the subject of the story.

The second ad Phillips discussed was

a football analogy where the voice-over says Gov. Bill Clements could not buy a football team so he is trying to buy judges instead. The video shows Clements handing gavels out, Phillips said.

Phillips said this ad is misleading because "judges have no say on how they are selected." Phillips was appointed by Clements and took office Jan. 4, 1988.

The third ad Phillips spoke about quoted him as saying jury trials are not a federally protected right. Phillips said this quote was taken out of context from a 43-page dissenting opinion. In his opinion, Phillips said the right is not guaranteed by the federal Constitution because it is guaranteed by state constitutions.

In his statement at the conference, Phillips said the principle issue in the campaign is who can do the best job as a "fair and competent judge."

He said Supreme Court races should not be based totally on political parties and accused the democrat Robertson of not making an effort to find support from republicans.

"I don't think there is a Democratic Republican brand of justice," he said.

Phillips, 38, is the youngest ever to sit on the Texas Supreme Court. He ran unopposed for district judge in 1982 and 1986 before being appointed by Clements late in 1987.

Phillips said every newspaper that came out endorsing a candidate for justice has chosen him, and said he also won endorsements from several polls.

Accompanying Phillips on the tour was Roy Barrera, runner-up to Jim Mattox in the 1986 Texas Attorney General race. When questioned about his appearance with Phillips, Barrera said he did not publicly endorse Phillips because he felt the integrity of the court had been damaged by the "subjects of the '60 Minutes' expose."

Barrera said he has made no decision on his political future.

"It remains to be seen what effort will seek if I choose to seek any office," Barrera said.
