Officials: State refused to take county inmates

HOUSTON (AP) — Harris County officials accused the state of "hindering" the county's compliance with a federal court order concerning jail overcrowding, but still managed to avoid a confrontation.

Harris County Sheriff Johnny Klevenhagen said county officials will file a motion this week asking a federal judge to take action against state prison officials for blocking the county's compliance with a federal court order requiring the transfer of more prisoners than state officials would accept.

Klevenhagen had been ordered to begin delivering 290 prisoners a week to the Texas Department of Corrections instead of the 182 it has been averaging to avoid problems experienced because of the high number of prisoners in the county jail.

Klevenhagen said 49 prisoners were delivered to TDC Monday morning, which he said was the highest number TDC officials said they could handle. Klevenhagen had notified the state he would send 60 prisoners Monday and a similar number every day of the week to meet terms of the federal order handed down by U.S. District Judge James DeAnda on Nov. 8.

What's Up

Wednesday

STUDENT Y: FOOD FOR THOUGHT: Bill Kibler, associate director of Student Affairs, will speak about "The art of cramming for finals" at 7 p.m. at Red Lobster. Sign up in 211 Pavilion.

AGGIE ALLIANCE: will have a Christmas Party at 7 p.m. in 167 Read.

OFF CAMPUS CENTER/OFF CAMPUS AGGIES: will have a roommate session at 5 p.m. at the Off Campus Center.

AGGIE SPELEOLOGICAL SOCIETY: will meet at 8:30 p.m. in 404 Rudder.

CATHOLIC STUDENT ASSOCIATION: will present the ninth annual Aggie Christmas mass at 7 p.m. at St. Mary's Church.

PHI BETA LAMBDA: Ned Moore from Shell Oil will speak at 7:30 p.m. in 184 Blocker.

MEXICAN STUDENTS ASSOCIATION: will meet at 8:30 p.m. in 225 MSC.

Thursday

DEPARTMENT OF PSYCHOLOGY/JUNGIAN SOCIETY OF BRAZOS VALLEY: will present "Death of the Inner Witch and Birth of the Creative Self" at 7:30 p.m. in 301 Rudder.

ALCOHOLICS ANONYMOUS: call the Center for Drug Prevention and Education at 845-0280 for details on today's meeting.

NARCOTICS ANONYMOUS: call the C.P.D.E. at 845-0280 for details on today's meeting.

SWAP: will answer questions from "The Book of Questions" at 7 p.m. in 402 Rudder.

TAMU INTERNATIONAL FOLK DANCERS: will teach and demonstrate folk dancing from 8-10 p.m. in 231 MSC.

Items for What's Up should be submitted to The Battalion, 216 Reed McDonald, no later than three business days before the desired run date. We only publish the name and phone number of the contact if you ask us to do so. What's Up is a Battalion service that lists non-profit events and activities. Submissions are run on a first-come, first-served basis. There is no guarantee an entry will run. If you have questions, call the newsroom at 845-3315.

Sematech announces details of \$75 million 'clean room'

AUSTIN (AP) — For the first time, the Sematech research consortium has unveiled details of its \$75 million state-of-the-art computer "clean room," carrying out a pledge to provide the information to the project's 14 member companies.

In confidential briefings, Sematech officials explained to member companies the first details of the 300,000 square-foot facility, built in a record 32 weeks and designed to make computer chips smaller and packed with more information than any ever produced in the United States.

The information was not released publicly. Member companies are prohibited from sharing it. Sematech is a consortium of U.S.

semi-conductor manufacturers that is conducting research aimed at assuring leadership in semi-conductor technology. Its emphasis is on manufacturing capability, not device design, and information it develops is to be transferred to member companies.

Sematech officials said approximately 100 computer company officials attended the briefings.

Sematech's member companies now have access to all the design plans of the clean room's utility systems, its blueprints and schematics, and a computer-aided design (CAD) program used by the consortium's engineers during construction, said Larry Novak, the Sematech manager who oversees the transfer of technol-

ogy between the consortium and member companies.

"We provided literally every document that was used in the construction of the site," Novak said. He said Sematech will hold a follow-up construction briefing next summer.

Officials of Sematech's member companies said they hope the briefings will give them an edge on non-member companies.

In addition to the technical briefings, Sematech has completed a 1989 operating plan and submitted it to the U.S. Department of Defense.

The defense agency has written \$75 million of Sematech's \$100 million in federal funding until the plan is approved.

Word Processing 101.

There is a grim reality of college life that you may or may not be acquainted with: Typing.

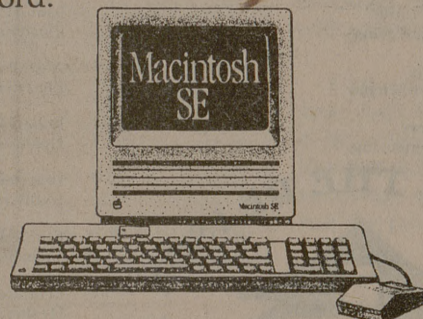

No, make that hours of typing. Precisely why you should consider a Macintosh computer.

With a program like Microsoft Word, you can compose, edit, move paragraphs, and change type sizes and styles with one finger. Which can come in very handy. (Especially if that's the way you type.)

And that's just one example of how Macintosh helps students work smarter, quicker, and more creatively.

The good news is, with Macintosh you don't have to know anything about computers to use one.

The better news is, right now Apple Computer and the Micro Computer Center are making it very easy for you to own a Macintosh and Microsoft Word.

Introducing Apple's Student Loan-to-Own Program

For every college student who's short on cash but long on academic ambition, Apple presents the Student Loan-to-Own Program.

It's a low-interest loan plan unlike any other. In fact, you can take advantage of it based on little more than your parents' good credit history. Even if you are already receiving financial aid.

There is no collateral required, no application fee, no interview, and no need to prove financial hardship. No kidding.

You can pickup the details about the Student Loan-to-Own Program by visiting the Micro Computer Center inside the Texas A&M Bookstore, or by calling 1-800-831-LOAN.

Introducing the Micro Computer Center's Holiday Special

To make sure you're ready to go when you get your Macintosh, the Micro Computer Center is offering you a special deal. From December 5, while supplies last, Macintosh Plus and SE computers are being bundled with Microsoft Word and a Macintosh carrying case at the following prices.

Computer w/MS Word & carrying case	Price
Macintosh Plus, 1 floppy disk drive	\$1,242.00
Macintosh SE, 2 floppy disk drives	2,103.00
Macintosh SE, 1 floppy disk drive, 20MB HD	2,625.00

MICROCOMPUTERCENTER

Computer Sales and Supplies
Located at the MSC inside the Texas A&M Bookstore
Monday thru Friday 7:45AM - 6:00PM
Saturday 9:00AM - 5:00PM
(409) 845-4081

Catholic Student Assoc. & St. Mary's Church

presents

Aggie Christmas Mass

When: 7 p.m., Wed. Dec 7

Where: St. Mary's Church Lawn

In case of inclement weather the mass will be held indoors
