

Oracle Corporation... We May Be Your Ticket to Success and California!

The Fast Lane Is For Winners

ORACLE®

The world's fastest growing software company and largest vendor of database management software and services

THE PAST

Oracle Corporation's revenues have more than doubled in nine of our ten fiscal years (the other year we grew 91%). This unprecedented growth is the direct result of the focused efforts of our unparalleled, company-wide team of super-achievers.

THE PRESENT

A 1987 Software News survey ranks Oracle as the ONLY top-five supplier of software for mainframes, minicomputers and personal computers. ORACLE, our SQL-based, relational database management system, and our family of application development tools and decision support products are emerging as industry standards for every class of computer.

THE FUTURE

If you are accustomed to success with an uncommon insistence on doing everything well, you can become part of this growth. We are recruiting now to staff our expansion of service and product offerings around the world. Join Oracle's team and help us continue our record of success.

Oracle Corporation will be hiring 100 of the country's top technical graduates this winter. If you want to work with the world's fastest growing software company call or write us today. Selected candidates will be interviewed at our headquarters in Belmont, California. Interview and relocation expenses provided. Please contact:
