Restaurant Report

By Mia B. Moody

REPORTER

The restaurants listed below were inspected by the Brazos County Health Department March 21-23. Information is taken from a food service establishment inspection report.

SCORED BETWEEN 95 AND 100:

Kettle Restaurant at 2502A Texas Ave. was inspected by David Pickens. Score—96. Two two-point violations were cited because food wasn't stored properly and paper towels were missing from a hand sink.

SCORED BETWEEN 90 AND 95:

Pizza Hut Special Delivery at 1103 Anderson was inspected by David Pickens. Score—94. Four points were deducted because the back door didn't have a self-closer. Two points were deducted because there were no paper towels or soap at hand sinks.

Pelicans Wharf at 2500 Texas Ave. was inspected by David

Pickens. Score 93. Two two-point violations were cited because ice wasn't covered during slow hours and soap and paper towels were missing at the bar. Three one-point violations were cited because plumbing at a hand sink needed repairing, the floor under the grill area was dirty and lights needed repairing at the grill.

SCORED BETWEEN 70 AND 75:

Ken Martin Steak House at 3231 E. 29th Street was inspected by Eddie Bolch. Score—71. Two five-points violations were cited because personnel wasn't practicing good hygiene and toxic items were stored improperly. One four-point violation was cited because a hand sink in the grill area was blocked. Four two-point violations were cited because food in the refrigerator wasn't covered, grease drippings were in the grill area, a trash can in the employee restroom wasn't covered and the dumpster was open. Points were deducted in other minor areas.

David Jefferson, a registered sanitarian at the department, says restaurants with scores of 95 or above generally have excellent operations and facilities. He says restaurants with scores in the 70s or low 80s usually have serious violations in the health report.

Scores can be misleading, Jefferson says, because restaurants can get the same score by having several minor violations or a few major violations. He says the minor violations can be corrected during the inspection. Point deductions or violations in the report range from one point (minor violations) to five points (major violations).

Jefferson says the department might close a restaurant if the score is below 60, the personnel have infectious diseases, the restaurant lacks adequate refrigeration, there is a sewage backup in the building or the restaurant has a complete lack of sanitation for the food equipment.

The department inspects each restaurant every six months. Jefferson says a follow-up inspection is sometimes required if a restaurant has a four- or five-point violation that cannot be corrected during the inspection, or if there are numerous small violations.

Inspectors at the department are registered sanitarians.
