

# KKYS moves on radio, increases audience area

By Steven Patrick

The Battalion Staff

The old 3,000 watt 104.9 KKYS is no more since being replaced by a new 104.7 KKYS with both increased power and increased coverage due to a new transmitter installed today at the local radio station.

At exactly 11:11 a.m. today, KKYS switched over to the stronger transmitter, increasing its power from 3,000 to 50,000 watts and its coverage area from 35 to approximately 70 miles, KKYS Program Director Chuck Reden said.

Reden said that along with the

broader coverage area, the increased power gives the station better access to secondary audiences.

To promote the station's increased power, Reden said he stayed on the air for 30 straight hours until today's official 11:11 a.m. sign over time.

KKYS also awarded 50 new albums and tapes to the person who came closest to guessing when the power increase would occur, Reden said.

Reden said both College Station Mayor Larry Ringer and Bryan Mayor Marvin Tate were present at today's signing over.

## In Advance

### Class of '92 to revive Grove Dance tradition

The Class of '92 is bringing back the Old Army Grove Dance at 7:30 p.m. Friday in the Grove. The dance was a traditional event at the University before every home football game until the early 1960s.

Scheduled to groove to the tunes are President William Mob-

ley, the yell leaders, Dr. John Koldus and a special appearance by the red pots.

Music will be provided by a disc jockey until 11:30. Door prizes from various Bryan-College Station businesses will be awarded. Cost for the four-hour dancefest is \$2.

### Museum program to focus on environment

The Brazos Valley Museum and local environmental groups hope to find out "Who Cares About the Brazos Valley" at an open house Thursday night from 7 to 8 at the Brazos Valley Museum.

Randy Smith, program coordinator for the museum, said the open house will highlight different environmental concerns, including recycling and conservation.

Groups such as Brazos Beautiful, Sierra Club, Texas Environmental Action Coalition and others will have display areas or booths set up in the museum and will pass out literature, show vi-

deotapes of projects and answer questions from the public.

Though the emphasis will be on local problems such as litter, many of the groups also deal with national environmental concerns, Smith said.

The open house kicks off a series of environmental projects and workshops that will take place in the Brazos Valley during the next few weeks, he said.

The public is invited to attend the open house at the Brazos Valley Museum, located in the Brazos Center at 3232 Briarcrest. Any questions may be directed to Smith at 776-2195.

### Liberal Arts college hosts alumni forum Friday

The College of Liberal Arts will have an alumni forum Friday from 2 p.m. to 4 p.m. for liberal arts students to talk individually to A&M liberal arts graduates who are in the workforce.

The informal forum will include tables in 410 Rudder, where students can get advice from professionals on topics such as resumes, jobs and career plan-

ning, Janis Stout, liberal arts associate dean, said.

Students are encouraged to drop in any time during the two hours, she said.

The editor of the Scott and White Clinic in Temple, two public relations workers, a banker, an attorney and other professionals will be available to answer questions students may have, Stout said.

## What's Up

### Thursday
