Architecture

(Continued from page 1)

up with innovative ideas," Hickey said. M.D. Anderson may not use all the students' proposals, but their ideas are important, he said.

In fact, Hickey will include some student ideas in an article he is writing with Dr. George Mann, director of the health facilities research program in the College of Architecture.

"Medicine is changing very fast and its impact on architecture is amazing," Mann said. The students tried to create pleasing spaces for cancer patients, he said.

"That's who we're designing this for," he said.

Mary Ann Newman, assistant vice president for planning at M.D. Anderson, said A&M architecture students made the atmosphere of the cancer treatment facility softer and less intimidating.

"(We want to make the hospital) more than concrete and streets," Newman said.

Newman said the students concentrated on conceptual, rather than detailed architectural, design. For example, students developed climate-controlled pedestrian walkways and visitor centers to guide people around the medical center.

Newman said students took principles from a Houston architectural firm that worked with M.D. Anderson and used them to solve different problems.

Kirton said the students gave

M.D. Anderson new perspectives for its care facility.

"The hospital has its own architecture staff," he said. "They just used us to get new ideas."

But M.D. Anderson and its cancer patients are not the only ones who benefited from this design project. The architecture students gained medical, architectural and personal insights.

Alvarez said this project was an eye-opening experience for him.

"It was great being able to work with doctors and architects," he said.

Peggy Jenschke, a senior architecture major from Fredericksburg, said she got an idea of what cancer really is.

"(The center) would be a lot faster," she said. "(Patients would not) have to waste (their) whole day."

Kirton said the students saw cancer patients and gave full-scale presentations to M.D. Anderson doctors that addressed their problems.

"We presented our projects in front of top doctors there," he said. "We had their full attention."

"They're not stupid people by any means."

Eldridge said she was impressed with the research the architecture students did on the projects' medical aspects. She said they brought fresh knowledge to the design problems.

M.D. Anderson was pleased with the results. Hickey said the architectural students realized the necessity of planning for the future.

Germany

(Continued from page 1)

"We are now standing at the start of a new period in European and German history, a period that points beyond the status quo or the hitherto political structures in Europe," Kohl told Parliament.

"We are prepared ... to develop confederative structures between the two states in Germany in order to create a federation, a federal state in Germany."

A federation is a union of states with a central government; a confederation is an alliance of independent nations for a common purpose.

Kohl also said reunification must be "bedded in the pan-European process and in East-West relations. The future structure of Germany must fit into the whole architecture of Europe as a whole."

He said his proposal could only be carried out if East Germany holds free elections, as it has promised.

The chancellor proposed creation of joint governmental and parliamentary committees for "permanent consultation" between the Germans.

He also suggested such committees to deal with economic, environmental, cultural and scientific matters, and he said they could be set up soon after free elections in East Germany.

Kohl said West Germany is prepared to offer "concrete assistance" to embattled East Germany, where it is urgently needed.

But he said massive assistance would be contingent on East Germany "irreversibly" setting into motion "a fundamental change of its political and economic system."

What's Up

Wednesday

MSC HOSPITALITY: will have a Holiday Craft Fair from 10 a.m. until 5 p.m. in the Rudder Exhibit Hall.

RHA GENERAL ASSEMBLY: will meet at 8:30 p.m. in 301 Rudder.

THE BIG HUG: committee will meet at 8 p.m. in 208D Pavilion. Call Lisa Ann 764-7278 for more information.

GERMAN FACULTY: will have 3 one-act plays in German by Curt Goetz at 8 p.m. in Rudder Forum. Tickets are \$2 students and \$3 general admission at the door.

RETAILING SOCIETY: will meet to plan the spring trip at 6:00 p.m. in 102 Blocker. Call Marlene Bowen at 846-3134 for more information.

TAMU SURF CLUB: will take yearbook picture and then have its last fall meeting at 8 p.m. in Zachry.

AGGIES ABROAD CLUB: Dr. Rosenheim will discuss England at 7 p.m. in 504 Rudder.

TAMU SAILING CLUB: will have its last meeting at 7 p.m. in 404 Rudder. Call Stirling Brondel at 846-9183 for more information.

P.A.I.D.: will take yearbook picture at 8 p.m. in 102 Zachry. Wear business attire.

EUROPE CLUB: will meet at 10:30 p.m. upstairs at Sneakers.

CHILD PLACEMENT CENTER OF TEXAS: will have an adoption support group for women facing unplanned pregnancy at 5:30 p.m. at the Child Placement Center on 505 University Drive East, Suite #801. Call 268-5577 for more information.

S.W.A.P.: will meet at 8 p.m. in front of Rudder Theater.

PRIMITIVE BAPTIST FELLOWSHIP: will have a worship service at 7:30 p.m. in the All Faiths Chapel. Call Chris Blevins at 847-7000 for more information.

STUDENTS OVER TRADITIONAL AGE: will have a brown bag lunch series on "Conquering Your Finals" at noon in room 113 of A&M United Methodist Church. Call Nancy at 845-1741 for more information.

ALCOHOLICS ANONYMOUS: will have a general discussion at noon. Call the C.D.P.E. at 845-0280 for more information.

STUDENT Y: will meet at 7 p.m. in 212 MSC.

TEXAS ENVIRONMENTAL ACTION COALITION: will have an end of the semester get-together at 7 p.m. at the Flying Tomato.

Thursday

MSC HOSPITALITY: Women's Chorus Octet will perform at 12:30 p.m. in the MSC Flagroom.

CLASS OF 1991: will have pull-out yell practice for baby zips at 12:30 p.m. at Duncan Field.

GERMAN FACULTY: will have 3 one-act plays in German starting at 8 p.m. in Rudder Forum.

MANAGEMENT SOCIETY: will have a meeting and banquet at 7:30 p.m. in room 127 of the College Station Community Center. Must RSVP to attend. Call Carla Adamson at 693-5334 for more information.

R.E.A.C.H. (RELIEF, EDUCATION AND CONCERN FOR HUNGER): will meet at 5 p.m. in 146 MSC.

WILDLIFE BIOLOGY SOCIETY: will meet at 7 p.m. in 200 Heldenfels. Loyd Johnson will speak about his experience with the Alaskan oil spill.

RADIO-TELEVISION NEWS DIRECTORS ASSOCIATION: will meet at 6 p.m. in 014 Reed McDonald. Call Mike Spence at 696-9694 for more information.

NATIONAL SOCIETY OF BLACK ENGINEERS: will meet at 7 p.m. in 212 MSC.

RIO GRANDE VALLEY HOMETOWN CLUB: will have happy hour at 7 p.m. at Tom's Barbeque on 3610 S. College Avenue. Call Eunice Escobar at 689-1094 for more information.

STUDY ABROAD OFFICE: will have an informational meeting on TAMU exchange programs in Mexico, England, Scotland or Germany from 9:30-10:30 a.m. in 251 Bizzell West. Call 845-0544 for more information.

NARCOTICS ANONYMOUS: will have a general discussion at 8:30 p.m. Call the C.D.P.E. at 845-0280 for more information.

ADULT CHILDREN OF ALCOHOLICS: will have a general discussion at 6 p.m. Call the C.D.P.E. at 845-0280 for more information.

ALCOHOLICS ANONYMOUS: will have a general discussion at noon. Call the C.D.P.E. at 845-0280 for more information.

Items for What's Up should be submitted to The Battalion, 216 Reed McDonald, no later than three business days before the desired run date. We only publish the name and phone number of the contact if you ask us to do so. What's Up is a Battalion service that lists non-profit events and activities. Submissions are run on a first-come, first-served basis. There is no guarantee an entry will run. If you have questions, call the newsroom at 845-3315.

Graduating...on to Graduate School?

Consider a multi-disciplinary program that blends chemistry, biology, physics, and engineering:

Bioengineering at the University of Utah

For application and financial support* information contact: Department of Bioengineering, University of Utah, 2480 Merrill Engineering Building, Salt Lake City, UT 84112, (801) 581-8528. We have opportunities for good students from all disciplines.

*Special fellowship funds may be available for: Biomedical Engineering, Biotechnology, Life Support in Space, Neuroprostheses, Decreasing Health Care Costs, Medical Imaging, Biomaterials and Biocompatibility, Artificial Organs, Biomechanics and Robotics, Surgical Implants
