Shuttle's sonic booms shake L.A. skyscrapers, study says

SAN FRANCISCO (AP) — Sonic booms set off by a descending space shuttle created ground motion ... giving 20- to 30-story buildings more shaking than if they were founded on (solid) rock, Caltech said in a news release.

USGS seismologist Jim Mori, a co-author of the study, estimated build-ings on the sediment would shake three to five times worse than those on solid rock.

Vietnamese community recovers from homicides

PORT ARTHUR (AP) — In the wake of a triple homicide in Port Arthur's Vietnamese community in July, residents literally feared for their lives.

Since that time, officials with the Port Arthur Police Department's Asian Task Force have worked around the clock in an attempt to ease the mood among residents in a community they call the "Area of Peace."

The shooting at the Pho Tau Bay Restaurant on July 12 forced employees and customers to run for their lives. Three men were killed during the morning hours as they sat at a table eating breakfast in the crowded restaurant, located at 720 Ninth Ave.

Some say the nightmare continues to haunt them. Others say they have tried to put the flashbacks to rest.

Loan Tran, manager of the restaurant, said business has "drasti- cally" declined since the shooting.
