## **Secret Service** arrrests man for threats to kill Bush

LUBBOCK (AP) - The son of a former Panamanian president said Thursday that he was joking when he told a pawnbroker he had "a bullet with Bush's name engraved on

"I was not serious," Otto Lakas said. "Not at all, not at all. I didn't do anything. I am very confused. All I know is that I am in jail.

Lakas, a 21-year-old student at Lubbock Christian University, was being held Thursday in Lubbock County jail on a federal charge of threatening to kill the president. He was arrested Tuesday after a Secret Service investigation.

According to court documents from the Secret Service, Lakas, while trying to buy a .357 Colt revolver at the Exect Pawn Shop, told clerk Stacy Nichols, "I have a .223-caliber rifle at home and a bullet with Bush's name engraved on it.

'Bush is coming to Lubbock and I will blow his ... head off."

The White House has announced no plans for a Bush visit to Lubbock, although Bush is scheduled to visit Dallas, Houston and Austin in May.

But their three children's devotion to A&M was only part of the reason they became so attached to the University

Mr. and Mrs. Brunner said they have spent many hours on visits to universities throughout the country, and they say A&M is still one of the best they've seen.

"We really have a good feel for what a good university is," he said. "And we knew we had a good university right here.

"We fell in love with this University and the type of students who came here," Mrs. Brunner said.

David Jefferson, a registered sanitarian at the department, said restaurants with scores of 95 or above generally have excellent operations and facilities. He said restaurants with scores in the 70s or low 80 usually have serious violations in the health report.

Scores can be misleading, Jefferson said, because restaurants can get the same score by having several minor violations or a few major violations. He said the minor violations can be corrected during the inspection. Point deductions or violations in the report range from one point (minor violations) to five points (major violations).

Jefferson said the department might close a retaurant if the score is below 60, the personnel have infectious diseases, the restaurant lacks adequater frigeration, there is a sewage backup in the building or the restaurant has a complete lack of sanitization

for the food equipment. The department inspects each restaurant every six months. Jefferson said a follow-up inspection is sometimes required if a restaurant has a four of five-point violation that cannot be corrected during the inspection, or if there are numerous small viola-
