## Crime Stoppers seeks information on burglary

Crime Stoppers help with any information on a local burglary and the location of five fugitives wanted for misdemeanor theft by check.

Sometime between 9 a.m. and 3:30 p.m. on Monday, May 7th, suspects entered a home in the 2000 block of Indian Trail in College Station.

Responding officers report that a window was found broken, however they do not believe that the thieves entered through the window, but only broke it in order to make this offense appear to be a routine daytime burglary.

Detectives believe that a key hidden on the premises of the residence may have been used to enter the home.

Once inside the house, the suspect(s) stole the following property

- valued at more than \$13,000:
- A Macintosh Computer
- A Sony 8mm Camcorder
- A Yamaha receiver and laser-vision CD player
- A Panasonic VCR and
- A Sony XBR 32" color television.

Investigators said that to date no suspects have been linked to this unusual offense. Even though the burglary was staged to appear routine, detectives said that there may be more than meets the eye.

Knowledge of any unusual activity in this neighborhood on May 7th or the possible location of the stolen items should be reported to the College Station Police Department.

Police are also looking for these five wanted fugitives in connection with misdemeanor theft by check:

- Donald Wayne Clark, AKA

Wayne Clark, white male, 5'10", age 22.

- Donna Kay Jones, AKA Donna Rice, white female, 5'6", age 38.
- Freddie Gilford Middlebrook, white male, 6'2", age 43.
- Vickie Ann Ladnier, white female, 5'5", age 24.
- Cynthia Gail Ridgway, white female, 5'1", age 34.

If information leads to the arrest of any of these fugitives, Crime Stoppers will pay \$50 in cash for each one for a total of \$250 for all five.

When you call, you will be assigned a special coded number to protect your identity. If your call leads to an arrest and grand jury indictment, Crime Stoppers will pay you up to \$1000 in cash. Crime Stoppers also pays cash for information on any felony crime or the location of any wanted fugitive.

## Mexico, A&M agree to explore Gulf

By JAMES LOVE  
Of The Battalion Staff

To cut through red tape inhibiting oceanographic studies, Texas A&M and Mexico have worked out a research agreement that will benefit both the University and Mexico.

The new five-year cooperative program, "Analysis Multidisciplinario de Investigaciones en Golfo de Mexico" (AMIGO), will allow scientists to conduct experiments within the 200-mile exclusive economic zones of Mexico and the United States.

Dr. G. Rowe, head of the A&M oceanography department, said the department has had a long informal relationship with Mexico for a variety of reasons.

Rowe said the most important tie A&M has with Mexico is that both want to study the Gulf of Mexico. It is impossible to study just one part of the Gulf of Mexico, so collaboration is a necessity, Rowe said.

"In the past, we have had to go through tedious requests for permission to study within the Mexican boundaries," Rowe said. "It took forever, and often fell

through. These setbacks had nothing to do with science. They were all political."

AMIGO was formed as a mechanism to get around the political hindrances, Rowe said.

After speaking with the admiral of the Mexican Navy, Rowe and A&M officials managed to convince the Mexican government to allow experimental cruises into Mexican waters.

"Now all we have to do is simply contact the Mexican Navy and tell them where we will be," Rowe said. "We then invite Mexican scientists to come on the cruises at our expense and allow them to collect any data we get."

By permitting this, Rowe added, Mexico is able to benefit from AMIGO because its government is presently unable to fund many expeditions.

AMIGO has three basic purposes, Rowe said. It allows A&M to experiment in Mexican waters without many stipulations, it promotes science exploration with Mexican scientists and it improves relations with the country, he said.

Rowe said AMIGO was envisioned as a five-year program, but he expects it to continue even after that.

## Restaurant Report

The restaurants listed below were inspected by the Brazos County Health Department between April 30 and May 4. Information is from a food service establishment inspection report.

SCORED BETWEEN 95 AND 100:

**Long John Silvers** at 3224 S. Texas Ave. **Score — 95.** Points were deducted for unclean food contact surfaces of equipment and utensils, improper storage of clean equipment and utensils, improper storage of single-service articles and unsatisfactory wall and ceiling repair. It was a regularly scheduled inspection.

SCORED BETWEEN 90 AND 94:

**Randy Sims Barbecue** at 3824 Texas Ave. **Score — 90.** Points were deducted for potentially hazardous temperature during food storage (major violation), improper food protection during storage, unclean non-food contact surfaces, inadequate plumbing maintenance and unclean walls and ceilings. It was a regularly scheduled inspection.

**Wendy's** at 3216 S. Texas Ave. **Score — 90.** Points were deducted for improper food protection during storage, unclean food contact surfaces of equipment and utensils, unsatisfactory hand-drying devices, unclean floors, unsatisfactory repair of walls and ceilings and unsatisfactory lighting provided. It was a regularly scheduled inspection.

SCORED BETWEEN 85 AND 89:

**Monterey House #35** at 1816 S. Texas Ave. **Score — 89.** Points were deducted for im-

proper storage of food-dispensing utensils, unsatisfactory maintenance of food contact surfaces, unclean non-food contact surfaces of equipment and utensils, inadequate plumbing maintenance, unsatisfactory floor drainage and improper storage of toxic items (major violation). It was a regularly scheduled inspection.

SCORED BETWEEN 80 AND 84:

**Fort Shiloh Grille** at 2528 S. Texas Ave. **Score — 84.** Points were deducted for improper food protection during storage, unsatisfactory maintenance of non-food contact surfaces, unclean food contact surfaces of equipment and utensils, inadequate plumbing maintenance, unsatisfactory hand-drying devices, unprotected outer openings of restaurant, unsatisfactory floor construction, unsatisfactory floor drainage, unsatisfactory wall and ceiling construction, unsatisfactory wall and ceiling repair, unclean walls and ceilings and litter on the premises. It was a regularly scheduled inspection.

SCORED BETWEEN 75 AND 79:

**Pop's Barbecue, Inc.** at 2319 S. Texas Ave. **Score — 76.** Points were deducted for unsatisfactory food protection, inadequate hand-washing by personnel (major violation), unclean food contact surfaces of equipment and utensils, unclean non-food contact surfaces of equipment and utensils, improper storage of clean equipment and utensils, unclean gar-

bage containers, presence of vermin, unprotected outer openings of restaurant, unclean floors, improper storage of toxic items (major violation) and unnecessary articles on premises. The restaurant was inspected because of a complaint.

David Jefferson, a registered sanitarian at the department, said restaurants with scores of 95 or above generally have excellent operations and facilities. He said restaurants with scores in the 70s or low 80s usually have serious violations in the health report.

Scores can be misleading, Jefferson said, because restaurants can get the same score by having several minor violations or a few major violations. He said the minor violations can be corrected during the inspection. Point deductions or violations in the report range from one point (minor violations) to five points (major violations).

Jefferson said the department might close a restaurant if the score is below 60, the personnel have infectious diseases, the restaurant lacks adequate refrigeration, there is a sewage backup in the building or the restaurant has a complete lack of sanitization for the food equipment.

The department inspects each restaurant every six months. Jefferson said a follow-up inspection is sometimes required if a restaurant has a four- or five-point violation that cannot be corrected during the inspection, or if there are numerous small violations.

## Clarification

In the Wednesday, May 16 issue of The Battalion, an article stated the A.P. Beutel Health Center would be closed from May 14 to June 1. The Urgent Care area (night and weekend clinic) is the only part of the health center that will be closed during this gap.

Emergency Medical Service will cease ambulance operations from May 13 to June 2. If an ambulance is needed during this time, dial 9911 from campus and the College Station Fire Department will answer the call.

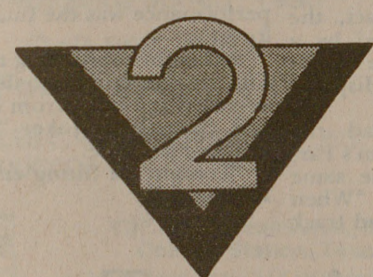

## What's Up

Wednesday

**ALCOHOLICS ANONYMOUS:** will have a general discussion at noon. Call the CDPE at 845-0280 for more information.

**NARCOTICS ANONYMOUS:** will have a general discussion at 8:30 p.m. Call the CDPE at 845-0280 for more information.

Items for What's Up should be submitted to The Battalion, 216 Reed McDonald, no later than three business days before the desired run date. We only publish the name and phone number of the contact if you ask us to do so. What's Up is a Battalion service that lists non-profit events and activities. Submissions are run on a first-come, first-served basis. There is no guarantee an entry will run. If you have questions, call the newsroom at 845-3315.
