Student killed after pointing gun at officer

AUSTIN (AP) — A 17-year-old who dropped out of high school earlier this month was shot and killed after he pointed a handgun at a police officer, authorities said.

Arthur Martinez died early Tuesday in a creekbed near a park, where he was shot by Senior Patrol Officer Tobias Santiago.

Santiago, 32, was placed on restricted duty, a routine procedure, while police investigate the shooting.

Martinez, who dropped out of Austin's Crockett High School this month, pointed a .45-caliber, semi-automatic weapon at the officer, police said.

He was shot in the left side of the chest near the armpit and just above his left ear, Travis County Medical Examiner Robert Bayardo said.

Martinez was intoxicated at the time of his death, Bayardo said. The teen's blood-alcohol level was 0.15 percent, according to the medical examiner.

Judge tells Customs officials to let agent return to duties

HOUSTON (AP) — The U.S. Customs Service must reinstate an agent removed from investigatory duties because he disclosed possible corruption by high-level officials, an administrative judge says.

Sharon Fonsworth Jackson, a Merit Systems Protection Board administrative judge, ruled that agency officials failed to show "clear and convincing evidence that it would have restricted" Special Agent Louis Smit's work if he had not blown the whistle on certain Customs officials.

Smit has said he was removed from investigatory duties because he disclosed possible official corruption brought to his attention while he was investigating a South Texas drug smuggling operation.

Smit and another agent, John A. Graham, who made the same allegations, work out of Corpus Christi.

The judge ordered Customs to restore Smit's full duties and give him back pay and benefits, which could exceed \$20,000.

Customs officials in Houston, who have jurisdiction in the region that includes Corpus Christi, did not immediately return telephone calls from the Associated Press Wednesday.

But the service has been given time to appeal the judge's finding before it becomes final.

Regional Customs officials had previously questioned the credibility of the allegations reported by Smit and Graham.

Smit testified that Marvin Milner, resident agent in charge in Corpus Christi at the time, harassed him about his handling of the La Esperanza drug smuggling investigation.

Milner was a personal friend of two Customs officials allegedly involved in wrongdoing, according to the testimony. Smit, 32, testified that Milner threatened to fire him if he continued making allegations against Customs officials.

"The appellant (Smit) said that, although he told Milner he was only reporting the allegations being related to him, Milner told him he was not to investigate corruption," the judge's ruling said.

James Darby, who was Smit's group supervisor in Corpus Christi, testified Smit had not caused any problems before the reports of corruption in September 1988 and had received several performance commendations.

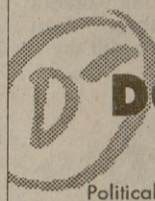

He said Milner lowered Smit's performance rating, although his previous ratings had always been satisfactory or above.

Keep Judge Terry Means

ON THE TENTH COURT OF APPEALS

"Judge Terry Means is an excellent judge doing an outstanding job on the Texas Court of Appeals.

He is as concerned about the victims of crime as he is the rights of the accused. Judge Means believes as I do that judges should interpret the law, not re-write them.

I urge you to keep Judge Terry Means on the 10th Court of Appeals."
