MAKE UP YOUR OWN MIND. AMIGA.

MEET THE FUTURE OF CREATIVE THINKING.

Amiga doesn't just improve your work. It improves your thinking. Just working hard isn't enough anymore. Creative thinking is what sets winners apart.

The Amiga computer was designed precisely with that thought in mind. It handles routine tasks, then lets you go all the way to innovation and invention.

Whatever you can imagine, Amiga has the power to produce. Easily.

Its built-in technology is a major advancement in a computer of this size and price range.

With a mouse and simple icons, Amiga combines a full color display, full stereo sound, graphics, 3-D animation, video capability and text as no other computer can.

It has the power to run software sophisticated enough to manipulate vast amounts of data, as well as the creative genius to create the complete score for an orchestral composition.

We deliver today, what others promise tomorrow.

Amiga was designed to keep up with you, from schoolwork demands through career needs.

You'll find standard what other people make optional. As well as sophisticated technology that doesn't exist on comparably powered and priced computers.

Creative educational discounts make Amiga an easy decision.

The Amiga Education Purchase Program for college and university students, faculty and administrators, offers a wide range of fully loaded, specially bundled hardware systems, with a complete system starting under \$700*. All include a one year limited warranty and AmigaVision™.

The best way to make up your own mind is to try Amiga.

Stop by your Campus Authorized Amiga Dealer and get your hands

on the future of computing.

Sure, some people buy what's standard. But we think you can make up your own mind, and choose your own best course for the future. After all, isn't that what college is all about?

Bond Continued from page 1

Carol Ziegler, district engineer for the Texas Department of Highways and Transportation, said LoTrak plans will be put on the shelf if the bond proposal does not pass.

"If it doesn't pass, we will see what can be done in the way of alternative funding for the project," Ziegler said.

Once passed, the Texas Highway Commission in Austin would have to approve the deal with College Station.

Other improvements include:

- \$4.5 million for street and sidewalk improvements. Welsh Avenue, Rock Prairie Road and Marion Pugh Drive would be extended, and Sebesta and Krenck Tap roads would be reconstructed.
- Approximately eight miles of new sidewalks also would be built along 30 city streets. Traffic signal improvements are included.
- \$2 million for the first phase of the Wolf Pen Creek project which includes an amphitheater, walkways, a park, a lake, parking, plus other features like fountains and piers.
- \$1 million for park land acquisition that would expand the Central Park recreation area and the Southwood Athletic Complex.
- \$1 million for park improvements and development which would provide money for trails, landscaping, lighting and restrooms in various College Station city parks.

Funds also are needed to develop neighborhood parks for the Woodcreek and Sandstone areas.

- \$2.5 million for a new College Station Library.
- \$300,000 for public buildings which would fund additional maintenance facilities for city buildings and park maintenance operations.
- \$300,000 for an early warning weather system which would use sound amplification equipment mounted on towers spaced strategically throughout the city. This equipment will transmit voice as well as alert tones.

Residents would be warned of dangerous weather, like tornadoes, without having to depend on local radio and television stations.

- \$75,000 for cemetery improvements will fund a new fence, a wider entrance and an upgraded fountain area for the College Station Cemetery.

A display of the LoTrak model, photos visualizing the Wolf Pen Creek Project proposal as well as other propositions will be available from 3 to 7 p.m. Thursday at the College Station Annual Christmas Festival and Open House at the College Station Conference Center, 1300 George Bush Drive.

Voters in precincts 20, 21 and 35 will vote at A&M Presbyterian Church, 301 Church St.

Rebels Continued from page 1

force planes bombed a column of rebel tanks on public roads.

The rebel tanks were rendered "useless," the local news agency Noticias Argentinas reported.

Earlier, hundreds of rebels were forced out of a tank factory, an infantry base, several coast guard buildings and another army installation.

President Carlos Menem and army chief Gen. Martin Bonnet refused to negotiate with rebels who demanded a shake-up of the high command and a bigger military budget.

Menem, in his 16th month of power, early Monday declared a nationwide state of siege that suspended constitutional guarantees and gave him sweeping powers to ensure public order. He threatened to declare martial law, under which rebels could be executed.

By 9 p.m., the last rebel stronghold was army headquarters in downtown Buenos Aires, two blocks from Government House.

The planes attacked two tanks moving along a highway in the capital, and about a dozen traveling in neighboring Entre Rios Province.

UT Continued from page 3

Austin Emergency Services spokeswoman.

Phi Hien Tiet, 19, and Trung Nguyen, 22, both of Houston, died almost immediately after the chain-reaction accident.

Long Hoang Ta, a 20-year-old honor student from Houston, died nearly four hours later at Brackenridge Hospital.

The three remaining passengers were taken to Brackenridge Hospital.

Phuong Hua, 19, was listed in fair condition Monday; Canh Dang, 20, of Garland in good condition; and Loc Bui, 19, of Houston in serious condition. Hua and Bui had chest injuries, and Dang had a closed head injury, said hospital spokesman Larry BeSaw.

An Austin address was listed for

Hua, BeSaw said.

Twelve other people also were injured, but none seriously, in the accident that involved 10 vehicles, including a Hays Consolidated Independent School District bus.

Investigators said the accidents were caused by light rain that made the highway slick.

The students' car apparently spun out of control after at least two cars collided ahead of them, the Austin American-Statesman reported.

Their car ramed into a truck, then was hit by several other vehicles including the school bus, which was carrying students back from a speech tournament in Georgetown.

"It's amazing that anybody walked away alive," said senior patrol officer Donnie Williamson.
