## Police seek information in theft of trailer tires

Brazos County Crime Stoppers and the Texas A&M University Police Department are asking for information about the Dec. 18 tire theft from the stables of the University Parsons Mounted Cavalry.

Sometime during the day, thieves entered into the fenced area where horse trailers are stored.

The suspects apparently used a jack to lift the trailers off the ground.

The thieves then stole tires and wheels from two trailers.

Officials report the suspects stole eight Super Highway II tires mounted on 16-inch steel rims.

Officials estimate the loss to be about \$1,200.

University detectives report this theft is similar to one that occurred

at the USDA Pecan Research Facility in Burleson County earlier in December.

Detectives believe the suspects will attempt to sell or trade the tires in the local area.

This week UPD and Crime Stoppers need help to identify the people responsible for these thefts.

If you have information that could be helpful, call Crime Stoppers at 775-TIPS.

When you call, Crime Stoppers will assign you a specially coded number that will protect your identity.

If your call leads to an arrest and grand jury indictment, Crime Stoppers will pay you up to \$1,000 in cash.

## New policy National Guard halts discharges due to war

AUSTIN (AP) — The U.S. National Guard has halted all future discharges to prevent the loss of military personnel needed for Operation Desert Storm, a Texas National Guard spokesman said Monday.

Until further notice, all discharges or "separations" will be denied except in certain cases, said Lt. Col. Ed Komandosky.

The policy, known as a "stop-loss" program, already has been adopted by active-duty personnel.

The stop-loss order came from Washington, but a spokesman

there said he could not confirm whether the policy has been invoked nationwide.

"I really can't tell you," said Lt. Col. Jim Ragan, National Guard spokesman in Washington, who returned Monday from vacation.

Other National Guard spokesmen in Washington were not available, Ragan said.

In Texas, a letter detailing the new policy was sent out Jan. 30 to Texas National Guard commanders informing them of the change.

There are 25,900 Guard members in Texas.

## Memory course helps students boost grades

By Anthony Rao  
Former University of Houston football coach Jack Pardee said it best: "This was so helpful to several of my players, I am now making the whole football team take the course."

Pardee read about a memory seminar held by noted memory expert Alvin Jackson and sent three players who needed to pass some important tests in order to stay in school. Uncertain that anyone can be taught photographic memory, Pardee sent athletic department academic advisor Dr. James Berlow as an observer.

In one three hour session Mr. Jackson took three college freshman, whose college entrance exam grades were so poor they are not allowed to practice football, and transformed them into students who can study and recall tasks as well as the brightest students on campus.

Since Dr. Berlow took in the class, he admits his recall and memory increased sixfold. He wishes Jackson's course was available when he studied for his doctorate.

To test the athletes' increased memory, Jackson asked the trio to memorize this number 9185952963092112 well enough to recall it in 13 weeks. It took them an average of 2 minutes. This reporter attended the seminar and witnessed them master French, Portuguese, anatomy, names and faces.

What impressed this writer the most is how memory techniques are used in reading and listening. Jackson used a third year economic text book and I watched as freshmen read and recalled a whole chapter on "Macroeconomic Effects on a Fully

Employed Economy", after reading it once.

"Contrary to popular belief people are not born with photographic memories, it can be taught, I have taught thousands. I have taught it to those wanting to use it to increase their G.P.A. to those with perfect G.P.A.s who wish to cut down on study time while maintaining high grades," Jackson said.

"Our present educational system gives high grades to those who can memorize. If you remember more of what you hear in lectures and remember all of what you read, you will get higher grades," Jackson added.

"I know many techniques and teach my students the one that fits them best. Right now all students use "Rota" memorization system taught in school. Under "Rota", you have to go over and over what you want to learn. As far as I am concerned, "Rota" is the worst. What student has that much time to repeat information enough times to get top grades?" says Jackson.

Jackson will be at College Station Community Center on George Bush Drive, Rm. #105 on February 8th one day only for two sessions. One at 1:00 p.m. and a second session at 6:00 p.m. The tuition for the 3-1/2 hour session is \$55.00.

Jackson guarantees results. "If I don't triple their memory capacity three fold in the session, I will refund all tuition," he said.

Jackson is only accepting 30 persons in each class on a first come first served basis. It is worthwhile and enlightening. You can register by calling 1-800-462-8207.
