He also said an 11.3 percent For 1992, however, 10 percent increase in the Student Governpay several new expenses, in-"It's not a huge amount, but it cluding custodial services and

"The increase might seem out of line," Brooks said. "This is made clear by factoring in the funds came in the Health Center new expenses. If not for them, our budget would be in line with the rest

Elsewhere in the new budget, \$1.1 million budget was out of a 5.21 percent increase in the the question, due to a pair of re-Recreational Sports budget was attributed to the increase in the fund the ISS in the future with minimum wage and repairs to the Penberty Athletic Field.

An 11.19 percent increase brought the Student Counseling Service budget to \$975,988. The addition of three positions to the service necessitated the increase and is intended to enable more students to receive help.

The International Student Services budget received a 14 percent increase, since funding through last year's Student Services Fee failed to cover basic expenses. The budget committee, however, endorses efforts to

funds from alternate sources.

In other Senate action, a reso lution endorsing Legislation raise ing the cap on the Student Sen ices Fee to \$150 was passed. The fee is currently \$81 a semester and the Student Senate pre dicted it will soon surpass the current \$90 cap.

The Senate also passed a reso lution supporting Texas Hous Bill 879, an effort to clarify confusing voter registration cards. The bill would change the cards to ask where a student intended to vote not where their perma nent address was.

Equine specialist creates high-performance diet

the fat in a horse's diet to 17 to 20 percent of its total calories three weeks before an event allows the animal to burn fat during daily exercise and save glycogen for the competi-

The animals will use fat for fuel as long as they are breathing oxygen, he says. Racehorses, however, generally become breathless after exercising intensively for only half a mile, he explains. Without oxygen, he says the horses must burn glycogen.

Horses can function without oxygen for a very short period until their glycogen supply runs out and fatigue sets in, Potter

With more glycogen in their muscles, the horses are able to exercise without oxygen and delay the onset of fatigue, he says. They are able to work harder for seconds longer in a sport where seconds count.

Although he experimented with quarter horses and thoroughbreds, Potter says the fatsupplemented diet will work for any horse doing short-term intensive exercise.

Potter says he became interested in equine nutrition because people constantly are breaking records for speed and endur-

Sea Grant program recommendations made Continued from page 1

☐ A review of significant developments in the interplay between various maritime and compensation remedies.

An update of marine oil and chemical spill control and cleanup technology and training.

Offshore personnel transfer, a review of policy and training on transfer baskets and swing ropes.

☐ How proper claims handling can eliminate expensive litigation in personal injury cases while protecting employees.

☐ How solving technical problems can improve safety and survival equipment performance through better design and engineering, new technical specifications and operations manuals.

☐ Safety and survival regulatory initiatives for offshore oper-

☐ Proposed U.S. Coast Guard OCS revisions.

☐ New and proposed OSHA, MMS and DOT requirements for offshore operations.

Hightower says Sea Grant also sponsors an annual 12-hour maritime safety course. The Gulf Coast Fishing Vessel Safety Program is certified by the U.S. Coast Guard, and its 270-page manual includes information on navigation, safety, firefighting and other topics.

He says crews from 382 vessels from every Gulf state attended last year's course.

Hightower says the need for the course became apparent as insurance premiums for fishing vessels rose. He says a lack of training can result in a higher accident rate, which leads to higher premiums.

Commercial fishing has been

listed as one of the most dange ous occupations," Hightow

The course not only increase a crew's knowledge of safet procedures but also has a more tangible benefit. Hightower says several insurance underwrite companies have said they wi lower their premiums for vesse whose crews have taken th

Japanese universities, he said. Norris said the claim might true for some non-credible ins tutions, but Koriyama A&M admission standards are as high as A&M's flagship campus.

"A&M in Japan is harder to ge into than other institutions," said. "There is a set of criter similar to the Texas main camp

Norris added that Koriyam A&M is a two-year school, an students finish their education A&M's main campus.

A&M's recruiting effort however, could suffer because Japanese media attack U.S. ins tutions, even though criticis has not been aimed at Koriyan A&M, he said.

Norris said some institutions including A&M, are working create an international accred ing organization for U.S. school in Japan.

The organization would efforce quality control and week out undesirable institutions Norris said.

The U.S. Embassy in Japa also is pushing for an accredition agency, he said.

The Chronicle of Higher Education recently quoted U.S. Embassy officials as saying the "need help in a difficult time, a facing lawsuits, scandals, of icism over lower standards an cultural misunderstandings.

An example of a cultural gap that Japanese universities gualantee students will gradualt and many Japanese do not uderstand non-guaranteed U universities.

The difference in cultu makes American universities a pear inferior to Japanese institu tions, the Chronicle concluded
