'Freddy's Dead' And this time he means it

By Martha Rice

"Nine, ten, never sleep again...." This is part of the nursery rhyme that often echoes throughout the "Nightmare on Elm Street" saga, but the familiar red-striped sweater and deadly glove may haunt theater owners dreams no more. "Freddy's Dead, the Final Nightmare," which opened Friday, promises to be the last installment of the Freddy

Krueger epic.

"Freddy's Dead" follows the afterlife of America's favorite dreamboat, this time bringing Freddy's forgotten daughter into the nightmare to kill her monstrous father.

Movie Review

This final chapter opens with the nightmare of the last surviving teen of Springwood, the town where Freddy Krueger killed and was killed. The boy suffers from amnesia, but knows that he is on a quest to find Freddy's long-lost daughter Maggie who was taken away and put up for adoption. In this edition, Freddy's story is told at last - the history of his horrible childhood, and how he killed his wife after she discovered Freddy's horrible secret in the family's base-

The boy is taken into a halfway house in a nearby city, where he meets, conveniently enough, Freddy's daughter, a counselor there. In an attempt to solve his amnesia, they travel back to Springwood and Elm Street, carrying with them a few stowaways from the shelter. They find the town void of children (Freddy has killed them all) and shortly, the three boys meet their typically gruesome fates at the points of Freddy's razored glove. What's so difficult about an exploding head, a live Ninetendo game, and a bed of spikes to ol' Freddy? But enough play. To escape

Springwood in search of new victims, Freddy "possesses" Maggie. "Every town has an Elm Street," he howls, as the street sign sprouts in front of the runaway center in the nearby town.

Maggie rushes back to the runaway home, where she discovers that no one can remember the three boys Freddy has killed. He has erased them! Through the help of one of Maggie's fellow coun-selors who studies dreams, the daughter brings her evil father through to real life, where they face off in a battle to end Freddy's nightmares once and for all. Or will it? Only time will tell.

Freddy pleads with Maggie that her adoption spurred his evil soul to make a pact with the "dream demons" that gave him immortality...and free-reign over the dreams of the children of Springwood. Freddy pleads with Maggie that he loved her and her mother. Will Maggie be fooled by his malicious cries?

The final battle, Good Maggie vs. Bad Freddy, takes place in 3D, which makes it all the more an exciting finally for the series. Just remember not to put on the 3D glasses until Maggie enters her 3D

"Freddy's Dead" is evil genre done good. Freddy, though some of his tales got a little...well, stupid...has always been a cult hero, and a better example of a movie psycho than Jason (Friday the 13th) ever was.

This final chapter is a suitable end to the series. Sprinkled with cameos, the movie even gives fans a glimpse of Freddy (Robert Englund), pre-burned. Alice Cooper is Freddy's abusive step-father, and Roseanne and Tom Arnold show up in Springwood as grieving parents.
As usual, this "Nightmare" is

full of the same kind of crowdpleasing one-liners and gross-outs from Freddy. In one scene he counts on his fingers the ways past protagonists have tried to kill him, cutting off digits one by one. And blood lovers, not to worry - there's no shortage of hemoglobin here. Well, "Freddy's Dead," and for

now, he will rest in villain heaven, or hell, at least for another year. At any rate, "Freddy's Dead" is a great movie to end on.

Five, six, grab your crucifix..
