Life in the fast lane . . .

Speedway brings auto racing back to Brazos Valley

By Richard S. James
The Battalion

Bill Venturini predicted that Sunday's Texas ARCA 500k would be his first win of the season, and he fought back from early problems and pit lane penalties to win by 27 seconds over Bob Keselowski and take the lead in the Permatex Supercar Series driver's championship.

Venturini, from Chicago, won the first stock car race at Texas World Speed-

way since Benny Parsons won a NASCAR event at the two-mile superspeedway in 1981. The track closed in 1988 before being bought by the Ishin Corporation and undergoing a complete renovation.

Venturini was the fastest qualifier, setting a track record of 180.533 mph. But he started in twenty-first position because he qualified on Saturday.

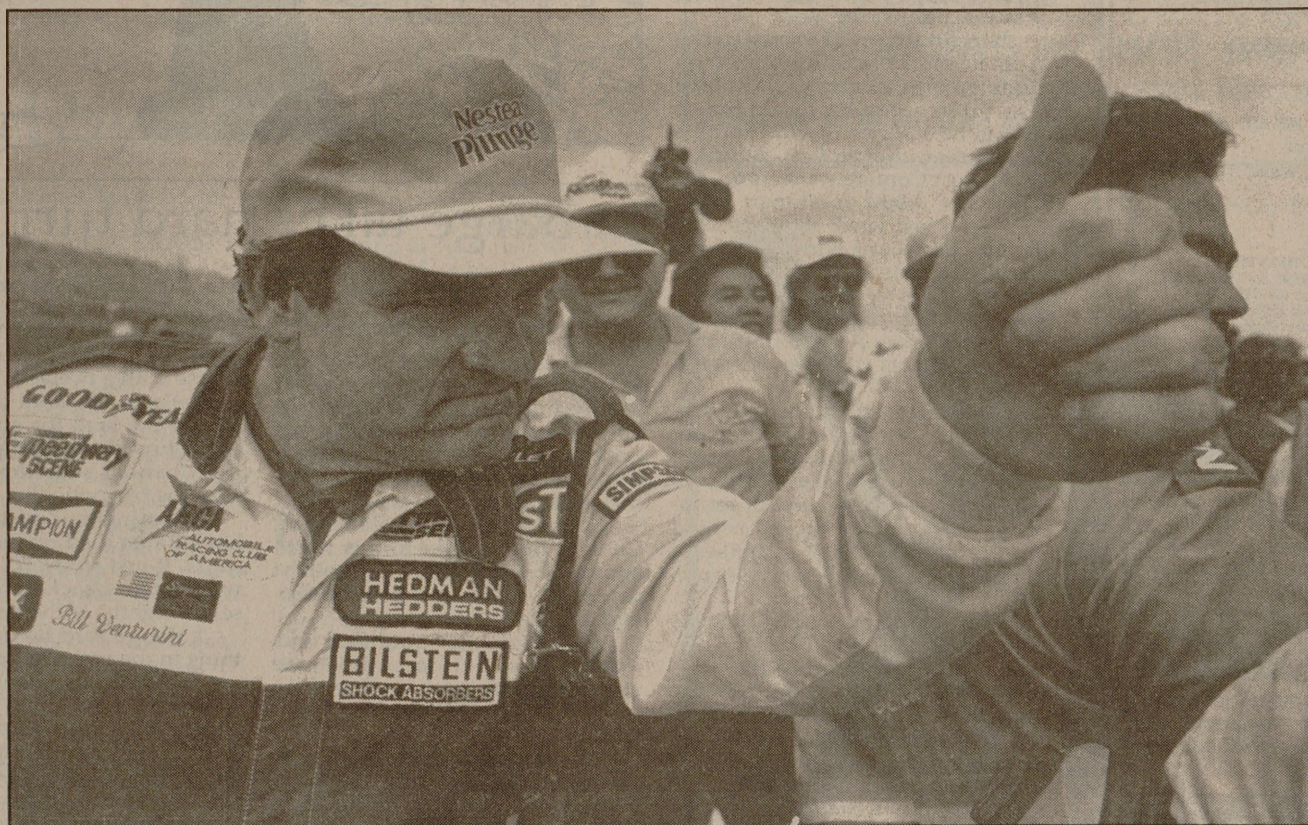

Clay Young of Smyrna, GA qualified his Kent Rentals Pontiac fastest on Friday to claim the pole position. The top

twenty qualifiers on Friday are automatically locked into those starting positions. Venturini's Friday qualifying run was fouled by an ignition problem.

Third qualifier Jeff Purvis pulled out a good lead after passing Ben Hess on lap four before the first yellow came out on lap 21 for oil on the track.

Purvis dropped out of the race after the restart with a blown engine. Venturini had worked his Nestea Plunge

Bill Venturini gives the thumbs up to his crew chief after winning the Texas ARCA 500k at Texas World Speedway on Sunday. The race set

an all-time ARCA (Automobile Racing Club of America) record for lead changes on a superspeedway.

Aggies can't ride out Tulsa storm

From Staff and Wire Reports

TULSA, Okla.—Last Tuesday Texas A&M head football coach R. C. Slocum told reporters that upsets were the nature of college football. That if a team wasn't prepared and ready to play, any team could defeat any other team on any given day.

"There will be some teams like A&M that will lose to Tulsa this weekend. And hopefully that's not us," Slocum explained almost a week ago. Last Saturday those words became prophecy.

Tulsa senior quarterback T.J. Rubley threw a 63-yard touchdown pass to Chris Penn with 2:47 left and the big-play running of Chris Hughley carried Tulsa to a stunning 35-34 victory over No. 15 Texas A&M Saturday.

Billy Cole recovered a fumble on the ensuing kickoff and Hughley, who rushed for 231 yards, got Tulsa (3-1) a first down with a 4-yard run with a minute to go that allowed the Golden Hurricane to run out the clock.

Jeff Granger threw four touchdowns for the Aggies (1-1), but he played like a redshirt freshman in the second half, throwing two interceptions and fumbling a snap for an 11-yard loss on a third-and-1.

The Aggies led 28-10 at halftime before Tulsa scored three touchdowns in a span of 6:16 in the third quarter to take a 29-28 lead. Granger fumbled on the first play of the half and Hughley scored from the 10 on the next play.

A&M had four turnovers on the day.

"We did everything we could to make it turn out like it did," Slocum said of the Aggie mistakes. "Once

Engineering Majors

Come Join Us at an Intel Open House

Date: Wednesday, September 25, 1991
Time: 6:00pm - 8:15pm
Place: Rudder Conference Room 402
Refreshments Provided

- Learn more about:
- Positions Available for Spring '92 Graduates
 - Co-op/Summer Opportunities Available
 - Intel Culture and Work Environment

Interview schedules will occur on Thursday, September 26. See your Placement Office for more details.

The Computer Inside™

Test Your Knowledge!

Who Is This Man?

- Rode across Asia on a tricycle.
- First magician to successfully saw a woman in half.
- Winner of 1886 Ulysses S. Grant look-alike contest.
- Developed rotary dial telephone and automatic switchboard.

If you answered "D," move to the head of the class! Because the man pictured above is Lars Magnus Ericsson, who was working the kinks out of the telephone in Sweden at the same time Alexander Graham Bell was developing the telephone in the U.S. Ericsson went on to found one of the world's largest telecommunications companies, Ericsson Network Systems, now with offices in over 70 countries worldwide.

If you're about to graduate with a technical degree in Computer Science, Electrical Engineering, Telecommunications or a related field, you owe it to yourself to explore a career with Ericsson. We can offer you a world of challenge and international prestige. A world that lets you be a real part of Ericsson's success.

Texas Instruments Job Fair

Wednesday, September 25, 1991

Texas A & M
Rudder Conference Center
Room 701

Interviews Scheduled

Please bring your resume and a copy of your transcript or a list of courses.

TALK TO TI'S MAJOR PRODUCT & SERVICE GROUPS.

TI's technical managers and recruiters want to see you. They want to tell you about the job opportunities in the many technologies which make Texas Instruments a leader in electronics.

That's why TI is having a Job Fair on the Texas A & M campus, September 25. It gives the company three days to bring in key engineers and managers to meet you. They'll come from TI labs and sites to describe programs, answer questions, and schedule interviews.

SIGN UP FOR INTERVIEWS IF YOU ARE GRADUATING WITH THESE DEGREES:

- Bachelor's, Master's or PhD degrees in:
- Electrical Engineering
 - Computer Engineering
 - Computer Science (Business and Scientific)
 - MIS/CIS
 - Mechanical Engineering
 - Industrial Engineering
 - Environmental Engineering
 - Chemistry/Chemical Engineering

- Physics (Engineering and Solid-State)
- MBA with computer-based undergraduate degree
- Marketing
- Math

The Job Fair and sign-ups for interviews: 10 a.m. to 5 p.m., September 25, Room 701, Rudder Conference Center. Interviews (by appointment): September 26 & 27.
