## Official seeks Kennedy files

WASHINGTON (AP) - A House assassinations committee's former chairman has introduced a resolution to open secret committee files on the slaying of President John F. Kennedy.

Rep. Henry B. Gonzalez, D-San Antonio, is sponsoring a resolution that would call for release of the sealed documents within 30 days after the measure's adoption.

Gonzalez, a friend of Kennedy's who was in the presidential motorcade on Nov. 22, 1963, is the first congressman to introduce a measure this session to open files scheduled to remain sealed until 2029.

Many, however, in recent weeks have called for the release of all pertinent files - including those from the Warren Commission. The renewed interest has been sparked by the recent release of Oliver Stone's conspiracy film, "JFK."

A written message at the end of the movie notes that the House assassinations committee sealed until 2029 over 848 boxes of records on the Kennedy assassination.

The committee also probed the assassination of the Rev. Martin Luther King Jr., but Gonzalez' measure does not address those records.

"Until a few weeks ago, I had no idea that any documents had been sealed," Gonzalez said Wednesday in a one-minute speech on the House floor. "The sealing of documents by the House is something that I believe the House of Representatives should find abhorrent."

In his speech, Gonzalez noted that he introduced the legislation creating the House Select Committee on Assassinations in 1976. He also explained his subsequent resignation as chairman the following year after the House leadership refused to back him in a power struggle with the committee's counsel.

The committee, which disbanded in 1979, concluded that the Kennedy assassination was "probably" a conspiracy involving a second gunman.
