Graham

Continued from Page 7

A&M's famous Wrecking Crew defense.

"It's always hard to step into someone's shoes like Quentin's, but I'm confident I can do a good job in the starting role," Graham said. "But it's hard to live up to everyone's expectations."

Part of Graham's development has been to increase his size. Graham has put on more than 20 pounds in the last year but maintains it won't slow him down.

"I didn't just gain weight," Graham said. "I got quicker. (The added size) will help

me hold my ground.

"There's a lot of competition (for the position)," Graham said. "But we've paid our dues so it's time to play."

In high school at League City Clear Creek, Graham was primarily an offensive player. He earned all-district honors as a tight end after playing only one season on the varsity squad.

"He didn't even play defense in high school," Davie said. "We took him, projecting him to be a defensive player based on just his physical attributes. He's really gone through a learning process here, so things probably haven't gone as quickly as Reggie would have liked."

Graham said he wanted to play defense at League City, but an injury kept him from doing so.

"I wanted to play linebacker in high school, but our coach wanted us to play one side of the ball," Graham said. "My junior year, I had knee surgery, so I lost my position."

"I had to play wherever they wanted me. The guys who were playing with me were pretty good. But the two games I played at linebacker I did pretty good."

Davie said Graham has the tools to become more than just a "pretty-good" linebacker.

"I think the thing that jumps out at you is that he is very explosive," Davie said. "I think that was very evident last year when he was on special teams. He ran down there and made some big-time plays. There's no question that he has the physical tools - the size, the speed - to become a great linebacker, but I think Reggie needs to become a student of the game."

"I think being here and being behind Coryatt for two years was probably the best learning experience a guy could have."

Graham

Rangers rally to win

9-run eighth keys comeback in Kingdome

SEATTLE (AP) — Nolan Ryan added some more history to his records, although not another victory, and the Texas Rangers survived an opening day slugfest in the Kingdome by scoring nine runs in the eighth inning for a 12-10 victory Monday night.

The game — and Ryan — drew a Kingdome record 55,818 fans. A sale of the Mariners to a Japanese-led group needs the approval of major league owners.

The Mariners broke a 3-3 tie with three runs in the sixth and scored two more in the seventh for an 8-3 lead before the Rangers rallied.

The big hit for the Rangers in the eighth was a three-run pinch homer by Geno Petralli off loser Mike Schooler, the sixth pinch homer of Petralli's career, to give Texas a 9-8 lead. The Rangers had seven hits and two walks in the wild inning, scoring all their runs with two outs, for a 12-8 lead.

Petralli's homer scored Kevin Reimer, who doubled, and Ivan Rodriguez, who walked. Reimer had a two-run double off Kevin Brown to cut the Mariners' lead to 8-6.

The Rangers got their first run in the eighth on Dickie Thon's double off Gene Harris, who started the inning.

Former A&M QB takes SWTSU

SAN MARCOS, Texas — Southwest Texas State University Monday named former A&M quarterback Craig Stump running backs coach.

Stump, who spent four years at Tulane University in various positions including tight ends and special teams, replaces Peter Hammond who left last month for Georgia Southern.

The former signal-caller led eight games as a freshman on the Aggies in 1984, two more in 1985 and shared time with Pavlas and Bucky Richardson in 1987.

He was also starting quarterback in 1984, 1986 and for half of the 1987 season.

Stump graduated from A&M in 1987 and followed with his Master's Degree at Tulane.

Jackson looks to leading role at linebacker

Continued from Page 7

excellent combination of academics and football.

"When I came up here to watch the football games, I liked the way the crowd supported the team, whether they were winning or losing," he said.

Jackson, who was a running back in high school in Rockdale, was redshirted his freshman year in Aggieland. He said it was difficult to watch from the sidelines.

"The first year it was really hard because all the games I didn't feel like I was a part of it, even though I helped the team practice," Jackson said. "You don't really feel like you're a part of it until you're out there on a Saturday and you actually get to play."

Watching the success of veterans like defensive back Kevin Smith and powerful newcomers like Patrick Bates help provide

Jackson with incentive.

"Those are people you can really look up to and learn something from," he said.

Last season, Jackson's special teams' duties gave him the chance to contribute to the A&M team. But after two years of playing the understudy to Coryatt, he said he's ready to play the leading role.

Davie said Jackson's personality could help him get the star job as an inside linebacker.

"Larry's best asset is the of person he is," Davie said. "He's been waiting two years now and he's hungry. 'It's his turn.'"

Jackson

O'Brien

Continued from Page 7

seniors, Bobby Hurley is a junior, and Antonio Lang and Grant Hill are sophomores. Hill and Lang are the youngest starters for the Blue Devils, and they had more championship game experience than all the Michigan players combined.

As fun as it was to see the Fab Five come back to Mother Earth and get out of their media-induced orbit, it became painfully apparent that these young men will be heard from again. And again. And again.

They are one of the three most talented basketball teams to play in the NCAA tournament in the last 15 years. In terms of raw athletic ability, this year's Michigan team is up there with the 1982 North Carolina team of Michael Jordan, Sam Perkins and James Worthy. It also compares to the 1991 UNLV team of Larry Johnson, Stacey Augmon, Anderson Hunt and Greg Anthony.

But talent alone doesn't win. Ask those five disheartened freshman who had to make the long walk back to the locker room after failing in their surprising quest.

It takes determination, experience, great coaching and a lot of luck to cut down the nets in the big finale.

The Fab Five will be around the Final Four will get their chance again. If they stay together and avoid injury, the freshman will continue to knock on the championship door for years to come.

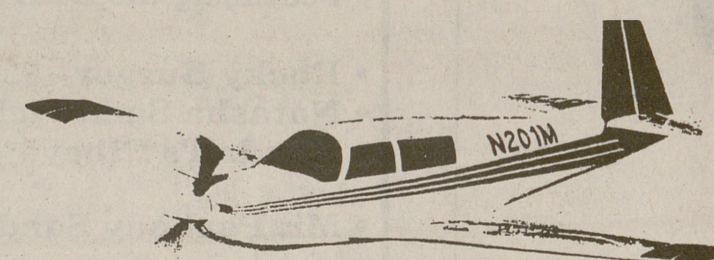

And they'll have all that other stuff they need to go with their tremendous talent.

For one night, though, the guys won one, and the youngsters put their feet back on the ground.
