Dear Parents & Students

A computer is an important educational tool which can enhance one's ability to survive a college education. In 1985, the Micro Computer Center was established to serve the computing needs for all full-time students, faculty, and staff of the university. Through special educational agreements the Micro Computer Center is able to offer personal computers and computer software at a substantial discount.

This Parent's Day weekend we have invited representatives from each of our major computer lines to answer any questions you may have about their computer hardware. They will also be on hand to demonstrate their most recent advances in hardware and software technology.

Micro Computer Center
Open Monday - Friday
10:00 a.m. - 5:00 p.m.
(409) 845-4081

If you are seriously considering a computer purchase in the near future, I encourage you to take this opportunity to gather the facts and figures on the products we support.

For your convenience the Micro Computer Center will be open on Saturday, April 25th, from 10 a.m. to 5 p.m. and will have demonstration tables set up in the MSC hallway near the bookstore entrance.

Sincerely,
J. Paul Rodriguez
Manager
Micro Computer Center
