Extreme shows versatility on new, fast-paced album

By TRICIA MARTINEZ
Reviewer of THE BATTALION

Extreme "III Sides To Every Story" A&M Records

Extreme's third release, "III Sides To Every Story," is out and steadily rocking its way up the music charts.

It's a relief to know that Extreme will not sell itself short by living in candyland, producing singles such as "More Than Words" and "Hole Hearted," which were so successful on their second release, "Pornograffiti." Don't get me wrong, the songs are good, but they are more along the lines of The Outfield.

Extreme is a rock group and "III Sides To Every Story" illustrates this to the highest degree. There are a couple of tracks that sound as though Chicago might have had some input, but other than those two the album contains solid rock.

Nuno Bettencourt is memorable on guitar, and drummers will especially enjoy listening to "Cupid's Dead," which is full of Paul Geary's drum solos.

Extreme tried some innovative ideas on this album. It opens with a military voice giving commands to what sounds like an entire infantry troop, but when you hear a young girl's small voice reply "Yes, daddy" it sets the mood for the entire album.

You just don't know what will happen next. In fact, you hear everything from train sound effects in "Stop the World" to Martin Luther King Jr. delivering a speech in "Peacemaker Die."

The hard rock stops just long enough for Ex-

Extreme rocks and gets more innovative with their third album, "III Sides To Every Story."

Extreme to fit in a ballad. Once again their unforgettable harmony is heard as on "Pornograffiti" and you learn that all members of the group are talented on vocals.

Lead singer Gary Cherone goes all out on this project. He sounds as though he is having a good time, especially on the cut "Tragic Comic." It almost seems that he is laughing in parts, or at least smiling.

The album's latest single, "Rest In Peace," is already receiving local air play on AOR stations and is holding position five on the charts. Extreme truly fits the old cliché that the third time is a charm.

'Bob Roberts' overdoes political parody

By TIMM DOOLEN
Special to THE BATTALION

"Bob Roberts" Starring Tim Robbins Directed by Tim Robbins Now playing at Schulman 6

It's hard to believe, but it is possible to try too hard to make neo-fascist conservatives look like idiots. In "Bob Roberts," first-time writer-director Tim Robbins makes the title character of the movie into an unbelievable parody of Republican politics.

The film is a mock British documentary on American politics, focusing on a fictional 1990 Pennsylvania Senate campaign.

Robbins creates a serious look at a laughable character, or a humorous look at a contemporary

politician. It depends on your point of view, and how closely you identify with the teachings of the Grand Old Party.

Bob Roberts rises to fame as a conservative folk singer, makes millions in Wall Street in the 1980s and decides to run for the Senate, taking us on the road to our country's ruin.

"Conservative folk" may be a contradiction in terms, but it's the basis of the funniest parts of the movie.

Robbins lampoons Bob Dylan's "Times They Are A-Changin'" in the humorous "Times Are Changing Back," which, along with similar songs, extolls the virtues of blind conservatism.

In "I'm a Bleeding Heart" he sings "Let's give money away to lazy people...What's right is right/ What's left is wrong." You get the idea.

Aboard his tour bus is a stock market on wheels, where he continues to make more millions, and at night he makes singing appearances around the state to boost his

place in the polls.

The premise is enough to keep you laughing for the first 30 to 45 minutes, and some of the running jokes provide additional laughs.

But the serious edge that creeps in through the first half of the movie and flourishes in the second half engulfs the movie and drowns it.

This film is too one-sided to be taken seriously, and too serious to be taken laughingly throughout. The conservatives are sooooo bad, and the liberals are sooooo good - it's safe to say there's a happy middle ground.

Nonetheless, the songs are a hoot (buy the soundtrack). The whole film should have been as good.

"Bob Roberts" will appeal to people who are fed up with glossy politicians. One warning: this movie is not for all tastes and may offend those who lean to the right.

A rule of thumb - if you got excited about the Dan Quayle rally on campus this week, don't see "Bob Roberts."
