A&M fullback Clif Groce bulls his way through Texas Tech defenders Tracy Saul (6) and Marcus Coleman (12) during the Aggies' 19-17 win. Groce helped the A&M offense drive 80 yards during the final possession of the game for the winning score.

Aggies

Continued From Page 5

marked the first time this season that A&M's rushing firepower was on full display. It even impressed Tech linebacker Mike Liscio, whose pre-game quotes were grade-A bulletin board fodder.

"It's hard to concentrate on stopping their running backs when they can rotate Thomas and Hill the way they do," Liscio said. "You can't key on just one of them."

Liscio's dejection was representative of the Red Raiders' mood following the game. To fight back from a 10-0 A&M lead and go up 17-16 late, only to see Venetoulis kick their Cotton Bowl hopes into the College Station sky, left Tech's locker room in a morgue-like aura. And no one was more saddened than Dykes.

"It hurts," Dykes said. "It seems to be that the more you put in, the more it hurts when you lose."

"I don't know that we can play any harder. Close ballgames are harder on the teams that lose and we happened to be the team that lost."

One of the few consolations to come out of the game was the play of Tech's long distance connection, quarterback Robert Hill and wide receiver Lloyd Hill.

Hill made the A&M secondary look human, completing 17 of 30 attempts for 228 yards despite being sacked four times. Hill pulled down six of those tosses for 117 yards, with the biggest catch coming with a second left in the third period when he grabbed a Hall offering and strolled 41 yards for Tech's second touchdown.

Hill was realistic about his team's loss, but he found a few bright spots amid Tech's dark Cotton Bowl hopes.

"It seems like we're always on

the short end of a game like this but we've got to feel like we did some good things," Hall said. "We learned some things today and I think we accomplished a lot against a strong defense."

A&M's defense probably learned a few things as well, like how other teams like to shoot down potential national champions. That dose of reality will be valuable, despite the fact that A&M's remaining opponents only one has a winning record.

For Tech, Saturday's game was as sobering as hot coffee. Tech players and fans came to town expecting to win, but left with their hopes for a Cotton Bowl, and maybe any other bowl, in pieces.

The resignation in Dykes' voice spoke volumes about what might turn out to be Tech's last season.

"This was our best shot," he said. "A little play here or there and things would have been different."

Venetoulis

Continued From Page 5

missed kicks do sometimes come into play between opportunities.

"To tell you the truth, I do think about bad things until the next attempt every once in awhile," Venetoulis said. "I try to tell myself things like that happen, but it still eats at me."

With 69,817 anxious fans on the edge of their seat and their attention solely focused on A&M's place-kicker, Venetoulis acknowledged his position is one where he can be a hero or a goat.

"It is hard to say but in a way the fans sometimes only do see us then (when the game is on the line)," he said. "Fans see it that way, but from a team standpoint it is not that way."

"A lot of people do not think

about kickers until the moment of truth," he said. "When it comes time to kick the field goal you need to perform or else."

Texas A&M quarterback Jeff Granger said he and the rest of his teammates had no question on whether Venetoulis would succeed on his game-winning try.

"It's a tough spot to put Terry in, but that is the position he plays and he has learned how to play it," Granger said. "All I could think was, 'Terry, don't think too much about this.'"

"He went out there and did his job."

A prosperous kicker is one who can bounce back from adverse conditions, according to Venetoulis. He said he keeps a thought in his mind that A&M head coach R.C. Slocum has told him in the past.

"Coach Slocum always tells me there is no use crying over spilled

milk. Champions bounce back," Venetoulis said. "I will get another opportunity, so I had better not go into the tank after missing one."

Preparation for the game winning kick began as soon as he heard the coach call his name.

"As soon as I determine it is time to go out on the field, I am thinking about what I need to do," Venetoulis said. "Once I am out on the field, I take my steps back and pick a spot between the uprights."

"I tell David (Davis), who is my holder, that I am ready and Darrell Red snaps the ball and things are set into motion."

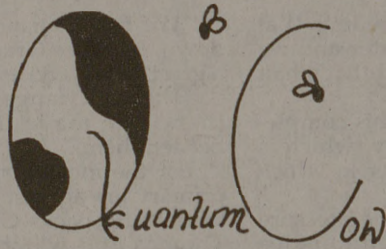

"Once I saw it go through the uprights, I was going 'Thank you God' and started celebrating," he said. "Coach Slocum always tells me I've got ice water running through my veins, and I guess that is the way I have to be."

HAVING A COW OVER CHEM? THIS TIME YOU HAVE A CHOICE...

QUANTUM COW TUTORING 693-9434

CHEMISTRY 101, 102

MATH 131, 142

- * INDIVIDUAL TUTORING AND REVIEWS
