**Rome, Athens, Budapest—and College Station?**  
 Vote today at Freebirds World Burrito for the C.S. Bikeway Master Plan

By KEVIN COCHRAN  
 Paid Advertisement

Motor vehicle pollution is so catastrophic in cities such as Rome, Athens, Mexico City, Sao Paulo, Budapest and others, that bans on operating motor vehicles are commonplace. While College Station is years away from even considering banning the operation of motor vehicles, unfortunately we are headed down that road with nearly every other city in the country.

Thirteen-trillion cubic yards of motor vehicle exhaust is annually thrust into the air we breathe, ultimately poisoning our crops, destroying our forests, and harming us humans. For every gallon of gasoline our automobiles burn, twenty pounds of carbon dioxide is spewed into the air, in addition to nitrogen oxide, carbon monoxide, hydrocarbons and others. In fact, driving motor vehicles creates more air pollution than any other human activity.

Here in Texas, we have our own problems: the highest emissions of nitrogen oxides in the country at over two times the California levels (the next highest state). Further, Houston, Dallas/Fort Worth, Beaumont/Port Arthur, and El Paso have seriously harmful motor vehicle ozone emission levels, and San Antonio, Austin and Corpus Christi are in danger of being added to the list.

We must look beyond the entrenched modes of transportation and endorse alternative transport systems, like bikeways, that provide for easy and safe mobility, while not harming our environment or sapping our economy. City engineers have to design for shared roadways, and motorists have to learn to share them. Bicyclists then must learn to ride responsibly. But first we must overcome the problem of a nonexistent bikeway master plan. Now you can change that.

October 28 the College Station City Council will vote on the Bikeway Master Plan immediately following a public hearing at City Hall Council Chambers beginning at 7 p.m. Freebirds World Burrito and the Texas Bicycle Coalition will make statements and present lists of names of those who support bikeways in C.S. Our goal is twofold: to provide the City Council with at least 2,000 or more signatures and to have at least 50 supporters attend the hearing.

By adopting the Bikeway Master Plan designed by city transportation officials, College Station will be entitled to apply for more than \$1 million dollars in federal funding for bikeways. Upon funding the city will develop a continuous loop of bike lanes, routes, and paths linking the university with residential, commercial, and entertainment areas, Wolf Pen Creek amphitheater complex, and local schools.

Why is Freebirds taking such an active stance on this particular issue? In addition to the need for business environmental and social responsibility, and the chance to enhance life for A&M students, the two-restaurant chain was founded in Isla Vista, California (adjacent to U.C. Santa Barbara), where 80% of students use bicycles as their primary means of transportation. In fact, a bike-thru window will be introduced soon at Freebirds in California.

Besides the positive environmental effects of bicycle riding, Freebirds is concerned about safety. Each year in this country approximately one-half million people are admitted to a hospital emergency room and over 1,000 people die due to bicycle-related accidents. In Texas, there are at least 50 bicycle fatalities per year.

The health and fitness benefits speak for themselves. Once bicycle travel is made safer and more efficient with the development of planned bikeways, we can all breathe a little easier. So vote today at Freebirds World Burrito for the C.S. Bikeway Master Plan.

**A&M women's volleyball wins two**

By Nick Georgandis  
 THE BATTALION

The Texas A&M Lady Aggie volleyball team extended its winning streak to four straight matches by knocking off both Northern Illinois and Northeastern Louisiana this past weekend at G. Rollie White Coliseum.

But Saturday night's win against the UNL Lady Indians was a bittersweet one for the Lady Aggies. In the third set of the 15-6, 15-7, 15-9 victory, senior setter and outside hitter Genny Wood suffered an ankle injury when one of the Lady Indians landed on her foot.

Wood had to be helped from the court and her status is listed as questionable for A&M's Wednesday match against Texas Tech.

A&M head coach Laurie Corbelli said she was very disappointed with the injury.

"I was afraid that something was going to happen to a starter," Corbelli said. "It's going to hinder Genny some and she's such an important part of our team."

The Aggies moved to 20-4 on the season with the win.

A&M's victory Friday night

**Aggies**

Continued from Page 7

yard pass to junior wide receiver Brian Mitchell, who caught the ball over two Baylor defenders.

A&M capped off the 10 play, 67-yard drive when Pullig hit a wide open Cliff Groce in the end zone for a four-yard touchdown pass to give the Aggies a 27-17 lead.

Groce said that he was pleased with the offense's performance against the Bears.

"I feel real good about how we played on offense today," the junior running back said. "We came down here and we said it was going to be a physical game and we moved the ball real well today."

**Whitley**

Aggies. That's my yell," he said.

As A&M's ability to stop the Bears in the second quarter dwindled, so did the Baylor fan's insults increase.

"Hey, you guys are weak," he shouted. "If you guys are so good, how come you ain't beating us, huh?"

For the Aggie faithful, the halftime score of 10-10 was disheartening enough. But the constant jeers from the opposition of one in the stands started to wear on their nerves.

"I'd like to punch that guy's lights out," said one frustrated Aggie. Some others expressed a similar sentiment, but they could not be quoted in a family newspaper like this one.

They were saved, however, by the performance of A&M quarterback Corey Pullig. Pullig had arguably his best aerial results of the year, completing 21 passes in 28 attempts for 230 yards. He was consistently moving the Aggie offense down the field in the second half and even threw the game-icing touchdown running back Cliff Groce early in the fourth quarter.

But give the Baylor fan credit. He wouldn't give up. Even though his team was down, 27-

**Phillies beat Blue Jays, 6-4**

The Associated Press

TORONTO — The Philadelphia Phillies determined to make Dave Stenstrom throw a lot of pitches, to make him throw strikes and to hit him when he did. It worked to perfection Sunday night.

Jim Eisenreich hit a three-run homer and Lenny Dykstra homered in leading the Phillies past the Toronto Blue Jays 6-4 in the World Series at game each. Terry Mulholland picked up the win.

**Propose**

Texas A&M students are voicing their opposition to a proposal to restrict dormitory access. The solicitation of signatures is a problem-solving effort by the College of Arts and Sciences, the College of Business Administration, the College of Education, the College of Engineering, the College of Fine Arts, the College of Health Sciences, the College of Journalism and Mass Communication, the College of Law, the College of Liberal Arts, the College of Science, the College of Social Work, the College of Veterinary Medicine, the College of World and International Studies, and the College of Architecture.

The proposal would restrict access to dormitories to students who are currently enrolled in a course at the university. This would mean that students who are not currently enrolled in a course would be unable to visit their dormitories.

The proposal is being opposed by a large number of students who feel that it would be an infringement on their rights. They feel that they should be able to visit their dormitories at any time.

The proposal is being opposed by a large number of students who feel that it would be an infringement on their rights. They feel that they should be able to visit their dormitories at any time.
