Election

Continued from Page 1

"In precincts 20, 21 and 61, which we consider the student sections, 5,110 citizens are registered vote," Hooks said.

A student has not run for city council in several years, Hooks said, although they do sometimes run after graduation. Students who run for the council rarely win because students generally don't vote," she said. Stathatos hopes at least 1,000

students vote. "I know my opponents have really been advertising," Stathatos said. On a college student's budget, it's hard to compete. I hope people don't vote by name recognition but vote for who they feel is best for the position."
