GATT agreement brings smiles to some...

U.S. prune juice, beer to be benefited

WASHINGTON (AP) — Forget the grand words about how GATT would set loose a "powerful wind of economic freedom." Imagine instead that it could usher in the golden age of American prune juice.

Beneath the glowing principles of GATT is a mountain of minutia, a collection of exotic and ordinary things that trading nations say should become cheaper for nearly everyone.

Consider: Beer drinkers abroad should be able to load up on Bud without losing their shirts. And after all these years, American swine livers should finally be within reach of the average European shopper.

Americans should get a bit of a break on imported garlic, tulip bulbs, refrigerators, bamboo luggage and pig fat.

... and agreement brings frowns to others

SPARTANBURG, S.C. (AP) — Larry Tarleton sold his sewing factory this week rather than face the foreign competition that GATT is expected to bring.

Adobe Apparel Inc. made T-shirts, sweat-shirts and dresses for companies like Russell Corp., maker of the Russell Athletics brand.

Tarleton said he was lucky to have found a buyer for his Greenwood company in an industry he called "a dying breed."

"I have spent the last five years trying to build a company, and in my opinion the govern-

ment has destroyed the sewing machine industries by approving two things: NAFTA and GATT," he said Wednesday.

He was referring to the global General Agreement on Tariffs and Trade and the North American Free Trade Agreement signed this year between the United States, Mexico and Canada.

Most textile and apparel shops aren't expected to close their doors if the Senate approves the GATT on Thursday. The House of Representatives passed the measure Tuesday.

There are good times ahead for bicyclists needing inner tubes. And U.S. duties on bulldozers, bayonets, buttons and bras will come down.

Legislation implementing the expanded General Agreement on Tariffs and Trade passed Tuesday in the House and will be voted on Thursday in the Senate.

If it is approved, overall du-

ties would drop by about one-third in the United States and the other 123 countries that are signed on. Some cuts start Jan. 1; others are staged over 10 years.

They're all spelled out in tariff schedules stacked at the U.S. Trade Representative's Office.

U.S. supporters talk of the opportunities it will bring to Amer-

ican exporters, especially farmers who will be able to sell more to Japan and Europe and high tech companies poised for gains in long-protected markets.

Japanese duties will drop to 14.4 percent from 22.5 percent on American prune juice, to zero from 15 percent on beer, and to zero from 24.5 percent on whiskey.

WHAT INSPIRED THE MOUNTAIN MEN?

George Washington:

"Whereas it is the duty of all nations to acknowledge the providence of almighty God, to obey His will, to be grateful for His benefits, and humbly to implore His protection and favor."

Abraham Lincoln:

"Intelligence, Patriotism, Christianity, and a firm reliance on Him who has never yet forsaken this favored land are still competent to adjust in the best way all our present difficulty. ...As was said three thousand years ago, so still it must be said, 'the judgments of the Lord are true and righteous altogether'"

Thomas Jefferson:

"God who gave us life gave us liberty. Can the liberties of a nation be secure when we have removed a conviction that these liberties are the gift of God? Indeed I tremble for my country when I reflect that God is just, that His justice cannot sleep forever."

Teddy Roosevelt:

"There are those who believe that a new modernity demands a new morality. What they fail to consider is the harsh reality that there is no such thing as a new morality. There is only one morality. All else is immorality. There is only true Christian ethics over against which stands the whole of paganism. If we are to fulfill our great destiny as people, then we must return to the old morality, the sole morality."

FACULTY FRIENDS

We are inspired by Jesus Christ who said: "For God so loved the world that He gave His one and only Son, that whoever believes in Him shall not perish but have eternal life." We are a group of professors, instructors, lecturers, and administrators united by their common experience that Jesus Christ provides intellectually and spiritually satisfying answers to life's most important questions. We are available to students, faculty, and staff who might like to discuss such questions with us. If you would like to be a part of the FACULTY FRIENDS ad, please contact Murphy Smith 5-3108, Steve Crouse 5-3997, or Lee Lowery 5-4395.
