Take a Spring Break reality check. South Padre Island, Texas, is the hottest Spring Break destination for many reasons. The Island is a hot spot for student's offering exciting music, a sea of watersports and legendary nightlife. It's even close enough to give you a spicy taste of Mexico. But the Island's location makes it even hotter; it's further south than any other major Spring Break destination in the United States. That's right. And that means tropical sunshine, white sand beaches, clear blue water and more sun-drenched days than just about anywhere. That's hot!

Located on the tropical tip of Texas, South Padre Island is convenient by car or by plane and only 25 miles from Mexico. Fly into The Rio Grande Valley via Southwest, American, and Continental Airlines.

Two airports, Harlingen's Valley International Airport and The Brownsville/SPI International Airport, offer convenient air service. So call 1-800-343-2368 today for a free brochure.
