(Late registration available thru Apr. 17)

great research...

Kaplan spends over \$3 million annually developing products and researching the tests. We've proved that we know the tests inside out.

LSAT In 1992, Kaplan predicted the elimination of an LSAT question type and changed our course in anticipation of the change.

GRE In 1993, the ETS was forced to withdraw a GRE question type because Kaplan "broke the code."

GMAT In 1994, Kaplan research brought to light security flaws in the computer-based GRE tests. As a result, the ETS temporarily pulled the test.

MCAT

SAT

great results.

Kaplan's expertise translates into higher scores and greater confidence for our students. Put our research to work for you on test day.
