

Ferreri's

2702 Texas Ave. S.
College Station, Texas 77802
(409) 693-0054
Fax: 696-0901

- For your convenience, Ferreri's offers private dining for parties, rehearsal dinners, and business meeting for lunch or dinner. We have private seating for up to 100.
- We serve steaks, seafood, chicken, and Italian food.
- Lunches starting at \$3.95.
- Call us when planning your next party.

MSC FILM SOCIETY PRESENTS...

The Return of the Great Adventure!

SAT. @ 7 & 9:30

Persons with disabilities please call 845-1515 to inform us of your special needs. We request notification 3 working days prior to the event to make us to assist you to the best of our ability.
Aggie Cinema Station 847-8478
All times are subject to the Student Theater Complex
e-mail: films.spr@msc.tamu.edu

MAY GRADS

If you ordered a 1995 ACCILAND and will not be on campus next fall to pick it up, you can have it mailed. You should stop by the Student Publications business office, room 230 Reed McDonald Building, between 8:30 a.m. and 4:30 p.m. Monday through Friday and pay a \$550 mailing and handling fee. Refunds will not be made on ACCILAND yearbooks not picked up within one semester of the publication date.

Plate: Defense lawyer seeks dismissal from case

Continued from Page 1

showing little emotion but chuckling a few times during light-hearted moments. He seemed most interested when one of his attorneys showed the court a large collection of newspaper headlines about the case. The death toll rose to 110 with the discovery of 11 more bodies, eight of them in "the pit" of the pancaked floors above the day care center and Social Security offices. All were adults. "We've gone through most of the day care (area) at this point," said Fire Chief Gary Marrs. "The Social Security (area) is going to be harder to determine. I think we've hit spots of both areas."

the lower we go," Marrs said. He said searchers had reduced the rubble pile at the front of the pit from three stories high to about the height of one story. Fifteen of the dead identified so far have been children, said Ray Blakeney, spokesman for the state medical examiner's office. He said 97 people were believed missing, including four children from the day care center and a fifth who was in the Social Security office. When McVeigh, the only person yet charged in the bombing, was stopped by a state trooper on April 19, 90 minutes after the blast, his yellow Mercury Marquis was missing a license plate. That plate has not been found, and the FBI is seeking it, said special agent Weldon Kennedy, who is in charge of the investigation.

A Washington law enforcement source, who spoke on condition of anonymity, said investigators know "that plate was on a vehicle in Oklahoma City before the blast." There is a videotape that shows the plate on a vehicle in Oklahoma City, the official said; it has been reported previously that a videotape shows the Ryder truck outside the federal building. "Why would it be useful now?" "It might be on the ground," and the location might help pinpoint an escape route, the official said. "Or, it might be on another vehicle," the official said, suggesting that it might have been switched to an escape vehicle used by Doe No. 2.

Panel

or American, but a mixture of the two. "I didn't define myself in terms of race until I came to A&M. But, unfortunately, people treat you in terms of ethnicity." Panelist Shawn Williams said ethnic differences should be celebrated instead of covered up. "I say I am an African-American because I would not want to cut off either side of my identity — the African or the American," he said. "The melting pot would be fine if there was something representative of everyone in the pot. It would be wonderful if I saw an Anglo student wearing a diasheki just like I wear 'Anglo' clothes, or if I saw an Asian in a sombrero." Panelist Nature Sargent said that because Texas A&M does not tolerate ethnic differences, it is time to reevaluate what an Aggie is. "The definition of an Aggie is far too stifling," she said. "At a time when we should be encouraging creativity among students, the definition of an Aggie leaves no room for creativity."

Expert: Hawking discusses cosmology

Continued from Page 1

"However, in recent years the range and quality of cosmological observations has improved enormously with developments in technology. So this objection against regarding cosmology as a science, that it doesn't have an observational basis, is no longer valid." Hawking said he wants to know why the universe is the way it is. He said that in the past, people gave reasons based on religion and metaphysics, rather than science. "Although many people welcomed this conclusion, it has always profoundly disturbed me," Hawking said. "If the laws of physics could break down at the beginning of the universe, why couldn't they break down anywhere?" "In quantum theory it is believed that anything can happen if it's not strictly forbidden." Hawking told of a theory called the "no boundary proposal" which he proposed along with Jim Hartle, a fellow physicist. The boundary condition of the universe is that it has no boundary, Hawking said. "The path integral for quantum gravity should be taken over all compact Euclidian metrics," he said. Hawking also described the "Hot Big Bang" model and said the model does not explain why the universe is expanding at almost exactly the critical rate to avoid collapsing again. He said that if it was not, "the universe wouldn't have lasted long enough for life to develop." Jokingly, Hawking told the audience not to wait around to become young again. "It is not much use waiting for the universe to collapse to return to your youth," he said, "because it would take too long."

Dr. Steven Hawking presents technical information on quantum cosmology and black holes.

Panelist Nature Sargent said that because Texas A&M does not tolerate ethnic differences, it is time to reevaluate what an Aggie is. "The definition of an Aggie is far too stifling," she said. "At a time when we should be encouraging creativity among students, the definition of an Aggie leaves no room for creativity." Dr. Greg Moses, a lecturer in the philosophy department and the faculty adviser to the National Association for the Advancement of Colored People, concluded the conference by encouraging students to take an active role in solving race-related problems. "The society depends on students to move the world forward," he said. "Aggies have not been doing that. Students need to take the initiative because it's a poor student body who thinks it has to simply follow the administration." Moses recommended a diverse education. "I have no sympathy for those who think multicultural courses work will cause them to do or learn something unholy," he said. "I recall chemistry and trigonometry being shoved down my throat when I first came to A&M. So, I think there's a good reason to shove black history down students' throats in 1995; they haven't already learned by now."

You'll always remember your first new set of wheels. Get a **\$400** college graduate bonus for your coolest ride yet.

BOSSIER
CHRYSLER PLYMOUTH
DODGE JEEP EAGLE

4100 Highway 6 South in Bryan
(on the Bypass between the Briarcrest and University exits)
823-8111

* \$400 bonus is not available with any other private offer. Offer is good on any new 1994, 1995, 1996 Chrysler Corporation vehicle and ends December 31, 1995. 1994 model vehicle eligibility may end prior to December 31, 1995. See dealer for complete details, eligibility requirements and exclusions.

Just like your first bike or first pair of blades, your first new car is unforgettable excitement. And now that it's time for some serious transportation, Chrysler Corporation and Bossier Chrysler / Dodge / Jeep Eagle wants to make your first new set of wheels even more memorable with a \$400 bonus.

Our college graduate program -- **Extra Credit '95** -- offers qualified '93, '94 and '95 college graduates, grad students and students within six months of graduation cash back on the purchase or lease of any new Chrysler Corporation vehicle -- that's in addition to any other national consumer incentives*. And don't let your lack of funds bum you out. Chrysler Credit has a variety of programs you may qualify for -- even without established credit.

So stop by or call today. With **Extra Credit '95**, you can reward yourself with something more incredible than your first vacation without the folks.

ENGINEERING GRADUATES

Some Of The Best Job Offers Haven't Been Offered—Yet!

Find Out What Motorola In Fort Worth Has To Offer By Attending Our Engineering Student Career Fair

Sunday, April 30th, Noon to 5 pm
Dallas/Fort Worth Airport Marriott
8440 Freepoint Parkway in Irving

Hiring Managers from Motorola's Paging Products Group will be there to tell you how you can engineer the next generation of paging products and infrastructure in Fort Worth. Motorola is a world leader in paging. And, right now, we're hiring individuals with world-class talent who want to make an impact in this exciting technology:

- Software Engineers**
 - Micro controllers
 - Embedded real-time
 - C and Assembly language
 - Digital Signal Processing
 - Computer Science
 - Systems Engineers
- Hardware and Mechanical Engineers**
 - RF design
 - Digital Hardware
 - Display housings and PCMCIA cards
 - Telephony Switches

Paging is a high-growth industry expected to be serving over 150 million customers by the year 2000. With breakthroughs in high-speed signaling systems and two-way paging, Motorola is taking paging technology into the next century and beyond. Find out how you can be part of the excitement at the Engineering Student Career Fair. If unable to attend, send your resume to: Motorola Paging Products Group, College Relations Manager, 5401 N. Beach St., Fort Worth, TX 76137.
