**BRIEFS**

**Juvenile Services awaits A&M psychology intern**

The Texas A&M clinical psychology faculty will select a student from the advanced clinical psychology doctoral program for a new internship at the Juvenile Services of Brazos County.

Dr. Douglas Snyder, A&M professor and director of clinical psychology training, said the intern will gain professional experience while helping juveniles in need of counseling.

A representative from Juvenile Services said the intern will increase their effectiveness and efficiency.

The internship will last from September 1995 to August 1996.

**Gramm's 'favor' request found in A&M papers**

HOUSTON (AP) — Phil Gramm wrote a letter in 1983 asking for a "personal favor" that led to an Air Force member being discharged a year early so he could work for the U.S. senator, the Houston Chronicle reported today in a copyright story.

The November 1983 letter written to Verne Orr, the Secretary of the Air Force at the time, requested a special discharge for Airman John Weaver.

Gramm, who was then a member of the U.S. House, wrote that he wanted Weaver to help run his campaign to join the Senate.

A copy of the letter, which was signed by Gramm, also was sent to then-Joint Chiefs of Staff Chairman John W. Vessey.

The Chronicle found the letter this week in a collection of Gramm's congressional papers in the archives of Texas A&M University, where he used to teach.

**Baylor's dental school joins Texas A&M System**

Gov. George W. Bush will hold a formal signing of House Bill 2495 Friday, which makes the Baylor College of Dentistry a part of the Texas A&M System.

Also attending the signing at the State Capitol in Austin is Mary Nan West, A&M's Board of Regents chairman; Dr. Barry B. Thompson, A&M chancellor; and Dominick P. DePaola, Baylor College of Dentistry president and dean.

The Texas Senate approved the bill in May and acquisition of both schools will take effect on Sept. 1, 1996.

**Abner McCall, former Baylor president, eulogized**

WACO, Texas (AP) — Abner V. McCall, a 20-year president of Baylor University and one-time Texas Supreme Court justice, was remembered Wednesday at a memorial service attended by 3,000 mourners.

McCall died Sunday at his home. He was 80.

The university said McCall died of a massive heart attack, one day after an on-campus celebration of his 80th birthday, which was June 8.

McCall left the presidency in 1981, when he was named chancellor. He took the position of president emeritus in 1985, which he held until his death.

**Finances provide snapshot of lawmakers' lives, travels**

WASHINGTON (AP) — Texas lawmakers spent less time on foreign and domestic jaunts last year.

Financial disclosure forms released Wednesday for most of Congress' 535 House and Senate members showed that travel — both domestic and overseas — took a nosedive in the Texas congressional delegation last year.

Eight of the delegation's 32 members reported taking trips abroad at the expense of special interests. Among them were Reps. Solomon Ortiz, D-Corpus Christi, who spent 19 days in Taipei and another five in Mexico City; and Sen. Phil Gramm, R-Texas, who spent a week in Jerusalem.

**Richards addresses idea of women in Texas Rangers**

AUSTIN (AP) — Former Gov. Ann Richards said Wednesday the Texas Rangers and women entering that elite law enforcement group must come to "a certain level of understanding" now that the 103-member unit's all-male barriers have come down.

One of the first two female Rangers has filed a complaint with the state alleging sexual harassment, discrimination, retaliation and daily reminders that women weren't welcome on the force.

"I think any time that any of us enter into a sphere that has previously been all male there is going to be a period of time in which you have to make an adjustment on both sides," Richards said in an interview with The Associated Press.

"Systems and a fashion of doing things are not going to change overnight simply because there is the presence of a woman there," she said.

**FEE: Students react to Bowen's proposal**

Continued from Page 1  
they have to do what they have to do."

Joe Dowling, a senior mechanical engineering major, said he thinks that increased fees are only logical, but believes the University should not increase fees so quickly.

"It's a sign of the times," Dowling said. "As time goes on, I guess you have to expect the prices to rise. But I think they should do it gradually, instead of all at once."

Kelli Dosch, a junior journalism major, said she thought the increase was "a little steep" and was concerned how it would affect students.

"I think it's going to affect some people," Dosch said. "I'm going to make it real hard on some people to stay in school."

Lauren Dowd, a senior psychology major, said that some students could be hit hard.

"A lot of people who have pay their way are going to be affected," Dowd said. "It's just push them over the top and force them out of school."

Now you can take a practice GRE, GMAT, LSAT, or MCAT administered under actual test conditions - on us. After the test, you'll receive a detailed score report that pinpoints your test-taking strengths and weaknesses.
