worked all summer coming up with strategies," she said. "It is better to hit the problem early, before it happens."

"Bryan and College Station citizens, students, faculty and staff will have the spring semester to get accustomed to the construction, but out-of-town fans will have a rude awakening when they

come back for the first time next football season.

"That is why we are addressing the problem at the season opener, so people will know."

The task force asks that fans delay their departure from the stadium by 30 to 45 minutes to avoid traffic jams.

Traffic lights will be timed to allow maximum traffic flow away from Kyle Field. Fans parking their cars in lots adjacent to Kyle Field will depart through either a left-turn only exit or right-turn

only exit onto Wellborn Road.

Elmer Schneider, UPD associate director, said the plan will have an immediate impact on traffic during football games.

"As with any new process, there will be some problems that will occur," Schneider said.

Those problems will be ironed out throughout the year, he said.

"It's been an excellent opportunity for all the entities involved," he said. "The coordination and cooperation has been tremendous."
